Letter to Shareholders

Dear Shareholders,

With digital convergence as our core strategy, Taiwan Mobile ("TWM" or "The Company") has continued to aggressively roll out new and upgraded communications platforms (mobile internet, cable/digital TV, cable broadband), enriched its content (shopping channels, family channel, online music), and expanded traditional/virtual channels (myfone stores/website, momo cosmetic stores, momo department stores, momo online shopping and momo catalogue services). All these have strengthened and advanced Taiwan Mobile's thrust into the T.I.M.E. – Telecoms, Internet, Media and Entertainment – fields.

Steady expansion of core business

Despite the impact of the National Communication Commissions' regulatory intervention on mobile operators' voice revenue, the Company still posted stable profits in 2011 due to healthy revenue growth and good margins from all three major business groups, plus earnings contribution from momo.

In 2011, Taiwan Mobile posted a consolidated revenue of NT\$81.37bn, up 16% from a year ago. The Company's consolidated EBITDA of NT\$27.09bn and net income of NT\$13.47bn reached 105% and 103% of its annual targets respectively. Earnings per share rose 2% YoY to NT\$4.70. The main revenue growth drivers were as follows:

1. Wireless value-added services

The popularity of smartphones contributed to an increase in wireless data revenue, offering new opportunities in an already saturated telecommunications market. Taiwan's mobile carriers, thus, entered into a growth cycle. As of the end of 2011, smartphone penetration in Taiwan was only around 20%, signifying ample room for growth. Taiwan Mobile, differentiating itself by offering quality network efficiency and a wide variety of the latest smartphone models, outperformed its peers by recording a 47% YoY rise in wireless value-added service revenue.

2. Cable broadband services

By successfully bundling digital TV services and offering customers higher broadband speed, Taiwan Mobile expanded its market share and saw its number of subscribers and average revenue per user (ARPU) from cable broadband services grow 13% and 4% respectively from a year ago, leading to a steady growth in revenue.

Maximizing shareholders' value

1. Second round of capital reduction

The Company held a second round of capital reduction in August 2011, returning NT\$1 per share to shareholders. This, plus a cash dividend of NT\$4.1619 per share for 2010 earnings, translates into a cash yield of 6.4%, providing rich and steady returns for shareholders. Given a sound capital structure and relatively stable profits and dividends, Taiwan Mobile's stock outperformed the market in 2011.

2. World-class corporate governance

Taiwan Mobile's commitment over the years to corporate governance has made it a role model in protecting shareholders' interests and promoting financial transparency. The Company's compliance with global standards has earned the trust of investors and has been recognized by various domestic and international ratings institutions. These include: a "CG6006" certification" from the Taiwan Corporate Governance Association; "Best Corporate Governance in Asia" and "Best Investor Relations, Taiwan" from *Corporate Governance Asia* magazine; and an A⁺ rating and a top 10 ranking of listed companies for "Transparency and Information Disclosure" by the Securities and Futures Institute. As a further recognition for its efforts, Taiwan Mobile was one of the in "Taiwanese Enterprises: Promoting Trust and Integrity," awarded by the Industrial Development Bureau under the Ministry of Economic Affairs.

3. A role model for corporate social responsibility

TWM has also won recognitions for employing its corporate and financial resources to assist non-profit organizations in promoting social welfare. These include the "Excellence in Corporate Social Responsibility" award from *CommonWealth* magazine for five consecutive years; the top prize for "Corporate Social Responsibility" in the education category by *GlobalViews Monthly* magazine; and the "R.O.C. Enterprises Environmental Protection Award" from the Environmental Protection Administration of the Executive Yuan for three years in a row.

4. Premium services and customer satisfaction

TWM's core value of "truly caring for customers" and continuous product and service innovations were critical to its winning *Reader's Digest's* "Trusted Brand Gold Award" for the eighth consecutive year, ranking 6th on *Business Next* magazine's "Info Tech 100 Taiwan" list and being included in its "Info Tech 100 Asia"; garnering the top prize in the "2011 Digital Service Award," ICT Group, of *Business Next* magazine's digital service power survey; as well as an award for "Outstanding IT Applications/ Products" at the 2011 ICT Exhibition.

For 2012, despite continuing challenges from the regulatory front, Taiwan Mobile is well-prepared for the digital convergence age, ready to enhance its business synergies, provide an all-encompassing digital life for its customers and create maximum returns for its shareholders.

Mig-1 5/2

Richard Tsai Chairman

Chapter 1 Company Highlights

Vision

The Company's core vision is to provide customers with the best communications experience. Its aim is to become a leader in digital convergence, offering integrated information, telecommunications and media services to enhance the Company's value and maximize shareholders' interests.

Core Competency

The Company has established a cross-media platform integrating mobile communications, fixed-line, cable TV and broadband services. Through integration, the Company is able to provide seamless digital convergence services across "multiple screens and a cloud" to meet the demands of the consumer, household and corporate markets for excellent service and information security.

Excellent Brand Image

The Company has taken a human-centric approach in building up its three major brands – Taiwan Mobile, TWM Broadband and TWM Solution – with an emphasis on "integrity, innovation, passion and simplicity." TWM has transformed advanced technologies into simple, practical, user-friendly mobile communications services that can be accessed anytime, anywhere, and via any device to meet the different needs of individual customers and allow them to enjoy the ease, convenience, joy and comfort of a high-tech, mobile lifestyle.

"Together with you" is TWM's brand vision - a reflection of its commitment to customers.

Date of Incorporation

The Company was founded on February 25, 1997.

Milestones

1. The Company's merger and acquisition activities and status of affiliates

- Merger and acquisition activities: Wealth Media Technology Co., Ltd., a subsidiary of the Company, acquired a 51% stake in Fubon Multimedia Technology Co., Ltd. (also known as momo) in July 2011.

Board of Directors and Executive Management

Board of Directors

The board of directors, acting on behalf of the Company's shareholders, is charged with the task of supervising the management team. The board, elected and approved during the AGM on June 15, 2011, includes four independent directors, which more than fulfills current regulations requiring public companies having at least two independent directors. The Audit Committee, composed entirely of independent directors, replaced board supervisors. Information on the Company's Sixth Board of Directors is detailed below:

Note: Compensation paid to managers in the above table was based on tenure. Compensation paid to managers who also served as directors is detailed in the "Compensation to directors" table.

5. The names of managers and their employee bonuses are included in the table above.

Compensation to directors and management executives as a percentage of net income over the past two years and guiding principles

1. Compensation to directors

| | | | | Unit: NT\$ |
|-------------------------|------|---------------------------|-------------------------|----------------|
| Туре | Year | Compensation to directors | As a % of net profit | Net profit |
| On a stand-alone basis | 2010 | 214,984,114 | 1.5554% | 13,822,185,662 |
| On a stand-alone basis | 2011 | 118,035,228 | 0.8764% | 13,468,763,392 |
| On a consolidated basis | 2010 | 215,765,714 | 1.5615% | 13,817,777,608 |
| | 2011 | 119,083,228 | 0.8739% | 13,626,179,950 |

Guiding principles for compensation to directors

Remuneration policies, standards and package

- (1) The board is authorized to decide the remuneration for the chairman and vice chairman, but it should not be higher than the remuneration payable to the CEO of the Company.
- (2) Directors are paid according to the resolution on earnings distribution approved at the annual general shareholders' meeting. Remuneration or other equivalent allowance for directors are based on their involvement in the Company's operations and contribution to the Company, the "Rules for Setting Director's Remuneration" and industry norms.
- (3) Transportation allowances are paid quarterly based on attendance in board meetings and for services rendered as the chairman or a member of the Audit Committee and Compensation Committee.

Procedure for setting remuneration

- (1) In accordance with the Company's Articles of Incorporation, compensation to directors shall not exceed 0.3% of the Company's annual net income after deducting previous years' losses, appropriating 10% thereof for legal reserves, and setting aside special reserves.
- (2) Transportation allowances are determined in accordance with the "Rules for Setting Director's Remuneration."

Performance factor

Compensation to each director is assessed based on his/her contribution to the operations of the Company and the board. The Compensation Committee reviews the compensation mechanism periodically, taking future operating risks, environmental conservation and corporate social responsibility into consideration.

| | | | | Unit: NT\$ |
|-------------------------|------|---|-------------------------|----------------|
| Туре | Year | Compensation to management executives | As a % of net profit | Net profit |
| On a stand-alone basis | 2010 | 306,597,532 | 2.2182% | 13,822,185,662 |
| On a stand-alone basis | 2011 | 192,431,994 | 1.4287% | 13,468,763,392 |
| | 2010 | 309,219,007 | 2.2378% | 13,817,777,608 |
| On a consolidated basis | 2011 | 192,791,594 | 1.4149% | 13,626,179,950 |

2. Compensation to management executives

Guiding principles for compensation to management executives

Remuneration policies, standards and package

- (1) Compensation to the president and vice presidents comprises a fixed monthly salary and performance bonus.
- (2) Performance bonuses are determined based on the president's or the vice president's contribution to the Company and the results of an annual performance appraisal. The above-mentioned bonuses are proposed by the Compensation Committee for approval at the board meeting.

Procedure for setting remuneration

- (1) In accordance with the Company's Articles of Incorporation, employee profit sharing paid to the president and vice presidents is from the pool of 1% to 3% of the Company's annual net income after deducting previous years' losses, appropriating 10% thereof for legal reserves, and setting aside special reserves.
- (2) Year-end bonuses are set based on the Company's performance and the annual budget approved by the board and the chairman.

Performance factor

- (1) Variable compensations in the form of employee profit sharing and performance-based bonuses account for approximately 50% of the remuneration and are determined based on the president's or vice president's contribution to the Company's operations. The Company shall review the compensation mechanism periodically, taking future operating risks, environmental conservation, and corporate social responsibilities into consideration.
- (2) The Human Resources Department is tasked with preparing the annual compensation for the president and vice presidents and submitting a report to the Compensation Committee.

CORPORATE GOVERNANCE

Board of Directors attendance

1. The Board of Directors convened eight times in 2011

| Title | Name | Attendance in person | By proxy | Attendance ratio | Remarks |
|-------------------------|---|-------------------------|----------|---------------------|---------|
| Chairman | Fu-Chi Venture Corp. Representative: Richard Tsai | 7 | 1 | 88% | None |
| Vice Chairman | Fu-Chi Venture Corp. Representative: Daniel Tsai | 8 | 0 | 100% | None |
| Director | TCC Investment Co., Ltd. Representative: Cliff Lai | 7 | 1 | 88% | None |
| Director | TCC Investment Co., Ltd. Representative: Vivien Hsu | 8 | 0 | 100% | None |
| Director | Fu-Chi Venture Corp. Representative: Victor Kung | 8 | 0 | 100% | None |
| Independent Director | Jack J.T. Huang | 5 | 3 | 63% | None |
| Independent Director | Tsung-Ming Chung | 8 | 0 | 100% | None |
| Independent Director | Wen-Li Yeh | 8 | 0 | 100% | None |
| Independent Director | J. Carl Hsu | 8 | 0 | 100% | None |

2. Any objections or issues raised by independent directors against resolutions passed by the Board of Directors pursuant to Article 14-3 of the Securities and Exchange Act: None

3. Any conflict of interests among directors:

- (1) Discussion of a proposal to acquire 58,856,550 shares (translating into a 51% stake) of Fubon Multimedia Technology Co., Ltd. through Wealth Media Technology Co., Ltd., a 100%-owned subsidiary of the Company, from Fubon Financial Holding Venture Capital Corp., during the 19th meeting of the fifth Board of Directors on April 8, 2011: Chairman Richard Tsai, Vice Chairman Daniel Tsai and Director Victor Kung, who also held positions as directors or supervisors of Fubon Financial Holding Venture Capital Corp., abstained from discussion and voting to avoid a conflict of interest in accordance with Articles 178 and 206 of the Company Act.
- (2) During the 20th and 21st meetings of the fifth Board of Directors on April 28, 2011 and April 29, 2011, respectively, independent directors Jack J.T. Huang, Tsung-Ming Chung, Wen-Li Yeh and J. Carl Hsu abstained from discussion and voting on the nomination and review of candidates for independent directors to avoid a conflict of interest in accordance with Articles 178 and 206 of the Company Act.

4. Other BOD objectives:

- (1) Performance evaluation and enhancement: The board approved the "Rules and Procedures Governing Board of Directors' Meetings," which was modeled after the "Regulations Governing Procedures for Meetings of Listed Companies' Board of Directors." It also passed the "Rules and Procedures on Evaluating the Board of Directors' Performance" to enhance efficiency, under which the Compensation Committee would evaluate the board's performance and submit a report on proposed improvements to the board. All members participated in a self-evaluation of individual performances for 2011 during the fifth meeting of the board on January 19, 2012.
- (2) Training programs for directors: Since 2008, the Company has conducted regular in-house seminars to facilitate interaction between the lecturer and directors and to meet the required training hours.
- (3) Information transparency: Committed to upholding transparency in operations and protecting shareholders'

interests, the Company regularly discloses resolutions by the Board of Directors in a timely and consistent manner. In addition, the Company holds institutional investors' conference on a quarterly basis.

(4) Liability insurance: The Company purchases liability insurance annually for its directors and managers to cover risks as they carry out their duties.

Audit Committee attendance

The Audit Committee has been set up since June 2008 to replace board supervisors, pursuant to provisions in the Securities and Exchange Act. The committee's operation is bound by the "Audit Committee Charter" and its main responsibility is to assist the board in overseeing the following:

- (1) Integrity of the Company's financial statements
- (2) Independent auditors' appointment (termination) and integrity/performance
- (3) Internal risk controls
- (4) Company's compliance with legal and regulatory requirements
- (5) Company's existing and potential risks

1. The Audit Committee convened eight times in 2011

| Title | Name | Attendance in person | By proxy | Attendance ratio | Remarks |
|-------------------------|---------------------|-------------------------|----------|------------------|------------------------------------|
| Independent Director | Tsung-Ming Chung | 8 | 0 | 100% | Appointed committee chairman |
| Independent Director | Jack J.T. Huang | 6 | 2 | 75% | |
| Independent Director | Wen-Li Yeh | 8 | 0 | 100% | |
| Independent Director | J. Carl Hsu | 8 | 0 | 100% | |

Any objections or issues raised by the Audit Committee against resolutions, pursuant to Article 14-5 of the Securities and Exchange Act, that were approved by over two-thirds of the directors: None

2. Any conflict of interests among the independent directors: None

3. Communication between the independent directors and the Internal Audit Chief Officer and CPAs:

- (1) In addition to presenting monthly reports to the independent directors, the Internal Audit Chief meets with the independent directors directly at the quarterly Audit Committee meetings, bringing communication into full play.
- (2) The CPAs present audit reports and findings to the independent directors during the committee's quarterly meeting.
- (3) The Internal Audit Chief and CPAs also communicate with the independent directors directly as needed.

Corporate governance practices

| | ltem | Current practice | | |
|--|---|--|--|--|
| | Handling of shareholders' suggestions and disputes | The spokesperson or Secretarial Division handles all non-legal issues; the legal division handles all legal issues. | | |
| Shareholding structure and shareholders' | Identification of major shareholders and investors with controlling interests | The Secretarial Division reports the shareholding lists of directors, managers and major shareholders (above 10% holdings) to the authority on a monthly basis. | | |
| interests | Risk control mechanisms and firewalls between the Company and its subsidiaries | The Company's internal control system has established "Rules and Procedures on Conducting Transactions between Group Companies and Related Parties" and "Rules and Procedures on Monitoring Subsidiaries" as risk | | |

| | Item | Current practice |
|-----------------------------|---|--|
| | | control mechanisms. |
| Board of directors | Independent directors | The Company's board includes four independent directors. |
| and its responsibilities | Periodic review of CPA's independence | The Audit Committee conducts quarterly reviews on CPA's independence. |
| Communication chan | nels with shareholders | The spokesperson and the mailboxes of spokesperson and the Audit Committee serve as the main communication channels between the Company and shareholders. |
| Information | Disclosure of financial, operational and corporate governance information | Disclosure of financial-related and corporate governance information is posted periodically on the Company's website. |
| disclosure | Other ways of disclosing information | In addition to the spokesperson, the Company has set up an English website and designated personnel to gather and disclose Company information in time. A dedicated department, Investor Relations Division, was in place to enhance information disclosure. |
| | <u>.</u> | The Compensation Committee, composed entirely of independent directors, was set up in July 2011. Bound by the "Compensation Committee Charter," the committee's main responsibilities are as follows: |
| Functional committees | | (1) Establish a policy, system, standard and structure for directors and managers' compensation and review them periodically. |
| | | (2) Decide compensation for directors and managers and hold periodic evaluations. |
| Has the Company | established principles based | on "Corporate Governance Best Practice Principles for |

Has the Company established principles based on "Corporate Governance Best Practice Principles for TWSE/GTSM Listed Companies"? If yes, detail implementation progress and any differences:

Although the Company has not established said principles, its operations fully comply with the requirements set forth in the "Corporate Governance Best Practice Principles for TWSE/GTSM Listed Companies." The Company also has a "CG6006 Advanced Corporate Governance System Evaluation" certification from the Taiwan Corporate Governance Association, issued on November 4, 2011.

Additional information

1. Employee rights

The Company's human resource policies not only comply with, but offer even better provisions than those prescribed under the law, such as the Labor Standards Act, in safeguarding employee rights.

2. Employee care

The Company provides different communication channels to facilitate communication within the Company. These include holding regular employee and managerial meetings to accommodate suggestions for improvement and conducting surveys to collect employees' views and opinions.

3. Investor relations

The Company posts financial, operational and material information on the Company website and the market observation post system (MOPS) in a timely manner to keep investors abreast of Company developments and strategies and, thus, maximize shareholders' interests.

4. Supplier relations

The Company holds procurement bids based on the "Procedures Governing Procurement," and suppliers deliver products in accordance with the contract.

5. Stakeholders' rights

To protect the interests of stakeholders, the Company has established various free and open communication channels to promote trust and corporate social responsibility.

Note 1: The training requirements listed above have been fulfilled.

8. Risk management

Risk management policies

- (1) Promote a risk management-based business model
- (2) Establish a risk management mechanism that can effectively cite, evaluate, supervise and control risk
- (3) Create a company-wide risk management structure that can limit risk to an acceptable level
- (4) Introduce best risk management practices and continue to seek improvements

Risk management structure

The Company's risk management structure is made up of three levels of control mechanism:

- (1) <u>Ground:</u> Risk factors are analyzed and assigned to responsible units to monitor and ensure timely and effective detection.
- (2) <u>Middle</u>: Operations and Management Committee, Safety and Health Committee, and Information Security Management Committee assume responsibility. Co-President and committee chair convene a task force composed of unit chief officers and supervising vice president of concerned departments.
- (3) Top: Board of Directors
- (4) Monitoring mechanism: Internal Audit Office

Risk management operation mechanism

- (1) <u>Ground:</u> Each unit shall ensure, on a daily basis, that risks are kept under acceptable levels. Should there be any changes in condition or other factors, the responsible unit shall report these to the Company for the appropriate course of action.
- (2) <u>Middle</u>: Should any material event or situation arise, the responsible unit shall report it to the Operations and Management Committee or the other two committees to examine the risks and undertake any necessary measures. The function of the three committees are as follows:
 - Operations and Management Committee: Conduct periodic review of each business group's operating target and performance to meet the Company's guidance and budget.
 - Safety and Health Committee: Tasked with supervising and reducing potential risks to workers' safety and health.
 - Information Security Management Committee: Supervise important information assets for confidentiality, integrity, availability, and regulatory compliance in order to control and reduce operational risks to an effective and reasonable level.
- (3) <u>Top:</u> The Board of Directors is the highest supervisory and decision-making body responsible for assessing material risk assessment, designating action to control these risks and keeping track of their execution.
- (4) Monitoring mechanism:
 - The Internal Audit Office regularly monitors and assesses potential and varying levels of risks that the Company may face and using this information as a reference for drafting its annual audit plan.
 - The Internal Audit Office should report any discrepancy to the concerned unit chief and ensure that remediation efforts are completed.

Risk factors and management structure

| | Important risk factors | Responsible unit | Examining committee | Decision-making and supervision |
|----|---|--|--|---|
| 1 | Operating risk | Technology units / IT | Operations and Management | |
| 2 | Changes related to technology and industry | Systems Design Division | Committee | |
| 3 | Risks related to information security | Internal Audit Office | Information Security Management Committee | |
| 4 | Market risk A. Competition B. New products C. Channel management | A. Marketing units B. Marketing units C. Business Operations Management units | Operations and Management | |
| 5 | Government policies and regulatory compliance | Regulatory and Carrier Relations Division | Committee | The birth out |
| 6 | Corporate image | Public Affairs Division | | The highest |
| 7 | M&A and investments | President's Office | | decision-making |
| 8 | Employee safety | Occupational Safety and Health Office and Administrative Division | Safety and Health Committee | body: Board of Directors |
| 9 | Employee behavior, code and ethics | Human Resources Division | | Manitaring |
| 10 | Volatility of interest rates, exchange rates and financial risks | Finance Division | | Monitoring mechanism: Internal Audit Office |
| 11 | Financing and endorsement/guarantee provided to others, derivatives transaction and working capital management | Finance Division | Operations and Management | |
| 12 | Financial report disclosure | Accounting Division | Committee | |
| 13 | Litigious and non-litigious matters | Legal Office | | |
| 14 | Changes in shareholding of directors and major shareholders | Secretarial Division | | |
| 15 | Board meeting facilitation | Secretarial Division | | |

9. Implementation of customer policy

With the mission of "creating the best user experience," the Company is continuously striving to improve its products, services and operations to win customer trust and raise the quality of customer care.

10. The Company has purchased liability insurance for its directors.

11. Employees' certifications relating to financial transparency

- (1) Certified Internal Auditor (CIA): One employee in the Operation Analysis Division; seven in the Internal Audit Office.
- (2) First-level examiner of internal controls (Securities and Futures Institute): Five in the Secretarial Division.
- (3) Qualified Internal Auditor (QIA): One employee in the Operation Analysis Division; seven in the Internal Audit Office; one in Accounting Division.
- (4) Certified Public Accountant (CPA): One employee in the CFO Office; four in the Operation Analysis Division; three in the Accounting Division; one in the Finance Division.

12. Any internal evaluation or third party assessment reports on corporate governance. If yes, specify results, major flaws or recommendations for improvements:

Taiwan Mobile received a "CG6006 Advanced Corporate Governance System Evaluation" certification, valid for two years, from the Taiwan Corporate Governance Association in 2011. The results of the evaluation and its major recommendations as well as improvements made by the Company, are listed below:

- (1) Overall strengths
 - A. Expansion of board functions: The Company's initiative in setting up an audit committee and compensation committee is worthy of recommendation.
 - B. Continued pursuit of international standards in corporate governance: The Company has received numerous awards for corporate governance, financial disclosure and investor relations from domestic and foreign independent ratings institutions and serves as a role model for Taiwan's listed companies.

- C. Commendable performance by Audit Committee: The Company's four independent directors all possess the professional expertise and knowledge to carry out their duties.
- (2) Recommendations and subsequent improvements made by the Company
 - A. Set up a board-approved risk management policy and related regulations to cover all aspects of risks and standard procedures for reporting material events:

The board passed the Risk Management Policy on October 27, 2011.

B. Draw up quality assurance and improvement plans verified by independent institutions for internal audit:

The quality assurance and improvement plans have been incorporated into the internal audit system and approved by the board on January 19, 2012.

C. Promote participation by Audit Committee members in the appointment and evaluation of the Chief Internal Audit Officer:

The Audit Committee will participate in the interview of the Chief Internal Audit Officer should there be a reshuffle. Evaluation of the Chief Internal Audit Officer's performance will be conducted by the Compensation Committee.

Compensation Committee operations

The Compensation Committee, composed entirely of independent board directors, is bound by the "Compensation Committee Charter." The committee is responsible for evaluation of the following matters:

- (1) Establish a policy, system, standard and structure for directors and managers compensation and review them periodically.
- (2) Decide compensation for directors and managers and carry out a periodic evaluation.

The Compensation Committee convened once in 2011

| Title | Name | e Attendance in person By proxy | | Attendance ratio | Remarks |

| Corporate governance 1. Establishing a CSR policy or system and review mechanism 2. Setting up a unit to carry out this policy or system | 1. The concept of CSR has been embedded in the strategic decisions and dail operations of all departments of TWM. In accordance with the "Corporate Social Responsibility Best Practice Principles for TWSE/GTSM-Listed Companies " issued by the Taiwan Stock Exchange Corp, the board approved the "Taiwan Mobile CSR Policy" to serve as a long-term guideline for promoting CSR in January 2011. | | | | | | |
| 3. Holding regular training programs on business ethics for directors and employees and establishing a reward-and-punishment system | 2. In 2007, TWM established a Social Responsibility Department under the Public Relations Division to draft and carry out CSR initiatives. With designated personnel and a separate budget, the department provides planning, execution and coordination across different divisions. | | | | | | |
| | 3. In addition to regular training programs on business ethics, the Company has formulated a Code of Ethics that all directors, managers and employees are expected to follow and support. Employees can access the Code of Ethics via TWM's e-Learning website from August 2010. An intranet hotline has been set up for employees to report any violation of the Code. Violators shall be punished in accordance with Company regulations. | | | | | | |

| Commitment to corporate social | 1 TWM's Code of Ethics conves as a guideling for employees. The company has |
| responsibility | 1. TWM's Code of Ethics serves as a guideline for employees. The company has also established a performance-based reward system to motivate employees. |
| Building a system to safeguard workers' rights in accordance with labor laws Providing employees with a safe and healthy working environment as well as regular training on safety and | 2. The Company aims to provide a safe and healthy working environment for employees and has implemented related measures to promote employee health and mental well-being. It also conducts periodic evaluations of the working environment and programs on promoting workers' safety and health education. Related information on employee safety and health is posted on the Company's intranet. |
| health education 3. Drawing up a policy on protecting consumers' rights and providing a transparent and effective mechanism for filing and processing complaints about products and services 4. Working with vendors to promote corporate social responsibility. 5. Promoting community development projects and philanthropic work through commercial activities, donations, volunteer work or other services. | 3. To protect consumers' rights, the company provides various services and information, such as outdoor coverage of wireless broadband, free trial service for mobile internet, customers' prior agreement needed to activate mobile internet and measures to protect minors. All these are written in the customer service contracts and posted on the company website and on posters in the company stores. To raise customer satisfaction in line with TWM's "customer first" policy, the Company introduced a "mobile customer app" in 2011 that provides a variety of ways to access customer services – hotline, company store, website and phone app – with designated agents dealing with customer complaints in line with standard operating procedures. A dedicated unit monitors and conducts periodic reviews of measures to promote customer satisfaction. 4. TWM believes that ethics serves as the moral foundation of a well-managed enterprise. To promote a fair and just system, the Company set up an open procurement system to select suppliers and required that all suppliers comply with "TWM's Environmental and Occupational Health and Safety Policy" and "Guidelines on Corporate Social Responsibility for Suppliers." Furthermore, TWM provides first bargaining rights to green-product and conflict-free product suppliers to encourage others to likewise produce environmentally friendly products. (1) TWM does not use any product from conflict material/product suppliers. |
| | (2) TWM requests its suppliers to investigate their supply chains to ensure that no products are from conflict areas. 5. TWM has made significant progress in fulfilling its corporate social responsibility systematically and strategically. The Company leverages its core competence in telecommunications, network and digital convergence to |
| | (1) The potential benefits for society. (1) The potential benefit of carbon emissions reduction throughout the ICT industry is far greater than what TWM can achieve on its own. As such, the Company has actively helped consumers and other organizations meet energy-saving and carbon-reduction goals through handset recycling, e-billing, green cloud IDC and video conferencing among others. |
| | (2) A number of digital learning centers have been established in remote areas in Taiwan, with digital teaching materials published. TWM organized the myfone Mobile Awards and Mobile Film Creation Camp to encourage teenagers to create digital content. The Company has also contributed hardware equipment, information literacy and information applications to help expand digital opportunities for remote and underprivileged communities, enrich digital content and applications, and enhance the nation's digital competitiveness. |
| | (3) The 5180 Mobile Donation Hotline and Discount Rate for Persons with Disabilities are examples of how the Company cares for disadvantaged groups. TWM also sponsored the Chinese Christian Relief Association's "After-school Tutor Program" for children from underprivileged families, Canlove Social Services Association's "Depression Consultation and Prevention," Champions Education Association's "Teenager EQ Management and Life Education Program". |
| | (4) Since 2007, TWM has implemented its "Corporate Volunteer Guidelines" to encourage employees to take an active role in fulfilling their social responsibilities. Volunteers can take two paid days off a year to participate in community service activities. Transportation allowances and insurance, as well as comprehensive training, are provided. To date, 958 participants have joined such activities. |

|--|---|
| Information disclosure 1. Disclosing relevant and reliable information on corporate social responsibility. 2. Process for preparing and disclosing CSR information | CSR-related information is updated on the websites of the Company and the Taiwan Mobile Foundation in a timely manner. All information and data contained in the CSR reports are compiled internally and verified by an external party to ensure their reliability and accuracy. All information (subject and content) are deemed to be materially important and designed to meet stakeholders' expectations. TWM released its first CSR report in 2007. A second report, released in 2009, complies with the GRI G3 and the AA1000 assurance standards on CSR disclosure practices. In addition, information disclosed in the 2011 CSR report complies with the latest GRI G3.1 application level of B+, as audited by an |
| | independent third-party organization. |

The Company's CSR policy and practices fully comply with the "Corporate Social Responsibility Best-Practice Principles for TWSE/GTSM Listed Companies."

The concept of CSR has been embedded in the strategic decisions and daily operations of all departments. TWM went a step further, with the Board of Directors passing the "Taiwan Mobile CSR Policy" to serve as a long-term guideline for promoting CSR and fulfilling the company's commitment to society in January 2011.

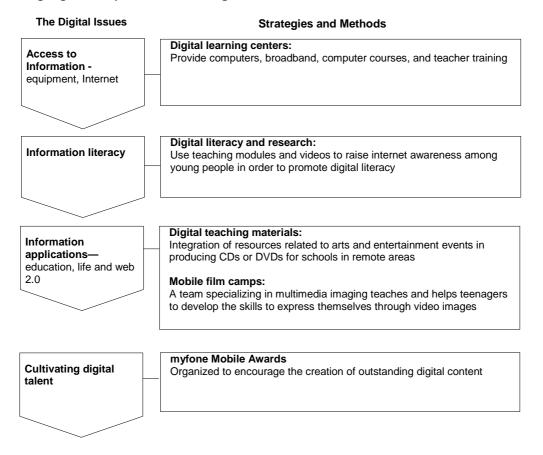

The policy contains six articles, with the Company's underlying corporate philosophy and core values serving as the foundation, emphasizing corporate governance, stakeholder's interests and full disclosure, and leveraging off the Company's core competence and services to promote environmental conservation and public welfare.

Additional information on CSR-related matters:

TWM leverages its core competence in telecommunications, network and digital convergence to generate wider benefits for society.

1. Enhancing digital competitiveness

Enhancing Digital Competitiveness Strategies

- TWM continued to set up broadband services in remote areas like Nantou County's Sinyi township and Hsinchu County's Jianshih township in 2011. TWM has also collaborated with local nonprofit organizations (NPOs) to set up 13 digital learning centers.
- TWM has published 14 sets of digital teaching materials on culture, the environment and network safety as well as conducted online researches with NPOs to better understand teenage behavior.
- TWM hosted the "Mobile Film Creation Camp for Teenagers" to promote imaging education and applications, teaching teenagers how to express their ideas through creation of video images and to cultivate future multimedia talent.
- TWM launched the "myfone Mobile Awards" to encourage creation of new types of literature and music. The contest attracted a record nearly 50,000 entries. Awards were handed out for the best "SMS literature" and "original musical ringtones."

2. Environmental protection

Aside from compliance and reducing pollution, TWM has also taken the initiative in helping build an intelligent low-carbon society by leveraging its key resources in the ICT service industry. The Company helps other businesses reduce their carbon emissions through its mobile and e-services, and promote environmental protection through its extensive interaction with subscribers and consumers. In 2011, the Company was awarded "The 20th R.O.C. Enterprise Environmental Protection Award" by the Environmental Protection Administration – the only company in the service sector to have won this prize three times in a row.

3. Community participation and social care

- TWM introduced the "5180 Mobile Donation Hotline," a micro-donation platform, to provide a fund-raising channel for 56 NPOs.
- TWM sponsors tutorial sessions for some 200 children from underprivileged families every year.
- TWM works with the Canlove Social Services Association to provide professional counseling services to people suffering from depression and to promote suicide prevention awareness. More than 90,000 participants took part in these events in 2011.
- TWM sponsors an NGO that provides classes on "EQ Management" and "Suicide Prevention" to junior high school students. A total of 190,000 students have been involved in this program.

4. Consumers' interests:

TWM introduced a global standard information security management system to ensure that customers' personal information is strictly protected every step of the way – from form application to activation, information changes, billing, settlement and customer services.

5. Human rights:

TWM has never employed child workers. Pursuant to the Gender Equality in Employment Act and Employment Services Act, the Company has never discriminated against any employee and ethnic group or forced labor on its employees. Employees are free to form associations.

6. Safety and health:

To build up a vital, happy and healthy workplace, TWM has designed various activities for its employees with a focus on promoting a safe environment, disease prevention, health and spiritual relaxation. From 2007 to 2011, the Company received the following awards: "LOHAS (Lifestyles of Health and Sustainability)," "Community Health," "Leader in Health" and "Best Weight Loss Office" from the Cabinet-level of the Department of Health. It also received top certifications from Taipei City's Health Department for its breastfeeding rooms.

7. Cultural promotions:

- TWM introduced the "909 Mobile Phone Audio Guide," which employs mobile communications technology and cloud database to promote art and culture.
- To promote cultural literacy, TWM has since 2005 held 28 large outdoor concerts throughout the country, with more than 380,000 people attending these events.

Has the Company issued CSR reports that have been verified by an independent third-party assurance organization?

In 2009, TWM's CSR report was verified by an independent third-party organization, the British Standards Institute, in accordance with its AA1000 assurance standards and GRI guidelines. In addition, information disclosed in the 2011 CSR report complies with the latest GRI G3.1 application level of B+, as audited by an independent third-party organization.

Honest and ethical conduct

Integrity lies at the core of TWM's corporate culture, and employees are enjoined to act and perform their duties in an honest and ethical manner to fulfill their social responsibility to investors, consumers and the community. If an employee becomes aware of any conduct or activity that may violate the Company's "Code of Ethics," said employee is duty-bound to promptly report the matter through the Company's intranet. TWM has also invested in liability insurance for all employees, with the insured value rising along with the risks associated with an employee's work.

Corporate governance rules and procedures

The Company has implemented a number of rules and procedures to enhance its corporate governance practices. It has revised the Rules and Procedures Governing Shareholders' Meetings, Rules and Procedures on Conducting Transactions between Group Companies and Related Parties, the Corporate Governance Committee Charter, the Audit Committee Charter, Rules and Procedures Governing Board of Directors' Meetings, Regulations Governing Internal Material Information, the Code of Ethics, Ethical Corporate Management Best Practice Principles and Corporate Social Responsibility Policy. With these changes, not only does the Company's corporate governance mechanism comply with Taiwan's Securities and Exchange Act, but it also adheres to the highest international standards.

Additional information on corporate governance operations:

Corporate governance principles

- Timely disclosure of material information
- Checks and balances between the board and management
- Fair representation of independent board members
- Audit Committee ensures fair and independent financial oversight
- Compensation Committee ensures sound corporate governance practices and compensation systems for directors and managers are in place
- Adoption of a cash dividend policy based on a high earnings payout ratio
- Vote for each proposal at AGM to promote execution of shareholders' rights
- Comply with Code of Ethics and Ethical Corporate Management Best Practice Principles and implement internal audit mechanism

To ensure that employees, managers and directors promote information transparency and timely disclosure, the Company disseminates "Regulations on Dealing with Internal Material Information" (approved by the Board on January 22, 2009) on an annual basis and incorporates it into its internal control system to avoid risks of insider trading.

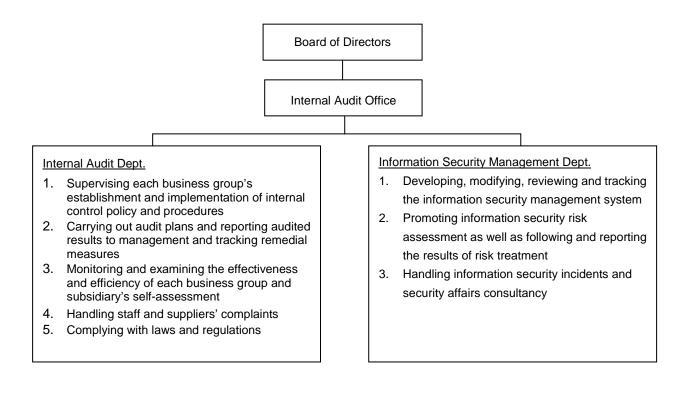

Internal control system

1. Internal control mechanism

The Company's Internal Audit Office is made up of two departments: internal audit and information security management. The internal audit department carries out audits while the information security management department sets information security affairs into action.

The Company's Internal Audit Office is an independent unit that reports directly to the Board of Directors. It is responsible for the examination and assessment of the internal controls of the Company's financial, sales, operations and management departments. All departments, including those of the subsidiaries, are subject to its audit.

Regular internal audits are executed according to the annual audit plan. Special audit projects are implemented as needed. These audits enhance internal control and provide timely recommendations for future improvements. In accordance with corporate governance, audit reports are regularly submitted to and reviewed by the Chairman as well as the Audit Committee. The Internal Audit Office also examines the mechanisms and results of self-evaluations by departments and subsidiaries to ensure strict implementation. In addition, it generates and consolidates related inspection reports for the CEO and the Board of Directors to evaluate the overall efficiency of existing internal control systems before generating an internal control system statement.

2. Internal control statement

Taiwan Mobile Co., Ltd.

Internal Control Statement

Date: January 19, 2012

Taiwan Mobile (TWM) states the following with regard to its internal control system for the year 2011:

- 1. TWM is fully aware that establishing, operating, and maintaining an internal control system are the responsibilities of its Board of Directors and management. TWM has established such a system to provide reasonable assurance in achieving objectives related to the effectiveness and efficiency of operations (including profits, performance, and safeguarding of assets), reliability of financial reporting, and compliance with applicable laws and regulations.
- 2. An internal control system has inherent limitations. An effective internal control system, no matter how perfectly designed, can provide only a reasonable assurance in the accomplishment of the three goals mentioned above. Furthermore, the effectiveness of an internal control system may change along with changes in the environment or circumstances. The internal control system of the Company contains self-monitoring mechanisms and the Company takes corrective actions as soon as a deficiency is identified.
- 3. TWM evaluates the design and operating effectiveness of its internal control system based on the criteria provided in the "Regulations Governing the Establishment of Internal Control Systems" by public companies promulgated by the Securities and Futures Bureau, the Financial Supervisory Commission, and the Executive Yuan (herein referred to as "Regulations"). The internal control system evaluation criteria stated in the Regulations classify internal control into five key elements based on the process of management control: 1. Control environment, 2. Risk assessment and response, 3. Control activities, 4. Information and communications, 5. Monitoring. Please refer to the Regulations for details on these five key elements.
- 4. TWM has evaluated the design and operating effectiveness of its internal control system according to the aforesaid criteria.
- 5. Based on the findings of the evaluation mentioned in the third paragraph, TWM believes that as of Dec. 31, 2011, its internal control system (including its supervision of subsidiaries), which encompasses internal controls for the knowledge of the degree of achieving operational effectiveness and efficiency objectives, reliability of financial reporting, and compliance with applicable laws and regulations, was effectively designed and operating and reasonably assured the achievement of the above-stated objectives.
- 6. This statement will form a major part of the Company's Annual Report and Prospectus and will be made public. Any falsehood, concealment, or other illegality in the content made public will entail legal liability under Articles 20, 32, 171 and 174 of the Securities and Exchange Act.
- 7. This statement has been passed by the TWM Board of Directors' Meeting on January 19, 2012, where all of the nine attending directors did not express any dissenting opinion and affirmed the content of the same.

Dividend policy

1. Dividend policy under Articles of Incorporation

The policy shall take into account the Company's major capital expenditure plans for the future and stock dividends shall not exceed 80% of total dividends distributed in a single year. The dividend payout proposed by the board of directors (BOD) has to be approved at the annual shareholders' meeting.

2. Proposed dividend allocation for approval at the annual shareholders' meeting

The BOD has not yet approved the proposal for dividend allocation of 2011 earnings as of the publication date. The BOD expects to approve the dividend distribution 40 days prior to the AGM, and any resolution resolved will be announced on the Company's website and MOPS.

Impact of stock dividend distribution on business performance and EPS

The BOD has not yet approved the proposal for dividend allocation of 2011 earnings as of the publication date.

Employee bonus and compensation to directors

1. Earnings distribution plan according to the Company's Articles of Incorporation

According to the Company's Articles of Incorporation, annual net income after deducting losses from previous years, appropriating 10% thereof for legal reserves, and setting aside special reserves, shall be distributed in the following order:

- 1) Dividends and bonuses to preferred stockholders;
- 2) Maximum of 0.3% as compensation to directors;
- 3) 1% to 3% as bonuses to employees;

4) Remainder thereafter to be set aside for stock/cash dividends to shareholders as determined in the annual shareholders' meeting.

The board of directors is empowered to decide the allocation of stock bonuses to employees. Recipients are to include qualified employees of subsidiaries.

2. Accounting treatment for the deviation between estimated and actual distribution amount of employee

bonuses and compensation to directors

Should there be a significant adjustment on the distribution amount approved by the BOD from the previous accrual after year-end, the accrued amount should be revised accordingly. However, should there be another change in the amount app53roved at the annual shareholders' meeting, the adjustment should be treated as a "change in accounting estimation," and the difference from the BOD resolution should be booked in the year the AGM is held.

3. 2011 proposal on employee bonuses and compensation to directors adopted by the board of directors

The BOD has not yet approved the proposal for dividend allocation of 2011 earnings as of the publication date. The BOD expects to approve the dividend distribution 40 days prior to the AGM, and any resolution resolved will be announced on the Company's website and MOPS.

4. Earnings distributed as employee bonus and compensation to directors in the previous year

An employee cash bonus of NT\$373,059,447 and compensation to directors of NT\$37,305,945, as approved in the 2011 board of directors' and shareholders' meetings, were duly paid in 2011.

Chapter 4 Operational Highlights

Macro Environment

Consumer spending on communication and broadcasting related services is largely influenced by the macroeconomic environment. According to the Directorate-General of Budget, Accounting and Statistics (DGBAS), private consumption maintained a healthy growth momentum last year due to falling unemployment and rising wages. However, as the European debt crisis continued to cast a shadow over the global economy in the second half of 2011, corporate earnings and employment took a hit, affecting consumer confidence and buying willingness. As a result, private consumption growth moderated to 3.10% in 2011 from 3.67% in 2010. Although growth in the emerging markets should help prop up the global economy this year, consumer confidence is expected to remain weak due to continuing uncertainty. Private consumption growth is thus forecast to slow further to 2.69% in 2012.

Overall Operating Results

In 2011, in spite of the impact of the National Communications Commission's (NCC) mandatory tariff cuts on mobile operators' voice service revenue, the Company still saw a 16% YoY rise in consolidated revenue, as it pushed wireless data, cable broadband and other promising businesses. In terms of profitability, despite increased handset subsidies to boost smartphone penetration, the Company managed to post stable earnings due to: 1) rising revenue, 2) contained network cost and administration expenses, which were lower than a year ago, and, 3) earnings contribution from momo (51% owned by the Company and consolidated into TWM since July 13, 2011, contributing 2% to TWM's full-year consolidated EBITDA in 2011). The following is a description of the performance of the Company's three major business groups: Consumer Business Group (CBG), Home Business Group (HBG) and Enterprise Business Group (EBG).

Performance by division

| | CBG | HBG | EBG |

Operating Results Review

Consumer Business Group

Mandatory tariff cuts imposed by the National Communications Commission (NCC) weighed on mobile voice revenue in 2011. However, with mobile data revenue surging 47% from a year ago – accounting for 27% of overall mobile service revenue – mobile service revenue still grew 1% YoY. This, together with handset sales, lifted CBG's total revenue by 5% from a year ago.

Home Business Group

HBG's 2011 revenue rose 4% from a year ago due to revenue growth from its pay TV (including analog and digital channels) and cable broadband businesses. Growth is attributed to an expanding subscriber base, additional revenue stream from digital TV services, increasing channel leasing and higher adoption rate for high-speed cable broadband services. EBITDA climbed 9% YoY due to expanding economies of scale.

Enterprise Business Group

EBG's 2011 revenue grew 4% YoY, largely from a 2% YoY increase in enterprise customers' mobile revenue and rising IP transit and internet data center (IDC) businesses. In addition, EGB's 2011 EBITDA rose 15% from a year ago because of rising revenue and cost/expense control.

Scope of Business

Business overview

Consumer Business Group

1. Products and services

The Consumer Business Group (CBG) is mainly engaged in providing mobile communication services to individual users. The Company offers a wide range of products, including SIM cards for postpaid subscribers, as well as SIM and reloadable cards for prepaid subscribers that can be used for making/receiving calls and other services, such as voice, data, short messaging service (SMS), multimedia and video messaging.

| Target | Service | Description | Highlights | |
|------------|----------|---------------------------------------|---|--|
| customers | category | Description | | |
| | | Voice | Basic telecommunication voice services, including calling and | |
| | | Voice | receiving calls from fixed-line and mobile phones | |
| | | | Value-added services, including voice mail, call forwarding, call | |
| Individual | Mobile | <i>I</i> lobile Data | waiting, conferencing, SMS, roaming, call barring, video calls, | |
| consumers | | | multimedia and content services (e.g., ringtones, games, | |
| | | | screensavers, MP3, video clips, video streaming), and internet access | |
| | | | using GPRS/3G/HSDPA transmission | |
| | IDD | International direct dialing services | | |

2. Revenue breakdown by service

| | | Unit: NT\$mn |
|--------------------------|--------|--------------|
| Year | 2011 | |
| Item | Amount | % |
| Telecom service | 52,191 | 90% |
| Handset sales and others | 5,918 | 10% |
| Total | 58,109 | 100% |

3. New products and services

- (1) Voice services: Continue to roll out innovative rate plans to better meet customers' different calling patterns, personal demands.
- (2) Value-added services: Focus on mainstream smart devices, develop a diverse range of services and content to enrich the app store and provide customers with a more pleasant user experience.

4. Operating status

(1) Postpaid products and services

To offset the impact of the NCC's mandatory tariff cut on revenues, the Company focused on improving the percentage of mid-to-high rate plan subscribers and sales of smart devices to raise its average revenue per user (ARPU). By the end of 2010, mid-to-high rate plan users as a percentage of total subscribers had increased by 6 ppts.

The Company also has excellent loyalty programs in place to secure its customer base and minimize churn rates. With the aid of business intelligence tools and its direct marketing network, the Company used market segmentation to target and provide customers with services that better match their needs. For instance, for high ARPU customers, the Company has an exclusive program called "my VIP." It also offers a credit card program that allows customers to earn rebates based on their phone bills.

(2) Prepaid products and services

In addition to the continuous promotion of discounts for on-net calls, outgoing calls to fixed-line and on-net video calls from 2010, the Company launched a campaign offering free text messages to target the youth market, providing more choices for pre-paid card customers. This helped boost the Company's number of prepaid subscribers by nearly 20% in 2011.

The Company also aggressively promoted value-added services (VAS) usage to raise its penetration rate. Selected VAS services were offered for free as a promotion for recharge cards and prepaid cards. Non-SMS VAS revenue for prepaid business rose over 40% in 2011.

(3) Value-added services

The Company saw a significant increase in VAS revenue in 2011, surging 47% from a year ago. In particular, revenue from mobile internet access rose 93%, thanks to high-quality mobile internet services and flexible data rate plans, as well as the popularity of smartphones, tablets, 3.5G data cards and netbooks. These helped attract a large number of mobile internet users and also encouraged existing subscribers to use value-added services.

In 2011, the Company introduced a large number of innovative and popular VAS products. These include: One, "match Market," an app store for major smartphone platforms such as Android, iPhone, Windows Mobile, Blackberry and Symbian. Two, "MoFun," an application designed to enrich users' lifestyle by allowing them to use their smartphones to access the latest information on MoFun's channels, including leisure, entertainment and shopping. Three, "myBook store," a 24-hour online bookstore where users can easily purchase e-books in two easy clicks. In 2011, myBook was ahead of its peers in offering sales of hard-copies of books, providing an integrated platform where users can easily switch between traditional and digital environment to enhance their reading experience. And four, "TV GO HD" & "Formosan TV Show," a platform offering more than 40 mobile channels, including news, finance, drama and variety shows, as well as a user friendly interface and 3G and WiFi support, to meet smartphone and tablet users' demand for TV on the go.

Home Business Group

1. Products and services

TFN Media (TFNM), a subsidiary of the Company, holds a cable television system operator's license and a Type II telecommunications license. TFNM runs its business under the brand name TWM Broadband. Its main products and services cover analog cable TV services, digital cable TV services and cable broadband services. Its subsidiary, Win TV Broadcasting, a TV production company, operates a family channel – momo. It also holds the Taiwan distribution rights for a large number of outstanding domestic and international TV channels, enabling it to provide subscribers with a comprehensive range of digital audiovisual entertainment services.

| Service category | Products / Services | Description | |
|---------------------------|---|---|--|
| | Analog cable TV | Uses high bandwidth coaxial cable to transmit a wide range of TV channels and programs to home TVs. | |
| Pay TV | Digital cable TV | TWM Broadband's CATV networks transmit domestic and international digital TV channels to subscribers' homes; subscribers can use the set-top box and smart card provided by TWM Broadband to view high-definition digital video content. Broadband Internet access allows subscribers to make use of TWM Broadband's internet TV service. Subscribers can access the internet using their TV and remote control to view a wide range of multimedia entertainment content and enjoy "4 screens and a cloud" digital convergence services. | |
| Broadband internet access | Cable fiber-optic broadband internet access | Provides high-speed internet access service via a hybrid fiber/coaxial (HFC) network deployed by the CATV system operator in combination with new-generation DOCSIS 3.0 broadband internet access technology. | |
| Content distribution | Analog and digital TV channels | Provides both analog TV and "new TV" digital CATV services, TV distributes high-quality domestic and international TV channels by licensing the broadcast rights of these channels to other CAT system operators and video service platforms. | |

2. Revenue breakdown by service

| Unit: | NT\$mn |
|-------|--------|
|-------|--------|

| Year | 2011 | |
|------------------------------------|--------|------|
| Item | Amount | % |
| Pay TV service | 4,181 | 71% |
| Cable internet service | 924 | 15% |
| TV content distribution and others | 809 | 14% |
| Total | 5,914 | 100% |

3. New products and services

(1) Digital TV recorder:

Subscribers can use the set-top box provided by TWM Broadband to record any program broadcast on TV onto an external hard driver, as well as pause, fast forward and rewind. This device should enhance customer stickiness and boost digital TV service penetration rate.

(2) High-speed fiber-optic internet access service:

TWM Broadband will continue to enhance network quality to provide stable, reasonably priced high-speed fiber-optic broadband internet access to meet customers' demand for high-speed bandwidth to view or use various multimedia services via TV or computer. This is expected to attract a large number of new subscribers and increase customer satisfaction.

(3) Digital TV value-added services:

TWM Broadband will develop and offer more innovative value-added services, such as viewing popular video content (e.g., local dramas and movies) online, playing online games, accessing the latest information on fashion and trends, and e-learning via TV, to increase its digital TV service subscriber numbers and penetration rate.

(4) Innovative digital convergence services:

TWM Broadband is making use of the Company's extensive mobile communications, fixed-line network and cable TV service resources, while continuously monitoring new trends and developments in the global digital convergence services industry, and cooperating with upstream to downstream players – from digital content to terminal device and internet platform providers – to form the "Cloud and Connect TV forum" to explore new business opportunities and enable subscribers to enjoy the benefits of digital convergence services anytime, anywhere.

Enterprise Business Group

1. Products and services

The Enterprise Business Group (EBG) offers enterprise customers integrated information and communications technology (ICT) solutions and mobile/fixed network services under the name "TWM Solution."

| Service category | Description |
|------------------------|---|
| Fixed-line voice | Integrated voice solutions, including Enterprise E phone, PBX E phone (VoIP service), local calls, long-distance calls, international calls, Centrex, 080 domestic toll-free service, audio conference, intelligent network services (e.g., 0209 services) and ISR, enabling users to save on calling costs. TWM Solution continues to develop advanced technologies to enhance reliability and provide instant response to ensure customer satisfaction. |
| Fixed-line data | Different types of circuits for information transmission, including leased line, Metro Ethernet, IP virtual private network (VPN), IPLC and ADSL VPN. These circuits and bandwidth for data transmission among terminals enable users to build a communications network and expand their business opportunities. |
| Internet | Internet access via leased line, Metro Ethernet, ADSL, FTTx and dial-up. The Company also provides internet data center (IDC) services, including co-location, web hosting, super mail and domain name registration. EBG's IDC services not only cover carrier-level facilities, but also management/maintenance services for customers. |
| Mobile | Regular voice services, mobile VPN, intelligent transportation system (ITS), BlackBerry enterprise solution, mobile audio conference and MVPN data services. |
| Systems integration | Video conference services, information security services (Security Operation Center), network manager and sales, implementation and maintenance services for PBX, VoIP customer premises equipment (CPE), wide area network (WAN) and local area network (LAN) CPE. |

2. Revenue breakdown by service

| | | Unit: NT\$mn |
|--------------------|--------|--------------|
| Year | 2011 | |
| Item | Amount | % |
| Mobile service | 4,046 | 41% |
| Fixed-line service | 3,675 | 37% |
| ISR and others | 2,140 | 22% |
| Total | 9,861 | 100% |

3. New products and services

- (1) Information security manager: New functions include scanning for potential flaws in webpage application codex to avoid information leaks and guard against social network engineering attacks.
- (2) Cloud content-delivery service: A cost-efficient digital content platform that enables IDC customers to download large volumes of digital content quickly and deliver them to end users in a fast and stable manner.
- (3) Cloud information-security service: Provides physical and virtual system protection against many types of attacks.
- (4) Cloud learning service : An online platform that can make quick and easy audio-visual presentations of new business ideas and products.

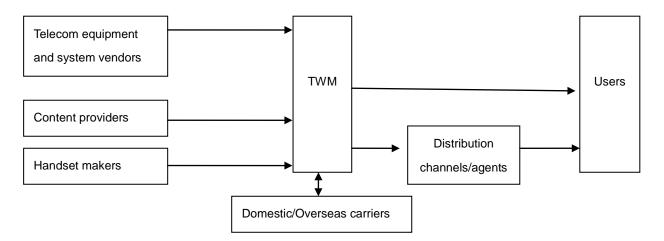

Industry overview

Consumer Business Group

1. Industry status and development

The three leading players continue to dominate Taiwan's mobile telecommunications market. However, the smaller operators offering free on-net calls and other promotions increase competitions. The National Communications Commission (NCC) has been introducing mandatory mobile tariff cuts on certain 3G tariffs since 2010, which weighed on the revenue of mobile operators.

2. Industry value chain

3. Product development trends and competitive landscape

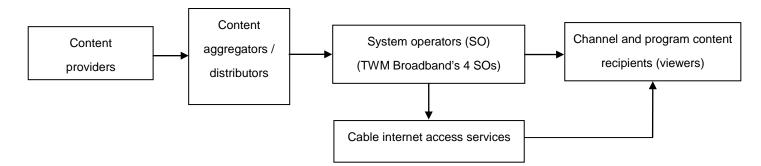

The operators are seeking to expand the mobile broadband market. A variety of new rate plans for data services, combined with new terminal devices and new VAS, have been introduced to stimulate subscriber take-up. This should be an important future revenue growth driver. As for the prepaid segment, competition is intensifying due to pricing competitions.

Home Business Group

1. Industry status and development

Cable TV has become a mainstream video platform, but it faces challenges from alternative services such as IPTV, internet TV and other emerging media that have successively entered the market. The cable TV industry must digitalize aggressively and continue to provide innovative digital TV value-added services to attract traditional cable TV subscribers to switch to digital TV; form strategic alliances or integrate with upstream, midstream and downstream providers to explore new business opportunities and stay on top of the value chain; and provide super high-speed and stable quality broadband service to secure its position in this highly competitive market.

2. Industry value chain

TWM Broadband has the advantage of controlling "last mile" access to customers and has mobile communications, fixed-line network services and cable TV service group resources. TWM Broadband also takes the lead in vertical integration in order to build up its core competitiveness and explore new business opportunities in the age of digitalization.

3. Product development trends and competitive landscape

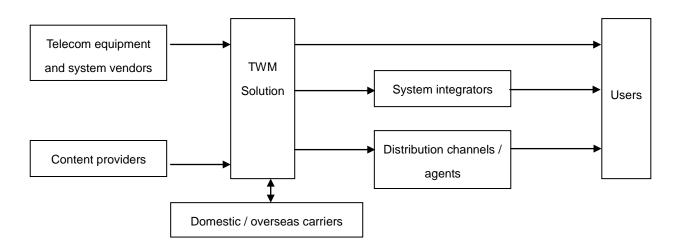

Despite the intense competition in the broadband internet access market, HBG's cable internet service subscriber number has continued to grow rapidly. To counter the competition, TWM Broadband has provided super broadband internet access service of 60Mbps and above since December 2011 and developed more innovative digital value-added services to let subscribers enjoy a whole new experience in home entertainment.

Enterprise Business Group

1. Industry status and development

According to NCC statistics, there were 83 Type I telecommunication providers, including four fixed-line operators, six mobile operators and 62 circuit leasing operators; and 454 Type II telecommunication providers, including international simple resale (ISR), internet service providers (ISP), VoIP and other value-added service providers. All these have resulted in keen competition. And as the trend toward digital convergence expands, the boundaries among telephone, cable TV, wireless and PC are getting increasingly blurry, intensifying cross-industry competition.

2. Industry value chain

3. Product development trends and competition landscape

Since CHT has the "last mile" advantage, other ISPs find it hard to effectively compete with the firm. Based on NCC statistics, Chunghwa Telecom (CHT) had a virtual monopoly of the local network, long-distance network and international network service markets, accounting for 97.57%, 70.08% and 59% of the revenue in these three areas, respectively. xDSL is the most popular type of broadband internet access in Taiwan, with an increasing number of users choosing higher bandwidths (>=10M).

Revenue from data circuit and internet access/value-added services is expected to rise slightly in the future, while revenue from fixed voice services is forecast to decline.

As the popularity of smart devices rises and network infrastructure matures, the government is planning to invest in upgrading the telecommunications industry into a cloud computing industry. Aside from continuing to promote mobile applications for enterprise customers, all carriers will build cloud centers to provide various cloud application services. Henceforth, cloud, mobile internet and ICT services will be the main future revenue growth driver.

Research and development expenditure

Investment in research and development and its ratio as a percentage of total revenue are shown in the table below. For 2012, the Company plans to spend NT\$834mn on the research and development of more advanced technologies designed to increase customer satisfaction, which in turn should boost value-added service revenue and overall operations growth.

| Year | 2010 | 2011 | 2012 (As of Feb. 29) |
|-------------------------|---------|---------|-------------------------|
| R&D expense (NT\$'000) | 641,928 | 563,461 | 96,331 |
| As a % of total revenue | 1.10% | 0.91% | 0.87% |

Major research and development achievements

| Project name | Description |
|---|---|
| Mobile VoIP and IP message app technologies | Develop technologies for monitoring the flow of traffic of the major mobile VoIP and IP message apps. |
| Cooperative multiple-input and multiple-output (MIMO) relay and carrier aggregation for long-term evolution (LTE) technology | The project comprises two parts: (1) carrier aggregation for LTE-advanced mobile communication systems (2) coordinated multipoint transmission/reception techniques for LTE |
| Investigation of data throughput improvement at base station cell edge | The project comprises of four parts: (1) tracking algorithms based on Kalman filter to determine the location of the mobile device (2) cooperative communication techniques to improve data throughput (3) virtual MIMO to improve data throughput (4) hybrid automatic repeat request (HARQ) mechanism to correct data error and reduce bit error rate (BER) |
| Customer-facing trouble ticket management system(CF-TTMS) | Build a CF-TTMS to support all business lines. The objective is to provide a customer-centric trouble ticket management system for triple/quad play in order to improve customer service quality and construct a scalable and extendable infrastructure to meet future business needs. |
| Electronic customer relationship management (eCRM) | Set up embedded product links on TWM's website that best meet a customer's personal preferences and needs. Customers can easily click on the link to complete an order. |
| Single SIM card with dual numbers for roaming | Develop a more cost-efficient single SIM card with dual numbers for roaming to attract new users. Customers traveling overseas can use the secondary number to make and receive calls and avail of local rates through TWM's roaming partner's network. |
| IT reusable assets | Develop IT reusable assets – e.g., workflow engine integrated with customer order management (COM) system to facilitate order execution – to avoid system duplication, save on development costs and raise productivity and quality. |
| Private cloud computing | Integrate infrastructure/platform/software as a service (laaS/PaaS/SaaS) to provide users with a private cloud computing environment. |
| Green IT data center and network optimization | Provide a high-efficiency, environmentally friendly data center: (1) Upgrade IT data center's electrical system (high voltage) (2) Utilize variable primary flow chilled water system, T5 tube for light system. (3) Enable both dense wavelength division multiplexing (DWDM) and fiber channel over Ethernet (FCoE) for IT network. |
| Systems service monitoring system upgrade | Build an end-to-end monitoring system to track customer service system performance and in-store IT status. The upgraded system provides complete maintenance information and detail single failure point to provide reliable, high-quality IT services for businesses. |
| Build web application firewall (WAF), store information network and computer security management policy | Enhance network security protection to guard against data theft, network hacking and virus attacks: (1) Deploy WAF to all external website services. (2) Install device control system in all retail stores, including MAC (Media Access Control) list and computer authority auto report system. |
| 3C merchandise, e-invoice and shopping | Introduce new functions for myfone's e-commerce system so customers can purchase 3C (computers, communications and consumer electronics) merchandise and receive e-invoice billing. Set up a "Mofun Shopping via Handset" function to let customers purchase merchandise using their mobile phones. |
| Handset operation guide, search engine optimization and e-payment via TWM brand portal | Provide a "handset operation guide" on the TWM portal as a self-help service for customers; establish search optimization rules to increase the visibility of the TWM website; and introduce a new function that allows customers to pay their bills via e-payment. |
| TWM new sales channel on momo e-commerce | Create new TWM sales channel to sell 3C merchandise over momo's e-commerce platform. Provide simple and convenient shopping experience for customers. |
| Electronic payment hub (EPH) and fraud prevention | Customers can use the interactive voice response (IVR) or website to pay their phone bills, e-commerce transactions and value-added-services using their credit/ATM cards. A stringent bank review process has been implemented to prevent |

| Project name | Description |
|---|---|
| | card fraud. |
| Sales management and channel commission system | Set up a sales management system e-platform to replace most manual work in order to increase the accuracy of commission calculation and enhance overall efficiency. By integrating associated resources to strengthen back office management, the system is designed to enhance support for salespeople and boost their performance. |
| Direct store real-time customer feedback system | Install touch panel screens in stores where customers can provide immediate feedback on service quality. This helps store managers monitor sales agents' work and provide a timely response to promote customer satisfaction. It also provides analysis reports for upper management to further improve overall service quality. |
| Prepaid card system for independent travelers from China | Visitors from China can order TWM prepaid cards via TWM portal and pick up the cards when they arrive in Taiwan. The commission system applies for purchases made through travel agencies in China. |
| Revenue assurance project | Cross-check data provided by network equipment and application system to track discrepancies in call detail records and defects in system/workflow design. The objective is to enhance billing accuracy and promote trust among customers so as to boost the Company's revenue. |
| Bill formatting system | Convert all types of mail sent to customers – including bills, invoices, receipts, call detail reports, registered mail and collections letters –into printable or PDF formats to enhance information security and reduce printing costs. |
| Subscriber usage reminder system | The system sends an SMS to remind subscribers when their voice or data usage is nearing their monthly threshold. This service helps subscribers keep track of their expenses as well as give them a better idea of which tariff plan to choose in the future. It also minimizes potential disputes over billing, enhances customer satisfaction and boosts TWM's revenue. |
| myBook | Launched Taiwan's first mobile book store. Customers – both TWM and non-TWM users – can buy e-books or hard copies via their mobile devices anytime, anywhere. |
| Taiwan Mobile TV | Build a new live streaming system to provide real time video programs with dynamic bit rate adaptation for smartphone and tablet users. |
| Taiwan customer care mobile app | Launched Taiwan's first mobile customer self-help service app. Subscribers can use this to check their bills, locate nearest TWM store and check international roaming rates among others. It is a convenient tool for subscribers and reduces call-center costs for TWM. |
| myPhoto service | Based on TWM's new digital convergence platform, it provides a Photo Society cloud service for users to store their photos and view the photos via TV / mobile phones / tablets / PCs. This service is open to TWM and non-TWM users. |
| Appguru | Provide an online forum for new apps discussion. Users can share their experiences and suggestions as well as receive the latest software information updates |
| Taiwan Mobile member center | Build a new TWM member center to manage the Company's mobile, cable internet and digital TV subscribers, as well as open select services to non-TWM users, such as myBook, matchApps and Mofun to expand its market reach. |

Sales development plans

Consumer Business Group

1. Short-term plan

Besides encouraging existing subscribers to upgrade to 3G services, the Company will also seek to boost mobile broadband and mobile internet access penetration rates through new innovative services. At the same time, network quality will be maintained and further optimized. New, high-quality, affordable smartphones will be introduced for customers to embrace an all mobile lifestyle.

2. Long-term plan

The Company aims to integrate the mobile phone, TV, tablet and computer platforms to provide subscribers with a variety of digital convergence services. The focus will be on the following:

- (1) Establishing a "quadruple-play" platform that integrates mobile communications, fixed-line, broadband internet access and cable TV services to give the Company a lead over its competitors in offering digital convergence services in Taiwan.
- (2) Leveraging machine-to-machine (M2M) technology into our products and services to integrate mobile handsets, high-quality mobile networks and cloud computing technology so as to expand our service range and support the development of innovative, profitable business models.
- (3) Increasing the number of company stores and providing extensive training to the franchise shops to enhance the availability and quality of our services, and aiming to fulfill customers' mobile needs with a wider variety of services as well as supplying more ways to experience them.

Home Business Group

1. Short-term plan

- (1) TWM Broadband will continue to expand its network infrastructure in those regions where it is already operating cable TV systems, providing residential subscribers with CATV, digital TV, digital TV recorder, high-speed fiber-optic internet access services and innovative digital convergence services.
- (2) TWM Broadband will continue to level up the penetration rate of cable internet to raise the percentage of high-speed service users and increase the number of "new TV" digital TV service subscribers.

2. Long-term plan

TWM Broadband will launch 100Mbps and above super high-speed internet access service and will integrate digital content, internet terminal devices, and cloud technology to provide cloud related value-added services in 2012. Through the implementation of the long-term product and service development plan, TWM Broadband aims to let families and individual subscribers enjoy the benefits of the integration of mobile phones, PCs, handheld devices and TV, or "four screens and a cloud" converged digital services, and establish a new milestone in the evolution of cable TV.

Enterprise Business Group

1. Short-term plan

The popularity of smart devices has gradually changed enterprise communication patterns. To meet the needs of mobile offices, the Company will not only provide mobile applications, but also better cloud computing services after a 26,000sq.m. cloud internet data center (IDC) officially opens in 2013. In addition, the company will promote mobile

virtual private network (MVPN) services through TWM channels to help corporate users reduce expenses and enhance operating efficiency.

Given the increasing demand for cloud computing services, transnational bandwidth traffic is also growing rapidly. The company has invested in the Tam-Fu underwater cable project, which will establish a direct link across the Taiwan Strait, to strengthen its position in Asia.

2. Long-term plan

EBG's vision is to expand its enterprise services from network-centric to ICT-centric solutions and services by implementing the following:

- (1) Grow revenue from cloud computing and mobile applications.
- (2) Raise sales productivity and expand the small-and-medium enterprise market segment by integrating channels.
- (3) Improve the international business division's operating efficiency by increasing direct peering coverage, managing quality and reducing international IP cost.

Customer satisfaction

To create the best experience for customers, TWM conducts annual customer satisfaction surveys by telephone to better understand customer needs and expectations. Customers are asked to evaluate call quality, rates, bills, customer hotline service, store service, value-added services, and website among others. The findings from these polls are used as a reference to set new objectives and improve service quality.

| Customer satisfaction key indicators | 2009 | 2010 | 2011 |
|--|------|------|------|
| Overall satisfaction | 3.6 | 3.7 | 3.7 |
| Call quality | 3.7 | 3.7 | 3.6 |
| Customer hotline service | 4.2 | 4.3 | 4.3 |
| Store service | 4.0 | 4.1 | 4.0 |
| Note: Customer satisfaction is rated based on the following scores: Very satisfied (5), Satisfied (4), | | | |
| Neither satisfied nor dissatisfied (3), Dissatisfied (2) and, Very dissatisfied (1). | | | |

Market and Sales Overview

Market analysis

Consumer Business Group

1. Main products and service areas

The Company provides mobile services nationwide, covering Taiwan and the outlying islands of Kinmen and Matsu.

2. Market status

By the end of 2011, the penetration rate for mobile subscribers had reached 124%. To attract users, smaller operators offered free on-net calls and other promotional deals, resulting in intense competition in the post-paid voice market. The rapid innovations in mobile devices and the rising demand for mobile internet and value-added services further encouraged newcomers to venture into this market.

3. Competitive advantages

(1) Better customer mix

In 2011, the Company succeeded in improving its subscriber base structure. The percentage of low usage subscribers fell by 6 ppts from a year ago, while the percentage of mid-to-high usage subscribers continued to increase.

(2) Market leader in wireless broadband

In 2005, the Company became the first mobile communications operator in Taiwan to launch 3G services, and in 2007, it rolled out Taiwan's first 3.5G service. Subscribers enjoy flexible rate plans, high-quality mobile handsets, and a wide range of value-added services. By the end of 2011, the Company had a 3G subscriber base of 5 million users, who contributed more significantly to value-added service ARPU than 2G subscribers and have become the main driver of VAS revenue growth.

4. Opportunities and challenges

Positive factors

- (1) With faster data transmission speeds, lower prices for smart devices and data rate plans and the emergence of new, varied applications, mobile internet access is rapidly spreading from entrepreneurs and professionals to ordinary consumers, contributing to a rapid growth in non-voice revenue.
- (2) With information technology, communications and media trends converging, mobile communications operators have an important role to play in the supply chain, providing consumers with multimedia content through wireless transmission.
- (3) Many innovative technologies and business models have been extended to the mobile internet.

Negative factors

- (1) The NCC's mandatory tariff cuts have added a degree of uncertainty to the outlook for future earnings growth.
- (2) The popularity of smart devices has boosted the number of data users and their data usage, but has also increased pressure on the carriers' network capacity and planning.

Countermeasures

- (1) The Company rolled out its HSPA+ network to provide high-speed internet access, as well as closely monitored the development of LTE technology.
- (2) The Company will draft appropriate strategies in response to government policy changes and new laws and regulations.
- (3) The Company will introduce innovative value-added services for smartphones to stimulate data service revenue growth and offset the impact of falling voice revenue.

Home Business Group

1. Main products and service areas

TWM Broadband provides cable TV, digital cable TV, and fiber-optic broadband internet access services. Its main service areas are New Taipei City's Xinzhuang and Xizhi districts, Yilan County and Greater Kaohsiung's Fongshan District.

2. Market status

(1) Cable TV

The cable TV penetration rate has been rising steadily over the years, reaching 62.82% of households as of 4Q 2011, according to NCC data. Watching cable TV shows has become a major leisure activity for Taiwanese – one that is relatively unaffected by fluctuations in the economy, ensuring stable market demand.

(2) Digital cable TV

Due to the government's digitization policy, increasing public demand for high-definition video services, development of new TV features and functions, cable TV system operators' aggressive promotion of digital TV services and the termination of analog terrestrial TV broadcasts by end-June 2012, TV digitization has become an inevitable trend. TWM Broadband had a digital TV penetration rate of 8% at the end of 2011, implying ample room for growth in this industry.

(3) Broadband internet access

With the broadband internet access market moving toward higher bandwidths, the migration of low- and mid-bandwidth users to higher bandwidth services will be the main growth driver for the market.

3. Competitive advantages

(1) Continued enhancement of TWM Broadband's strength in fiber-optic broadband cable networks

TWM Broadband will continue to deploy a dense, ring-type fiber-optic backbone network and provide back-up systems for its bi-directional network with advanced DOCSIS 3.0 network technology. TWM Broadband is able to provide high-speed (100MB or higher) internet access services. Unlike ADSL with its range constraints, cable internet provides lower cost but premium quality super high-speed broadband services.

(2) Introduction of "4 screens and a cloud" digital convergence services to stimulate digital TV subscriber growth

TWM Broadband has set up a digital convergence platform to provide subscribers with various interactive and connected value-added services, including entertainment, fashion, information, video and other popular apps and services. This interesting and diverse range of audiovisual entertainment should help the Company raise its penetration rate and subscriber numbers, as well as customer satisfaction and loyalty.

(3) Taiwan Mobile Group's integrated resources facilitate development of new, innovative digital convergence products and services

TWM Broadband's resources cover mobile communications, fixed network, CATV, ISP and channel content. The integration of these resources, together with the Taiwan Mobile Group's extensive technical support, as well as sales and marketing resources, forms the core of TWM Broadband's competitive advantage in the consumer market.

4. Opportunities and challenges

Positive factors

(1) Relaxing restrictions on regional operations

CATV penetration rate has reached over 60%. In line with the government's digitalization policy, restrictions on regional operations will be eased. This should help TWM Broadband further expand its footprint and raise its penetration rate and subscriber numbers.

(2) Government speeding up digitization policy to promote digital TV

Analog terrestrial TV broadcasting will cease by end-June 2012 under the government's digitalization policy. It should help TWM Broadband promote its CATV services as viewers switch and upgrade to digital TV services, increasing both its digital TV subscriber numbers and penetration rate. At the same time, TWM Broadband will provide more digital TV value-added services to increase its revenue stream.

(3) High-speed cable internet service has become the mainstream

TWM Broadband has completed upgrading its ring-type fiber-optic backbone network and infrastructure in all operating areas. It can provide super high-speed broadband internet access services of 60 Mbps, 100 Mbps and above to help it expand its market share.

Negative factors

- (1). There is still a risk that local governments might lower the cap on cable TV fees during their annual review.
- (2) The NCC might support the airing of CATV content on Chunghwa Telecom's MOD and, thus, allowing CHT to produce its own programs and operating channels, posing a threat to other operators.

Countermeasures

- (1). TWM Broadband has been able to utilize the extensive resources of its parent company (in terms of technology, marketing, sales, distribution, etc.) to develop high-bandwidth internet access services and to market digital convergence services with Taiwan Mobile Group's telecommunications, information and media content services. TWM Broadband's aim is to provide a "one-stop shopping" service that meets all of its customers' needs in order to boost its cable TV, broadband internet access and digital TV subscriber numbers and their contributions to revenue.
- (2) TWM Broadband will be using its digital cable TV platform to cultivate Taiwan's cultural and creative industries, enrich the nation's digital channel and Connected TV content, and stimulate the development of digital content and innovative Connected TV services to boost digital TV's penetration rate.
- (3) TWM Broadband seeks to foster good relations with local governments and communities. With the assistance of Taiwan Mobile Group's extensive resources such as the Taiwan Mobile Foundation TWM Broadband sponsors local artistic, cultural and charitable activities, while also subsidizing the cost of network deployment in remote areas, working to bridge the digital divide, and fulfilling its responsibilities as a good corporate citizen, thereby strengthening its corporate image of "Basing our growth on the local community and giving back to the local community."
- (4) TWM Broadband will closely monitor changes in the regulatory authorities' policies on digitization and new developments in the formulation of relevant laws and regulations. TWM Broadband will take the initiative in formulating any response or measure to deal with changes in the market.

Enterprise Business Group

1. Main products and service areas

EBG mainly offers its products and services in Taiwan, but also provides international services in 253 countries. As of the end of 2011, the company's roaming services covered the following: GSM: 150 countries, 299 networks; 3G: 67 countries, 145 networks; GPRS: 122 countries, 244 networks.

2. Market status

EBG offers enterprise customers voice, internet and data services. Given the rising demand for ICT solutions and services, IP-based applications have become more popular, resulting in mild growth for the domestic telecommunications market.

(1) Voice service: Fixed lines' local and international calls and average revenue per minute (ARPM) are expected to continue to decline because of rising competition from VoIP and mobile services in recent years and the

introduction of new long-distance call rates in 2012.

- (2) Data service: Rising demand for enterprise data access will result in steady growth in IP VPN and Metro Ethernet revenue.
- (3) Internet service: As internet content services boom, enterprise demand for FTTx is fast replacing ADSL service. However, fierce competition will result in moderate revenue growth.
- (4) Mobile service: As demand for mobility increases, data revenue from smartphones, tablets and 3.5G data cards is expected to continue increasing. As enterprise users increasingly access intranet information via their smart devices, mobile voice revenue should benefit from the rise of mobile internet services.
- (5) Cloud computing service: As cloud computing technology gradually matures and benefits from government support, operators are actively venturing into cloud computing services, strengthening the software and hardware supply chain. The diverse range of mobile devices and digital content should also boost demand for cloud services, underpinning growth in cloud app subscriber numbers and revenue.

3. Competitive advantages

- (1) Premium brand equity: The Company provides customer-centric quality services. TWM Solution is well connected with the Enterprise Business Unit of Taiwan Mobile and has gained the recognition of major enterprises.
- (2) Professional management team and efficient support group: The Company leads the competition in achieving synergies from the integration of group resources, including mobile telephony, fixed network and cable TV network, with integrated back-office functions to support its frontline operations and provide enterprise customers with exclusive integrated information and communications technology for business expansion.
- (3) Effective sales teams and channels: The Company's direct sales teams and retail chains across the nation are an effective channel for developing and expanding services.
- (4) Expanding resources from international alliances: The Company is the sole Taiwanese member of the Bridge Alliance, the largest mobile alliance in the Asia-Pacific region with a combined customer base of about 340 million.

4. Opportunities and challenges

Positive factors

Future convergence products will be aimed at consolidating intranet, broadband management and information security into a one-stop shop for customers. The Company has the advantage of possessing resources for both mobile and fixed-line services. It should also benefit from rising demand for integrated telecommunications and network efficiency from Taiwanese businesses in China.

Negative factors

The local loop bottleneck is a major obstacle to the fixed-line operators' business expansion, as market leader Chunghwa Telecom continues to dominate with its last mile advantage.

Countermeasures

EBG aims to raise ARPU by targeting high-usage customers and providing them with services such as "Information and Communications Integrated Solution"; establish long-term partnerships with customers to enhance customer loyalty; develop cloud applications and power-saving solutions that meet customers' varying needs; focus on IP VPN and Metro Ethernet solutions to provide information security services and CPE maintenance services and "Network Manager" (automatic network management service), as well as trouble shooting and immediate status response; and adjust its international/domestic IP and international undersea cable strategies to reduce costs and enhance network quality.

Main features and production process of major products: Not applicable as the Company is not a manufacturer.

Supply of raw materials: Not applicable as the Company is not a manufacturer.

| | Total | 58,547,285 | 100 | | Total | 61,919,273 | 100 | | |

Reasons for variation

Since 2011, fixed-to-mobile (F2M) call revenue has been collected by fixed-line operators instead of mobile operators. As such, call revenues collected by CHT on behalf of TWM (operating revenue earned from CHT) and F2M interconnecting fees that TWM paid CHT (operating cost paid to CHT) both declined from 2010.

The Company's operating cost for leasing lines from Taiwan Fixed Network increased from 2010 as the group continued to work on integrating its resources.

The Company's operating cost paid to Taiwan Kuro Times increased from a year ago as more TWM's subscribers signed up for Kuro's online music services.

Environmental Protection Expenditure

Loss or penalty due to environmental pollution in the past two years until the publication date: None

Countermeasures:

The Company has taken into consideration any potential risks or violation of environmental regulations in formulating its environmental management system. TWM also closely monitors developments in the government's environmental policies or regulations to be able to design precautionary measures. The Company does not expect any expenditure relating to environmental pollution in the future.

The Company is committed to protecting the environment and has adopted various measures such as promoting "green" procurement, establishing energy-efficient base stations and IDCs, minimizing the use of paper in offices and stores, recycling waste cable, batteries and handsets, and encouraging users to switch to e-billing and online services. TWM is the only recipient in the service industry of the R.O.C. Enterprise Environmental Protection (EEP) Award for three years in a row – 2009 to 2011 – from the Environmental Protection Administration of the Executive Yuan

Employee Relations

Employee behavior/ ethical standards

The Company has established policies and rules as a guide for employee conduct, rights, responsibilities, and ethical standards.

Delegation of authority

- 1. Authorization guidelines and limitations: Aimed at streamlining business processes, strengthening distribution of responsibility, as well as detailing management authority at each job level.
- 2. Empowerment and delegation rules: Designed to ensure smooth and normal business operations.
- 3. Job ranking, title and organizational structure policy: Formulated to correspond to employees' career plan.

Work regulations

The Company's work regulations clearly define the rules and responsibility of management and labor. The Company's modern management approach has promoted cooperation among employees and benefited the Company.

Divisional responsibilities

The Company's major divisions are separated by functions. Each division is tasked with specific job responsibilities and this separation of functions has strengthened the core competency of the Company.

Reward and punishment policies

The Company has drawn up a number of policies on rewards and punishments to encourage employees who have made special contributions to the Company, as well as discourage employees from behaving in a manner deemed damaging to the Company. These policies are stated in Article 14 and Articles 47 to 58 in the Company's "Work Regulations."

Employee assessment policy

Supervisors provide feedback, assistance and map out individual development plans based on employee performance.

Attendance and leave policy

Enforcement of this policy - designed to serve as a guideline for employees - helps enhance work quality.

Business confidentiality policy

To maintain the Company's competitiveness, employees are required to sign a "Confidentiality and Intellectual Property Rights Statement" and "Employment Contract" as a safeguard against potential damage arising from the disclosure of trade secrets. The Company provides employees with the required information and training courses to strengthen their understanding of information security.

Sexual harassment prevention and handling procedures

The Company's "Work Regulations" include rules on preventing sexual harassment in the workplace and promoting gender equality. The Company disseminates information on laws and procedures for filing complaints on sexual harassment on the intranet to serve as a guideline for employees.

Code of Conduct

The Company has a Code of Conduct that all directors, managers and employees are expected to adhere to and advocate in accordance with the highest ethical standards.

Employee benefits program

1. All employees are entitled to labor insurance, national health insurance, and group insurance coverage starting from the first day of work.

2. The Company has an employee treasury stock subscription plan, an annual bonus plan, and an employee profit-sharing plan. As a further incentive, the Company has transferred treasury shares representing 4.69% of total outstanding shares to employees at cost.

3. An Employee Welfare Committee was established in July 1998 to handle and implement employee benefits programs. The committee is in charge of a number of benefits designed to raise employees' quality of life and promote physical and mental well-being including club activities, company outings, family day, and benefits for special occasions such as weddings, festivals and funerals. The Company appropriates around NT\$70mn to the welfare committee annually.

Employee training and education program

- 1. Training expense in 2011 and up to the publication date totaled NT\$14,732,933, with 59,266 in training hours and 10,524 participants.
- 2. Orientation for new employees includes introduction into the corporate culture, company organization, telecommunications market, IT and network systems, labor safety, as well as information security training.
- Core competency development: Focus on basic competencies including problem solving, decision-making, communication, project management, basic legal knowledge of the telecommunications market, team building and service skills.
- 4. Management training and development: Separate training programs for entry-level management, middle management and senior management. Training courses include performance management, leadership, motivation skills, strategy management, innovative thinking, team dynamics skills and organizational development skills.
- 5. The Company sends large numbers of employees to local and international telecommunications conferences, management forums, consulting seminars, and vendor training programs every year. These activities have a profound effect on upgrading the Company's technologies, developing new products, introducing new and innovative ideas, and improving managerial skills.
- 6. To help employees develop their expertise in telecommunication technologies and business administration, the Company has a scholarship program to provide employees with on the-job training.
- 7. The Company sponsors external training courses for all employees annually. Employees can select courses that combine their personal interests and job needs to reap the maximum benefits from these training sessions.

Retirement plan and implementation

- 1. The Company has specific Employee Retirement Guidelines.
- 2. The Company has set up a Labor Pension Supervisory Committee, which was approved by the Taipei City Government in February 1998.
- 3. The Company implemented the New Labor Pension System in July 2005.
- 4. In accordance with No. 18 of the Financial Accounting Standards of the ROC, the Company retains the services of an actuary to assess and calculate the labor pension reserve and provide a detailed report.

Employee safety and sanitary policy

To fulfill the Company's social responsibility in providing its employees with a safe, healthy and comfortable working environment, the Company endeavors to:

- 1. Abide by and comply with regulations on environmental protection, safety and sanitation.
- 2. Be on constant lookout for potential hazards in the work environment to minimize accidents.
- 3. Promote health education, conduct physical examinations, and implement health management programs.
- 4. Promote and instill energy-saving consciousness to help reduce waste of resources.

The Company's employee safety and sanitary policy is posted on the intranet and is summarized as follows:

1. A unit dedicated to conducting environmental inspections and carrying out employee sanitary training courses was established in accordance with regulations.

2. A Health and Safety Committee was set up to draft a plan to prevent job injuries, ensure compliance and review related rules on employee health and sanitary improvement solutions through periodic meetings.

3. Full-time professional nursing personnel are employed to perform health checks, track the progress of staff who fails to pass their health examination, and hold talks on how to promote health. Staffers who are able to administer first aid treatment have been placed in each work area.

4. Fire/flood protection exercises are held periodically to reduce risks of employee injury and property loss from natural disasters.

5. Guards and security systems have been placed at all main base stations and work offices to protect staff, property and information security.

6. Energy-saving policies have been established to reduce carbon emissions.

Labor negotiations and protection of employee benefits

The Company, working under the management and labor as one concept and belief that a win-win situation can be achieved when the two sides work together, has followed relevant labor laws and regulations, held quarterly management/labor forums to facilitate communication, and promoted employee benefits to build a harmonious and satisfactory management/labor relationship.

Losses caused by labor disputes in the recent year: None, and expects none in the future.

Number of disabilities due to on-the-job injuries/fatalities in the recent year up to publication date

| Year | 2010 | 2011 |
|---------------------------------------|------|------|
| Number of disabilities | 1 | 2 |
| Disabling Frequency Rate (FR, Note 1) | 0.19 | 0.42 |
| Disabling Severity Rate (SR, Note 2) | 4 | 1.5 |

Note 1: The number of injuries resulting in fatalities and permanent total disabilities cases per million hours worked.

Note 2: The number of workday lost due to fatalities, permanent total disabilities per million hours worked.

Note 1: The current contract will remain valid if both parties do not issue any objection for the continuation of such contract before the current contract expires.

Note 2: When any network interconnection contract expires, should the two parties not be able to conclude their negotiations within three months after their commencement, the process shall be as follows:

- If the two parties concur to continue their negotiations, the terms and conditions of the current contract or such other conditions agreed by both parties will apply during the negotiation period.
- (2) Either party can appeal to the NCC for a ruling. Prior to the date of such a ruling, the terms and conditions of the current contract shall apply until the NCC makes a decision. The new contract will be made based on the NCC's ruling.
- Note 3: Negotiations for next year's contract shall commence three months prior to the expiry date of the current contract. If negotiations are not finalized prior to the expiry date, the parties shall agree to perform their obligations based on the current contract until such time when negotiations are finalized.

Note 2: 2007-2011 financial data have been duly audited by independent auditors.

Explanations of significant changes in the Company's condensed balance sheets for the past five years are as follows:

1. Current assets

In 2009, the Company upstreamed cash from its subsidiary Taiwan Cellular Co., Ltd. (TCC), resulting in an increase in current assets. In 2010, current assets were higher because of an increase in inventory for handset promotional campaigns and a rise in receivables from subsidiaries, who borrowed funds through the parent company due to the parent company having access to lower borrowing rates with the banks. In 2011, the Company had a capital reduction and acquired a 51% stake in Fubon Multimedia Technology (momo), leading to a decrease in current assets.

2. Funds and long-term investments

TCC, the Company's 100%-owned subsidiary, had a capital reduction in 2009, resulting in a decrease in long-term investments. In 2011, the Company acquired a 51% stake in momo, resulting in an increase in long-term investments.

3. Fixed assets

The depreciation and retirement of obsolete 2G equipment resulted in a decline in fixed assets.

4. Intangible assets

In 2008, intangible assets increased as the Company merged with TAT International and inherited the goodwill.

5. Other assets

The 2009 amendment of Article 5 of the Income Tax Act lowered the corporate statutory tax rate from 25% to 20% effective 2010; as such, deferred income tax assets were revised downward accordingly. On June 15, 2010, further amendment of Article 5 of the Income Tax Act reduced the corporate statutory income tax rate from 20% to 17%, leading to a downward revision of deferred tax assets.

6. Current liabilities

Current liabilities decreased due to bank loan repayment and settlement of capital reduction in 2008. The repayment of corporate bond-current portion resulted in a decrease in current liabilities in 2009. In 2010, current liabilities increased due to higher short-term borrowings and advance receipts. As the corporate bond due within one year was reclassified as corporate bond-current portion, current liabilities increased in 2011.

7. Long-term liabilities

In 2008, a second unsecured corporate bond issue and an increase in syndicated loans led to higher long-term liabilities. In 2009, long-term liabilities decreased, as the Company repaid its syndicated loans. As the corporate bond due within one year was reclassified as corporate bond-current portion, long-term liabilities decreased in 2011.

8. Shareholders' equity

In 2008, the sale of 300mn Company shares by its subsidiary led to a decrease in the number of treasury shares, while disposal gains led to an increase in capital surplus and, thus, shareholders' equity. Paid-in capital dropped because of capital reduction in 2011.

Condensed income statement

Note: 2007-2011 financial data have been duly audited by independent auditors.

Explanations of significant changes in the Company's condensed income statements for the past five years are as follows:

1. Operating income

Increased sales of and subsidies for smart devices to promote data services resulted in higher operating costs and lower operating income in 2010 and 2011.

2. Non-operating income

In 2009, non-operating income decreased due to lower investment income from TAT, which was merged into the Company in Sept. 2008. In 2010, non-operating income increased due to higher investment income resulting from growth in TFN Media Co., Ltd's Pay TV and broadband internet access services.

3. Non-operating expense

Significant losses from the asset write-off of obsolete telecom equipment following technology upgrade and network integration were recognized in 2007. The repayment of corporate bonds at the end of 2009 resulted in lower interest expense in 2010. Lower non-operating expenses in 2011 were due to fewer asset write-offs and losses from the disposal of fixed assets.

Independent auditors' names and their audit opinions for the past five years

| Year | Accounting firm | Name of CPA | Opinion |

Explanations of significant changes (>20%) in 2011compared with the previous year:

(1) The Company had a capital reduction and acquired a 51% stake in Fubon Multimedia Technology (momo) using money collected from receivables owed by subsidiaries, resulting in a decrease in current assets and lower current ratio and quick ratios. The repayment of a syndicated loan in March 2011 led to lower interest expenses, which in turn raised the interest coverage ratio.

(2) Benefiting from the capital reduction, average shareholders' equity and paid-in capital dropped, resulting in increases in return on equity, pre-tax income as a percentage of paid-in capital and EPS.

(3) As the corporate bond due within one year was reclassified as corporate bond-current portion, current liabilities increased in 2011, leading to a decline in the cash flow ratio.

Note: 2007-2011 financial data have been duly audited by independent auditors.

Formulas for the above table:

Financial structure

- (1) Debt to asset ratio = Total liabilities / Total assets
- (2) Long-term capital to fixed asset ratio = (Shareholders' equity + Long-term liabilities) / Net fixed assets

Solvency

- (1) Current ratio = Current assets / Current liabilities
- (2) Quick ratio = (Current assets Inventory Prepaid expenses) / Current liabilities
- (3) Interest cover = Income before interest and tax / Interest expense

Operations

- (1) Accounts receivable turnover = Net revenue / Average accounts receivable
- (2) Average collection days = 365 / AR turnover ratio
- (3) Inventory turnover = COGS / Average inventory
- (4) Accounts payable turnover = COGS / Average accounts payable
- (5) Average days sales = 365 / Inventory turnover ratio
- (6) Fixed asset turnover = Net revenue / Net fixed assets
 (7) Total asset turnover = Net revenue / Total assets

Profitability

- (1) Return on assets = [Net income + Interest expense * (1 Tax rate)] / Average assets
- (2) Return on equity = Net income / Average equity
- (3) Net income margin = Net income / Net sales
- (4) EPS = (Net income Preferred stock dividend) / Weighted average outstanding shares

Cash flow

- (1) Cash flow ratio = Cash flow from operating activities / Current liabilities
- Cash flow adequacy ratio = Net cash flow from operating activities for the past 5 years / (Capital expenditures + Increases in (2) inventory + Cash dividend) for the past 5 years
- Cash reinvestment rate = (Cash flow from operating activities Cash dividends) / (Gross fixed assets + Long-term investments (3) + Other assets + Working capital) (Note: Use zero if working capital value is negative)

Leverage

- Operating leverage = (Net revenue Variable operating costs and expenses) / Operating income (1)
- Financial leverage = Operating income / (Operating income Interest expense) (2)

Others

- (1) EBITDA = Operating income + Depreciation + Amortization
- (2) EBITDA margin = EBITDA / Net revenue
 (3) ARPU = Net telecom service revenue / Average number of subscribers
- (4) MOU = Outgoing & incoming minutes

Audit Committee Report

Date: January 19, 2012

The Board of Directors of Taiwan Mobile Co., Ltd. (TWM) has submitted the Company's 2011 operations report and financial statements. The CPA firm, KPMG, was engaged to examine these financial statements and has issued an auditor's report. The operations report and financial statements have been reviewed and determined to be correct and accurate by the Audit Committee of TWM. According to Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act, on behalf of all members of the committee, I hereby submit this report to the annual shareholders meeting.

Taiwan Mobile Co., Ltd.

C.T. Chung

Tsung-Ming Chung Chairman of the Audit Committee

2011 Financial Statements:

Refer to Chapter 6.

2011 Consolidated Financial Statements:

Refer to Chapter 6.

Financial Difficulties for the Company and its Affiliates: None

Chapter 6. Review and Analysis of Financial Conditions, Operating Results and Risk Management

Balance Sheet Analysis

Standalone balance sheet analysis

Explanation of significant changes – i.e., at least a 10% change amounting to more than NT\$10 million – in the past two years' assets, liabilities and shareholders' equity:

- 1. The Company had a capital reduction and acquired a 51% stake in Fubon Multimedia Technology (momo), leading to a decrease in current assets.
- 2. Investments increased due to the acquisition of a 51% stake in momo.
- 3. Other assets declined because of lower deferred income tax assets.
- 4. Current liabilities rose while long-term liabilities declined as a result of reclassification of a portion of long-term corporate bonds due within one year.
- 5. Paid-in capital dropped because of a capital reduction in 2011.

2010- 2011 Standalone Balance Sheet

Unit: NT\$'000, %

Consolidated balance sheet analysis

Explanation of significant changes – i.e., at least a 10% change amounting to more than NT\$10 million – in the past two years' assets, liabilities and shareholders' equity:

- 1. Current assets increased due to the consolidation of momo.
- 2. Investments decreased due to the recognition of an impairment loss from investments in Taiwan High Speed Rail.
- 3. Intangible assets rose due to the increase in goodwill from the acquisition of momo.
- 4. Current liabilities rose due to an increase in short-term borrowings, the consolidation of momo and a portion of long-term corporate bonds to be due within one year.
- 5. Long-term borrowings decreased owing to reclassification of a portion of long-term corporate bonds due within one year and repayment of syndicated loans.
- 6. Other liabilities increased due to the consolidation of momo.
- 7. Paid-in capital dropped because of a capital reduction in 2011.

8. Minority interest increased due to the acquisition of a 51% stake in momo.

Income Statement Analysis

Standalone income statement analysis

- 1. Increase in operating costs and the drop in operating income: Cost of handsets sold increased in 2011 due to an increase in smartphone sales volume.
- 2. Decrease in non-operating expense: Losses from asset write-offs shrank in 2011 compared with a year earlier.

2010 – 2011 Standalone Income Statement

| | | | | Unit: NT\$'000, % |
|-----------------------|------------|------------|-------------|-------------------|
| | | | YoY o | change |
| | 2010 | 2011 | Amount | % |
| Revenue | 58,547,285 | 61,919,273 | 3,371,988 | 5.76 |
| Operating costs | 32,808,712 | 37,793,874 | 4,985,162 | 15.19 |
| Gross profit | 25,738,573 | 24,125,399 | (1,613,174) | (6.27) |

| Net income | 13,822,186 | 13,468,763 | (353,423) | (2.56) |

Consolidated income statement analysis

- 1. Revenue, operating cost and operating expense rose due to the consolidation of momo and increased sales of smartphones.
- 2. Despite fewer losses from asset write-offs in 2011, non-operating expense grew from a year earlier due to impairment losses from Taiwan High Speed Rail (THSR).

|----------|--------------------|------|------|
| Leverage | Financial leverage | 1.02 | 1.01 |

Explanation for items in 2011 with major changes (>20%) from the previous year:

- (1) Significant increases in sales and in procurement of smartphones resulted in an increase in advanced receipts from customers and accounts payable to vendors, which, coupled with higher short-term borrowings, led to a rise in the ratio of liabilities to assets.
- (2) The decrease in shareholders' equity and long-term debts and the increase in current liabilities were due to capital reduction and the reclassification of corporate bonds due within one year to corporate bonds-current portion in 2011. As a result, the long-term capital to fixed-asset ratio, current ratio, quick ratio and cash flow ratio all decreased.
- (3) As syndicated loans were due and paid in March 2011, interest expense dropped and interest coverage ratio rose.

Revenue outlook, key assumptions, potential impact on the Company's business and corresponding proposal:

In 2012, the Company will continue to leverage mobile internet products to expand its wireless market share. As global demand for smart devices expands, telecom operators are expected to aggressively devise new strategies and increase investments in value-added services to tap into this market's full growth potential. The Company will focus on developing the latest top-of-the-line mobile value-added services to satisfy customers' demand, such as mobile shopping, video/audio services and the myBook store (an e-book platform), raising the revenue from mobile value-added services and increasing average revenue per user (ARPU). To meet these targets, the Company will utilize full potential of its competitive edge in handset procurement to raise its marketing and cost-efficiency.

Cash Flow Analysis

Standalone cash flow analysis

- 1. Cash flow from investment activities: Cash outflow decreased in 2011 due to a decline in financing to related parties, despite rising investment in subsidiaries.
- 2. Cash flow from financing activities: Cash outflow was higher in 2011 due to repayment of bank loans and capital reduction.

2010 – 2011 Standalone Cash Flow Statement

Consolidated cash flow analysis

The changes in cash flow from operating activities and financing activities and acquisition of cash and cash equivalents for subsidiaries all resulted from the consolidation of momo.

2010 – 2011 Consolidated Cash Flow Statement

| | | | Unit: N | T\$'000, % |
|--|--------------|--------------|-------------|------------|
| | 2010 | 2011 | YoY cha | ange |
| | 2010 | 2011 | Amount | % |
| Cash inflow (outflow) from operating activities | 25,993,712 | 25,260,280 | (733,432) | (2.82) |
| Cash inflow (outflow) from investment activities | (6,319,636) | (15,435,642) | 9,116,006 | 144.25 |
| Cash inflow (outflow) from financing activities | (16,630,430) | (11,501,769) | (5,128,661) | (30.84) |
| Effect of exchange rate changes | (14,014) | 35,963 | 49,977 | (356.62) |
| Cash and cash equivalents arising from merger | 20,662 | 2,285,830 | 2,265,168 | 10,962.97 |
| Net cash | 3,050,294 | 644,662 | (2,405,632) | (78.87) |

Plans to improve negative liquidity: Not applicable

Standalone projected cash flow for 2012

- 1. Projected cash inflow from operating activities: Expected to remain stable
- 2. Projected cash outflow from investment activities: For capital expenditures and to raise subsidiaries' capital
- 3. Projected cash outflow from financing activities: For cash dividend distribution and repayment of corporate bonds

| Cash balance, | Forecast net cash | Forecast cash Source of fun outflow from Cash negative cash | | | |

| 877,518 | 20,198,791 | 17,554,266 | 3,522,043 | - | - |

2012 Standalone Cash Flow Analysis

Unit: NT\$'000

Source of funding for negative cash flow in 2012: Not applicable

Analysis of Major Capex and its Impact on Finance and Operations

Given stable operations and cash flows, the Company was able to maintain the Company's financials stable in 2011.

Investment Policies, Reasons for Profit/Loss, Plans for Improvement, and Future Investment Plan

| N | 1 | 1 | | r | Unit: NT\$'000 |
|--|--|---|---|----------------------|---|
| Explanation Item | Carrying value as of end of 2011 | Investment policy | Source of income/ loss | Improvement plans | Future investment plans |
| Taiwan Cellular Co., Ltd. | 17,195,352 | Investment in fixed network and other telecom-related business | Investment income from Taiwan Fixed Network Co., Ltd. and TCC Investment Co., Ltd. | - | - |
| Wealth Media Technology Co., Ltd. (WMT) | 8,862,169 | Investment in CATV and retail-related businesses | Investment income from Fubon Multimedia Technology Co., Ltd. and Tai Fu Media Technology Co., Ltd. | - | The Company's BOD approved a rights issue of up to NT\$6.5bn for WMT in July 2009. |
| Taipei New Horizons Co., Ltd. | 562,812 | Investment in a property development project located at the old Songshan tobacco factory site for use as headquarters | Investment loss incurred as the project is still at the preparatory stage | - | The Company's BOD approved future rights issue in accordance with construction progress and funding demands in January 2009. |
| Bridge Mobile Pte Ltd. | 50,324 | Cooperation with other operators in Asia to enhance the Company's competitiveness | - (Note) | - (Note) | - |
| Yes Mobile Holdings Company (Yes Mobile) | - | TWM's investment in Yes Mobile resulted from merging Mobitai, and TWM already booked permanent price decline losses for Yes Mobile in 2004. | (Note) | (Note) | - |

Note: Investment was booked as "Financial assets carried at cost." The Company has no significant influence over it.

Risk Management

Impact of inflation, as well as interest and exchange rate fluctuations, and preventive measures:

1. Impact of interest rate fluctuations

As the Company had no floating interest rate borrowing in 2011, interest rate fluctuations had a minimal impact on its earnings.

2. Impact of exchange rate fluctuations

The Company's main service area is Taiwan. Except for its international roaming business, all operating revenues are denominated in NT dollars. However, some of the Company's capital expenditures are denominated in euros and US dollars. To minimize the impact from foreign exchange rate fluctuations, the Company hedges risk through foreign exchange spot market transactions. Overall, exchange rate fluctuations had a minimal impact on the Company.

3. Impact of inflation

Inflation had a minimal impact on the Company's operating performance in 2011 and up to the publication date.

Investment policy and reasons for gains & losses for high-risk/high-leverage financial products, derivatives, loans to others and guarantees of debts:

- 1. The Company was not involved in any high-risk, high-leverage financial investment.
- 2. The Company passed the "Rules and Procedures on Lending and Making Endorsements/Guarantees" to supervise its financing and endorsement activities. As the counterparties in its loans and guarantees are all its subsidiaries, there is minimal operating risk.
- 3. Derivatives transaction: None.

Research and development plans

| Project name | Objective | Status | Completion date |
|---|--|--|-----------------|
| 3G CRM platform | Develop customized modules for customer relations management based on existing 3G network traffic analysis platform. | Working on system implementation | Sept. 2012 |
| Customer telecommunication transmission quality analysis | Analyze telecommunication transmission quality to identify customers experiencing poor network quality in order to address and resolve any problems to the network.Structure design completed | | Sept. 2012 |
| E-commerce analysis and campaign promotions | Analyze TWM's new e-commerce business to gain an in-depth understanding of customers' browsing and buying behavior. CRM system will be expanded to support e-commerce campaign promotions. | Working on system planning | Dec. 2012 |
| Fixed-line billing system consolidation | To consolidate the operations flow of the fixed-line business and simplify related services, TWM needs to retire the i1 billing system and port existing i1 data to TFNBS billing system. | Working on data porting and billing testing. | Dec. 2012 |
| myCloud | Provide cloud storage services. Subscribers can upload or synchronize documents, phone books and digital content from their multiple devices to cloud storage. | Working on service plan | Jun. 2012 |
| Cloud IDC and cloud services | To construct a new generation green internet data center (IDC) for various cloud services through cooperation with upstream and downstream companies in the industry chain. | Working on system development | Mar. 2013 |
| Near Field | TWM is talking to other major Taiwanese | Conducting joint-venture | Dec. 2012 |

| Project name | Objective | Status | Completion date |
|---------------------|---|-------------|-----------------|
| Communication (NFC) | operators about building a common trusted service managers (TSM) platform to enable NFC services. | discussions | |

Regulatory changes

1. Revision of digital convergence regulation

(1) Status

The "digital convergence development program" approved by the Executive Yuan is divided into two stages. The first stage involves promoting cross-media convergence services and solving urgent problems relating to other laws or regulations that might hinder its implementation as well as cross-industry barriers. The second stage focuses on creating a new environment to facilitate digital convergence, overcome the obstacles left from the first stage and establish a managing structure with layers of networks, platforms and content. The NCC started to amend the Telecommunications Act in 2011 to promote telecommunications and broadcasting convergence and fair/effective competition in the telecom industry. There are five key points in amending the law: 1) encouraging telecom operators to provide convergent services and setting related regulations, 2) strengthening regulations on internet content; 3) promoting effective competition of fixed-line business; 4) classifying interconnection charges as a main item under Type 1 telecom operators' tariffs; and 5) enhancing management over information and communications security.

(2) Countermeasures

The Company is closely monitoring the progress of the amendments and continues to communicate with and forward suggestions and recommendations concerning related policy and regulations to the NCC.

2. Second round of mobile tariff cuts from April 1, 2010

(1) Status

On January 6, 2010, the NCC announced that mobile retail tariffs should be cut per annum for three consecutive years from April 1, 2010 to March 31, 2013. The adjustment coefficient (X value) of 5% was applied to text messages and offnet mobile outgoing calls. Under the formula: tariff reduction = \triangle CPI – X, given that the CPI contracted by 0.87% in 2010, tariffs were cut by 5.87% in the first year, followed by a 4.04% cut in 2011 and will be cut by 3.58% in 2012. For bucket rate plans, i.e. a fixed monthly fee with free talk minutes, the Company has also given users additional free minutes equivalent to the 4.04% tariff cut, retroactive to April 1, 2011.

(2) Countermeasures

As developed countries no longer regulate mobile retail tariffs, the Company continues to communicate with the NCC on this issue to reduce its impact on revenues. Separately, more than 190,000 customers benefited from the additional free minutes.

3. Renewal of GSM licenses

(1) Status

On November 12, 2010, the Executive Yuan passed a measure governing the expiration of GSM (2G) licenses, which extended their validity to June 2017. The NCC revised Regulations Governing Mobile Telecommunications Businesses on September 19, 2011 and announced the details and documents required for applying for renewal of 2G licenses on December 5, 2011.

(2) Countermeasures

In compliance with the NCC regulation, the Company renewed its GSM licenses and continues to provide subscribers with advanced mobile communications and digital convergence services to enhance customer satisfaction.

4. Revision of the National Communications Commission Organization Act

(1) Status

Amendments to the National Communications Commission (NCC) Organization Act were passed on Dec. 14, 2011 with the following revisions: 1) the NCC Chairperson and Vice Chairperson shall be nominated by the Premier of the Executive Yuan, 2) The Premier has the authority to dismiss the NCC Commissioners, and 3) Civil servants can be nominated as NCC Commissioners. With these revisions, the NCC shall coordinate more with the Executive Yuan in carrying out its policies.

(2) Countermeasures

The national communications policy should be more consistent. The Company lauds these revisions and continues to monitor subsequent developments.

5. Reducing IP peering and other wholesale charges

(1) Status

In March 2011, the NCC approved Chunghwa Telecom's new wholesale pricing scheme, lowering IP peering fees by 32%, asynchronous transfer mode (ATM)-based circuit fees by 10%, Giga Ethernet circuit fees by 20%, and data leased circuit fees by 5%, all compared with a year ago, thereby reducing the Company's operating costs.

(2) Countermeasures

The Company is pushing for further reductions in IP peering costs and other leased line wholesale prices as it develops its broadband business.

6. NCC approved expansion of CATV service areas

(1) Status

To promote competition, CATV digitization and consumer rights, the NCC approved a proposal on April 27, 2011, to expand the CATV service areas based on city/county and to open licenses to new entrants, while the details are still under deliberation at the time of publication.

(2) Countermeasures

The Company continues to communicate with and forward suggestions and recommendations concerning related policy and regulations to the NCC.

Technology changes and development

1. Wireless Broadband Access (WBA)

(1) Status

WBA is a communications technology based on orthogonal frequency division multiplexing (OFDM). WiMAX is one of the examples of OFDM technologies and is capable of providing speeds of up to 10 Mbps on 3G's 5MHz equivalent frequency bandwidth. All six local WiMAX operators have launched regional services one after another since 2Q09. To date, WiMAX has had minimal impact on 3G voice and data revenue because of its limited network coverage. However, with WiMAX operators pursuing mergers since 2011, they may be able to reduce their network installation and operating costs, potentially increasing their threat to 3G operators.

(2) Countermeasures

3.5G technology for high-speed packet access plus (HSPA⁺) is mature and has been commercialized. The speed of the connection throughput for HSDPA already surpasses that of WBA technology and is a more commercially competitive technology.

TWM has aggressively deployed 3.5G technology since late 2007, and has offered 14.4Mbps wireless broadband services in urban areas since 2009. In 2010, TWM added more 7.2Mbps and 14.4Mbps base stations. In 2011, TWM started to introduce HSPA⁺ high-speed mobile internet services in five major metropolitan areas. For 2012, TWM will continue to expand its HSPA⁺ coverage. The Company will also continue its evaluation of LTE – a technology that surpasses WiMAX and is already deployed in many countries – and plans to make trial runs in 2012.

2. Rising popularity of internet protocol

(1) Status

The popularity of internet protocol (IP) has revolutionized the telecommunications business and network infrastructure, giving rise to increased IP-based communications traffic. IP-based telecom is able to simplify network infrastructure, translating into big savings on operating costs. This trend accelerated the use of IPv4 addresses, which is near exhaustion worldwide, and made IPv6 migration an urgent need in the future. On the other hand, not only has the increasing availability of cheap or free VoIP services had a great impact on traditional fixed-line operators' long distance and international voice call revenue, free mobile IP messaging services even caused a decline in SMS traffic during the New Year holiday.

(2) Countermeasures

The necessity of building an IP core network infrastructure based on next generation network (NGN) is an urgent task. TWM has been building the latest IP-based optical core network and started to deploy IP core access and transmission technologies. It is also conducting laboratory tests of various IPv6 IOT (interoperability testing), VoIP and IP messaging application services to lead industry development.

The Company is developing and testing new IPv6 technology and new IP application services and conducting research on the latest optical packet carrier ethernet technologies to introduce more services that provide households with the most advanced and innovative broadband services. The Company will also continue to monitor free VoIP and IP messaging traffic trends and reference global operators' actions in dealing with their impact to formulate its own strategy.

3. Digital convergence and cloud services

(1) Status

Because of the digitalization trend, the transmission and exchange of related digital content and services among different carriers, systems and platforms have brought about changes in wired and wireless communications and broadcasting industries. This has not only promoted competition and integration of the two industries, but also facilitated an industry consolidation. The digitalization of terrestrial TV, which will go into force on July 1, 2012, is expected to accelerate the development of digital convergence services. As such, cloud computing technology and service – the base of digital convergence – have progressed from merely a concept to a profitable business, and should be the future trend.

(2) Countermeasures

After merging Taiwan Fixed Network (TFN) and Taiwan Telecommunication Network Services (TTN) in 2007, the Company enhanced its status as a leader in the digital convergence era. TWM had integrated the group's resources to facilitate research and development in digital convergence and launched fixed-mobile convergence (FMC) services for corporate accounts. It is also aggressively planning new digital convergence services that will integrate cable TV, digital TV, cable broadband, and interactive entertainment services. At the end of 2010, the Company launched its four-screen-and-a-cloud digital convergence service, integrating handset, PC, tablet and TV. Not only was TWM the first to introduce such services in Taiwan, it was also an industry pioneer in Asia. In 2011, TWM invested in the construction of an internet data center (IDC) for cloud services to provide infrastructure as a service (IAAS), enabling TWM to launch additional intelligent cloud services in four key areas – mobile life, digital content, intelligent life and intelligent enterprise in the future.

4. Popularity of mobile smart devices and femto/WiFi technologies

(1) Status

The popularity of the iPhone, Android phone and other mobile smart devices has dramatically boosted the growth of 3G data usage. This has forced global mobile operators to expand their 3G access network's backhaul bandwidth and

network capacity, which in turn has increased the pressure on their operating costs. Many mobile operators have started building WiFi networks and femtocells to offload 3G data traffic.

(2) Countermeasures

In 2011, the Company not only continued expanding the backhaul bandwidth and network capacity of its HSPA network, but also purchased some WIFi and femto network equipment. The Company has started providing WiFi service to selected customers and is waiting for NCC's approval to provide femto service. Should this solution turn out well, the Company will deploy more WiFi and femto networks in 2012.

Impact of changes in brand image on the Company's risk management policies:

None. TWM has long built up a sound image among investors and customers for its continuing efforts to enhance corporate governance, network communication quality and customer service, as well as to fulfill its corporate social responsibility. These efforts won numerous recognitions and awards in 2011 (please refer to Chapter 1) and should aid the Company in preventing, controlling and managing latent risks that it may face and help it maintain its good corporate image.

Expected benefits and risks from mergers in recent years until publication date

The Company, acquired a 51% stake in Fubon Multimedia Technology Co., Ltd. (also known as momo) through Wealth Media Technology Co., Ltd., a 100% owned subsidiary of TWM, in July 2011.

1. Expected benefits:

To benefit from the synergy of combining traditional and virtual channels and enhance M-commerce business.

2. Potential risks:

Affected by the macro-economy, the subsidiary's operating performance fell behind expectations in 2011.

3. Countermeasures:

Periodic review and supervision of subsidiaries' operating performance.

Expected benefits and risks related to plant facility expansions: Not applicable

Risks from supplier and buyer concentrations in recent years until publication date

The Company's main supplier is Chunghwa Telecom (CHT) for network interconnections and leased lines. These costs accounted for 11% of total operating costs in 2011. The Company has been increasing usage of leased lines supplied by Taiwan Fixed Network, the Company's 100% owned subsidiary, to diversify supplier risk.

On the revenue side, CHT is the Company's largest source of interconnection revenue. But since the Company has a very diverse subscriber base for its mobile services, there is no buyer concentration risk.

Significant changes in shareholdings of directors and major shareholders: None.

Changes in management controls: Not applicable

Significant lawsuits and non-litigious matters

1. The Company: None

2. The Company's directors, general manager, any person with actual responsibility with the Company, any major shareholder holding greater than 10 percent of the Company's shares: None

3. The Company's subsidiaries

(1) Globalview Cable TV Co., Ltd., Phoenix Cable TV Co., Ltd., Union Cable TV Co., Ltd., and Yeong Jia Leh Cable TV Co., Ltd. (collectively referred to as "four SOs")

The NCC fined the four system operators (SO) NT\$100,000 each and ordered them to divest indirect holdings by the Taipei City Government within one year after the ruling.

Parties Involved: The four SOs are the defaulting parties.

Grounds for Lawsuit:

The NCC ruled that the four SOs had violated Paragraph 4, Article 19 of the Cable, Radio and Television Act, which states that the government, political parties, as well as foundations established with their endowments, and those commissioned thereof, shall not directly or indirectly invest in cable, radio and/or television system operators. The four SOs disagreed with the NCC's administrative disposition fining them NT\$100,000 each and ordering them to divest indirect holdings by the Taipei City Government within one year after receiving the ruling (the "First Disposition"), and filed individual administrative appeals in 2010. The Executive Yuan revoked the First Disposition, but in June and July 2010, the NCC issued a new administrative disposition to each of the four SOs (hereinafter referred to as the "Second Disposition") with the same administrative penalty and conditions mentioned in the First Disposition. The four SOs disagreed with the Second Disposition and filed individual administrative appeals in July 2010. The Executive Yuan revoked the Second Disposition. Thereafter the NCC held a hearing for the said dispute on July 28, 2011, and issued a new administrative dispositions to the four SOs ("Third Disposition") with the same administrative penalty and conditions mentioned in the First and Second dispositions to the four SOs in January 2012. The four SOs disagreed with the Third Disposition, and will seek other legal process in accordance with the law.

(2) Win TV Broadcasting Co., Ltd.

The NCC fined Win TV broadcasting Co., Ltd. NT\$200,000 as an administrative penalty and instructed it to dispose of indirect holdings by the Taipei City Government within one year after the ruling.

Parties Involved: Win TV is the defaulting party.

Grounds for Lawsuit:

The NCC ruled that Win TV had violated Paragraph 3, Article 9 of the Satellite Broadcasting Act, which stipulates that political parties, the government and foundations established with their endowments, and those commissioned thereof, shall not invest directly or indirectly in satellite broadcasting businesses. Win TV was fined NT\$200,000 as an administrative penalty and ordered to divest indirect holdings by the Taipei City Government within one year after receiving the administrative disposition (the "First Disposition"). Win TV disagreed with the First Disposition and filed an administrative appeal. The Executive Yuan revoked the First Disposition. The NCC issued a second administrative disposition ("Second Disposition") in September 2010 with the same penalty and conditions as in the First Disposition. Win TV disagreed with the Second Disposition. Win TV disagreed with the Second Disposition.

Other major risks

Customer fraud management policy

1. Verification before activation

(1) ID confirmation: An application shall be denied if the applicant's ID matches one on the blacklist. Approval may be given if the ID has been removed from the blacklist (e.g. after clearing unpaid bills).

(2) Customer profile confirmation: After passing the aforementioned process, if the applicant's customer profile falls into the high-risk group, conditional approval may be granted (e.g. requiring advanced payment of bills).

2. Monitoring after activation

- (1) Verification calls: After activation, relatively "high-risk" applicants will receive a follow-up call from the Company to guard against fraud/fake accounts. In incidents where fraud is suspected (e.g. fake accounts), the Company will suspend phone service during the investigation period to protect customers' interests.
- (2) Credit classification: The system grades and authorizes credit based on customers' usage and payment history. When a customer's usage exceeds his credit and a verifying call confirms that usage is unusual and abnormal, the Company will temporarily suspend phone service during the investigation period to protect customers' interests.
- (3) Wireless data service notification: There is a notification mechanism to alarm customers when they are using mobile internet service domestically or overseas. Through the new feature of NTR (Network Traffic Re-direction), introduced in the middle of 2011, users who signed up for discounted international data roaming packages will be registered on the preferred network automatically. For those who haven't signed up for this service, they will still be alerted and notified by text messages sent from the Company when they are using international data roaming.

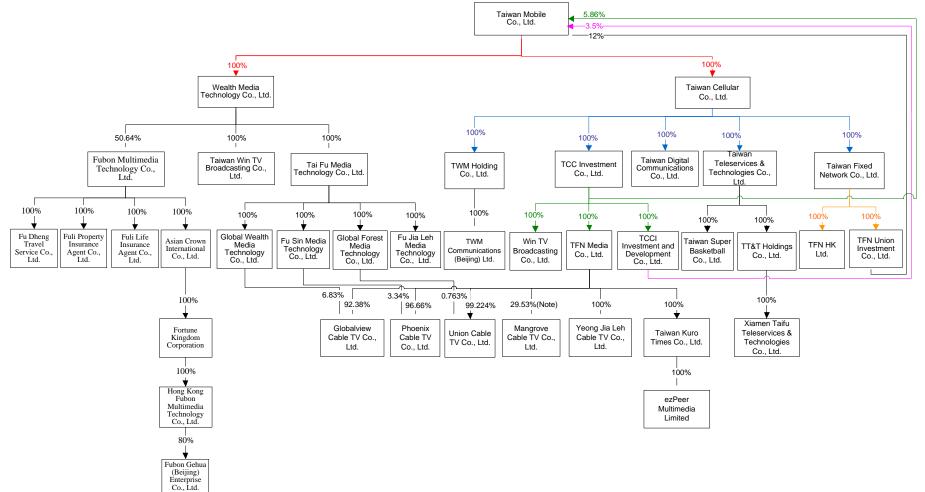

Other significant items: None

Chapter 7. Special Notes

Affiliates

1. Investment holding structure

As of December 31, 2011

Note: 70.47% of shares are held under trustee accounts.

2. Affiliates' profile

Taiwan Mobile Co., Ltd. Financial Statements December 31, 2011 and 2010 (With Independent Auditors' Report Thereon)

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders

Taiwan Mobile Co., Ltd.

We have audited the accompanying balance sheets of Taiwan Mobile Co., Ltd. (the Corporation) as of December 31, 2011 and 2010, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred above present fairly, in all material respects, the financial position of Taiwan Mobile Co., Ltd. as of December 31, 2011 and 2010, and the results of its operations and its cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the Republic of China.

We have also audited the consolidated balance sheets of the Corporation and its subsidiaries as of December 31, 2011 and 2010 and the related consolidated statements of income, changes in shareholders' equity, and cash flows for the years then ended, on which we have issued unqualified audit report and modified audit report dated January 19, 2012 and January 15, 2011, respectively.

We have also audited the accompanying schedules of significant accounts, provided as supplementary analysis, by applying the same procedures described above. In our opinion, such schedules are consistent, in all material respects, with the financial statements referred to above.

KPMG

Taipei, Taiwan (the Republic of China) January 19, 2012

Note to Readers

The accompanying financial statements are intended only to present the financial position, results of operations, and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures, and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

TAIWAN MOBILE CO., LTD. NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2011 AND 2010 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. ORGANIZATION AND OPERATIONS

Taiwan Mobile Co., Ltd. (the Corporation) was incorporated in the Republic of China (ROC) on February 25, 1997. The Corporation's shares began to be traded on the ROC Over-the-Counter Securities Exchange (known as the GreTai Securities Market) on September 19, 2000. On August 26, 2002, the Corporation's shares were listed on the Taiwan Stock Exchange. The Corporation mainly renders wireless communication services.

The Corporation's services are under the type I license issued by the Directorate General of Telecommunications (DGT) of the ROC. The license allows the Corporation to provide services for 15 years from 1997 onwards. The license had been extended to June 2017 by the notice issued by the Ministry of Transportation and Communications on November 25, 2010. It also entails the payment of an annual license fee consisting of 2% of total wireless communication service revenues. On March 24, 2005, the Corporation received the third generation (3G) concession operation license issued by the DGT. The 3G license allows the Corporation to provide services from the issuance date of the license to December 31, 2018.

As of December 31, 2011 and 2010, the Corporation had 2,651 and 2,548 employees, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Corporation's financial statements were compiled in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and Republic of China generally accepted accounting principles. In conformity with the above, the Corporation is required to make certain estimates and assumptions that could affect the amounts of allowance for doubtful accounts, provision for losses on decline in value of inventories, depreciation, pension, allowance for deferred income tax assets, bonus to employees, remuneration to directors and supervisors, impairment loss on assets, etc. Actual results may differ from these estimates.

The financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of, the English and Chinese language financial statements, the Chinese version shall prevail.

The significant accounting policies and measurement basis are as follows:

Classification of Current and Non-current Assets and Liabilities

Current assets include cash and cash equivalents, assets held for trading, and those expected to be converted to cash, sold or consumed within twelve months from the balance sheet date. Other assets such as property and equipment and intangible assets are classified as non-current. Current liabilities are obligations held for trading and those expected to be due within twelve months from the balance sheet date. All other liabilities are classified as non-current.

Cash Equivalents

Government bonds and short-term bills, whose carrying value approximates fair value, acquired with repurchase rights and having maturities of up to three months from the date of purchase, are classified as cash equivalents.

Financial Instruments at Fair Value through Profit or Loss

Financial instruments at fair value through profit or loss include financial assets or liabilities held for trading and those designated on initial recognition to be measured at fair value with fair value changes recognized in profit or loss. On initial recognition, the financial instruments are recognized at fair value plus transaction costs and are subsequently measured at fair value with fair value changes recognized in profit or loss. The purchase or sale of the financial instruments is recognized and derecognized using trade-date accounting.

The fair value of open-end mutual funds is based on the net asset value on the balance sheet date.

Available-for-sale Financial Assets

On initial recognition, available-for-sale financial assets are recognized at fair value plus transaction costs. When subsequently measured at fair value, the fair value changes are recognized directly in equity. The cumulative gain or loss that was recognized in equity is recognized in profit or loss when an available-for-sale financial asset is derecognized from the balance sheet. The purchase or sale of the financial instruments is recognized and derecognized using trade-date accounting.

Cash dividends are recognized as dividend income on the ex-dividend date, but are accounted for as reductions to the original cost of investments if such dividends are declared on the earnings of investees attributable to periods prior to the purchase of investments. Stock dividends are not recognized as current income but are accounted for only as an increase in the number of shares held. The cost per share is re-calculated based on the new number of shares.

An impairment loss is recognized if there is any objective evidence that a financial asset is impaired. If the amount of impairment loss decreases in the subsequent period, such decrease is recognized in equity.

The fair value of listed stocks is based on the closing price on the balance sheet date.

Receivables

The Corporation accesses evidence for impairment of receivables on an individual and collective basis. Accordingly, all individually significant receivables are assessed for specific impairment. The Corporation groups receivables that are not individually significant in accordance with credit risks and considers the historical trends of the probability of default, the timing of recoveries, and the amount of loss incurred to make the estimate of impairment.

Inventories

Inventories are recorded at the lower of weighted-average cost or net realizable value. When comparing cost and net realizable value, inventories are evaluated by individual item.

Investments Accounted for Using the Equity Method

Long-term investments in which the Corporation owns 20% or more of an investee's outstanding voting shares or exercises significant influence on an investee are accounted for under the equity method.

In accordance with the newly revised Statement of Financial Accounting Standards (SFAS), the cost of acquisition is subjected to an initial analysis, and goodwill represents the excess of the cost of acquisition over the fair value of the identifiable net asset value. Goodwill is no longer amortized. If the fair value of identifiable net assets acquired exceeds the cost of investments, the excess should be assigned to non-current assets (except for financial assets not under equity method, assets for disposal, deferred income tax assets, and prepaid pension costs or other retirement benefit costs). If these assets are all reduced to zero, the remaining excess should be recognized as extraordinary gain. Starting January 1, 2006, the unamortized balance of the excess of the acquisition cost of the long-term investment under the equity method over the equity in the investee's net asset value is no longer amortized, and this accounting treatment also applies to goodwill.

Gains or losses from downstream transactions with its subsidiaries are deferred and included in deferred income (loss) and recorded as other liabilities (assets). Gains or losses on upstream transactions with the Corporation by equity-method investees that are not majority owned are deferred in proportion to the Corporation's ownership percentages in the investees until these sales are realized through transactions with third parties.

The cost and the resulting gain or loss on an investment sold are determined by the weighted-average-cost method.

Financial Assets Carried at Cost

If there is no active market for an equity instrument, and a reliable fair value cannot be estimated, the equity instrument, including non-publicly traded and emerging stocks, etc., is measured at cost. The accounting for the dividends from financial assets carried at cost is the same as that for an available-for-sale financial asset. Impairment losses are recognized if a decrease in the fair value of the instruments can be objectively related to an event. Reversal of impairment loss is not allowed.

Property and Equipment, and Assets Leased to Others

Property and equipment, and assets leased to others are stated at cost less accumulated depreciation and accumulated impairment. Significant additions, renewals, betterments, and interest expenses incurred during the construction period are capitalized, while maintenance and repairs are expensed. Leased property and equipment from others covered by agreements qualifying as capital leases are carried at the lower of the present value of the future minimum lease payments or the market value of the property on the starting dates of the leases.

For cost associated with dismantling and relocating fixed assets and restoring the leased premises housing fixed assets to the previous state should be recognized as an addition to the fixed assets and accrued as a potential liability accordingly.

Depreciation is calculated using the straight-line method over the estimated service lives, which range as follows: buildings - 50 to 55 years; telecommunication equipment - 2 to 15 years; office equipment - 3 to 5 years; leased assets - 20 years; and miscellaneous equipment - 3 to 5 years.

Upon sale or retirement of property and equipment, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss is credited or charged to non-operating gain or loss in the period of disposal.

Accounting for Leases

In accordance with SFAS No. 2 "Leases," a lease is identified as either an operating lease or a capital lease based on the lease contract terms, the collectability of the rent, and the un-reimbursable costs to be incurred by the lessor.

The asset held under an operating lease is stated at cost and depreciated on a straight-line basis over the estimated useful life. Receivables collected are periodically recognized as rental income during the lease contract.

At the inception date of a capital lease, total rental receivables shall be recognized as all rental receivables plus the pre-determined bargain purchase price offered to the lessee upon maturity or estimated residual value. For a financing type of capital lease, rental receivables should be recognized as the sum of present values derived from all future rental receivables based on an implicit interest rate of the lease. The excess of total rental receivables over the present value of rental receivables should be deferred as unrealized interest income and amortized as interest income by the effective interest method upon each collection.

Intangible Assets

a. Franchise

Franchise refers to the payment for the 3G mobile telecommunication services - License C. The 3G concession is recorded at acquisition cost and is amortized by the straight-line method over 13 years and 9 months starting from the launch of 3G services.

b. Computer software

Computer software cost is amortized by the straight-line method over 3 years.

c. Goodwill

In accordance with the newly revised SFAS, goodwill is no longer amortized. Please refer to the accounting policy for investments accounted for by the equity method.

Idle Assets

Properties not currently used in operations are stated at the lower of book value or net realizable value, with the difference charged to current loss. Depreciation expense is computed using the straight-line method over the estimated useful lives of the assets.

Deferred Charges

Deferred charges, mainly interior decoration costs for offices and directly-managed stores, are amortized by the straight-line method over two to five years.

~10~

Asset Impairment

If the carrying value of an asset (including property and equipment, intangible assets, idle assets, assets leased to others, investments accounted for using the equity method, and deferred charges) is more than its recoverable amount, which indicates that an impairment exists, an impairment loss should be recognized. Any subsequent reversal of the impairment loss for the increase in recoverable amount is recognized as income. The reversal of impairment loss on goodwill is not allowed.

Pension Costs

The pension costs under the defined benefit pension plan are recognized on the basis of actuarial calculations. The contribution amounts of the pension costs under the defined contribution pension plan are recognized as current expenses during the employees' service years.

Income Taxes

The inter-period and intra-period allocation methods are used for income taxes. Deferred income tax assets and liabilities are recognized for the tax effects of temporary differences, unused tax credits, and net operating loss carryforwards. A valuation allowance is provided for deferred income tax assets to the extent that it is more likely than not such assets will not be realized. Deferred tax assets or liabilities are classified as current or non-current according to the classification of related assets or liabilities for financial reporting. However, if deferred tax assets or liabilities in the financial statements, they are classified as current or non-current on the basis of the expected length of time before being realized.

Tax credits for certain purchases of equipment and technology, research and development expenditures, and personnel training expenditures are recognized by the flow-through method.

Adjustments to prior years' tax liabilities are added to or deducted from the current period's tax expense.

Income tax of 10% on unappropriated earnings generated is provided for as income tax in the year when the shareholders resolve to retain the earnings.

Treasury Stock

The purchase of issued shares is accounted for by debiting treasury stock, which is a reduction of shareholders' equity. The Corporation's shares held by its subsidiaries are treated as treasury stock and reclassified from investments accounted for using the equity method to treasury stock.

If the proceeds on the disposal of treasury stock exceed the carrying value of treasury stock, the excess is credited to capital surplus from treasury stock. If the proceeds are less than the carrying value of treasury stock, the difference is debited to capital surplus from treasury stock. If the balance of capital surplus from treasury stock is not sufficient to absorb the difference, the rest is recorded as a reduction of retained earnings.

Foreign-currency Transactions

Assets, liabilities, revenues or expenses denominated in foreign currencies as a result of foreign-currency transactions involving non-derivative financial instruments are recorded in New Taiwan dollars at the exchange rates prevailing at the dates of transactions.

Monetary assets or liabilities denominated in foreign currencies are translated at the exchange rates prevailing at the balance sheet date, and the resulting exchange differences are included in profit or loss for the current period.

Non-monetary assets or liabilities carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date when the fair value was determined, and the resulting exchange differences are included in profit or loss for the current period except for the differences arising on the retranslation of non-monetary assets and liabilities in respect of which gains and losses are recognized directly in equity. For such non-monetary assets and liabilities, any exchange component of that gain or loss is also recognized directly in equity. Non-monetary assets or liabilities carried at cost that are denominated in foreign currencies are translated at the historical rates prevailing at the dates of transactions.

The above prevailing exchange rates are based on the average of bid and ask rates of major banks.

Revenue Recognition

Revenues are recognized when the service rendering process is completed or virtually completed, and earnings are realizable and measurable. Related costs of providing services are concurrently recognized as incurred.

Service revenues from wireless services and value-added services, net of any applicable discount, are billed at predetermined rates. Prepaid card services are recognized on the basis of minutes of usage.

Promotion Expenses

Commissions and cellular phone subsidy costs pertaining to the Corporation's promotions are recognized as marketing expenses on an accrual basis in the current period.

~12~

3. EFFECTS OF CHANGES IN ACCOUNTING PRINCIPLES

Effective from January 1, 2011, the Corporation adopted SFAS No. 41 "Operating Segments." In accordance with SFAS No. 41, an entity should disclose information to enable users of its financial statements to evaluate the nature and the financial effects of the business activities in which it engages and the economic environments in which it operates. The Corporation determines and presents operating segments based on the information that is internally provided to the chief operating decision maker. In addition, the segment information should be disclosed in the consolidated financial reports issued by the Corporation, but it does not need to be disclosed in individual financial reports. The Standard also supersedes SFAS No. 20 "Segment Reporting". The information for the period ended December 31, 2011, has been recast to reflect the new segment reporting requirement.

Effective from January 1, 2011, the Corporation adopted the third amended SFAS No. 34 "Financial Instruments: Recognition and Measurement". In accordance with the revised SFAS No. 34, initial receivables are used in the recognition, valuation, and impairment of receivables. There was no impact on the profit or loss for the year ended December 31, 2011.

4. SUMMARY OF MAJOR ACCOUNTS

|---|---------------|---------------|------------|---------------|
| | 2011 | | 2010 |) |
| | % of | | | % of |
| | Carrying | Owner- | Carrying | Owner- |
| | Value | ship | Value | ship |
| Taiwan Cellular Co., Ltd. (TCC) | \$ 17,195,352 | 100 | 10,618,840 | 100 |
| Wealth Media Technology Co., Ltd. (WMT) | 8,862,169 | 100 | 301,977 | 100 |
| Taipei New Horizons Co., Ltd. (TNH) | 562,812 | 49.90 | 388,002 | 49.90 |
| | \$ 26,620,333 | | 11,308,819 | |

(1) Taiwan Cellular Co., Ltd.

On December 24, 2009, TCC's board of directors resolved to return \$3,500,000 thousand of capital to shareholders through the cancellation of 350,000 thousand shares. Based on its 100% ownership in TCC at the record date of capital reduction, the Corporation received \$3,500,000 thousand in July 2010.

- On July 28, 2011, TCC's board of directors resolved to :
- (a) Issuance of 140,896 thousand shares for \$1,408,958 thousand from legal reserve with the record date of August 2, 2011.
- (b) Increase capital by \$5,500,000 thousand, divided into 200,000 thousand shares with par value of \$10 and issuing price of \$27.5 per share at the record date of August 5, 2011. The Corporation subscribed for all the shares.

In 2007, the Corporation invested in Taiwan Fixed Network Co., Ltd. (TFN) indirectly through TCC with shares of the former TFN as investment. Based on the revised SFAS No. 5 "Long-term Investments under Equity Method," unrealized gains and losses on downstream transactions should be deferred. Thus, the difference between the original carrying cost and the investment price of the former TFN shares in this transaction should be treated as deferred gains. As of December 31, 2011, the amount of deferred credits recognized by the Corporation was \$1,238,378 thousand.

As of December 31, 2011, TCC Investment Co., Ltd. (TCCI, 100% owned by TCC), TCCI Investment & Development Co., Ltd. (TID, 100% owned by TCCI), and TFN Union Investment Co., Ltd. (TUI, 100% owned by TFN) collectively held 730,726 thousand shares of the Corporation. Based on SFAS No. 30 "Accounting for Treasury Stock", the Corporation's shares held by subsidiaries are treated as the treasury stock. This accounting treatment reduced the Corporation's long-term investment value by the same amount as the treasury stock account value of \$31,077,183 thousand. Please refer to Note 4(p) for details.

(2) Wealth Media Technology Co., Ltd.

WMT's board of directors approved the issuance of 10,000 thousand shares at par value of \$10 for \$100,000 thousand on July 27, 2010. At the record date (August 1, 2010), the Corporation subscribed for all the shares.

In order to enhance cross-platform synergy and mobile commerce service, the Corporation's board of directors resolved on April 8, 2011, to acquire 51% of shares of Fubon Multimedia Technology Co., Ltd. (FMT) held by Fubon Financial Venture Capital Co., Ltd. at the price of \$8,347,949 thousand through its subsidiary WMH. The authority approved the transaction on June 30, 2011, and the Corporation paid the purchase price to complete the settlement on July 13, 2011.

On July 12, 2011, WMT's board of directors resolved to:

- (a) Reduce \$70,000 thousand of the capital through the cancellation of 7,000 thousand shares at the record date of July 15, 2011. The amount is compensated for deficits and the cash return to investors of \$69,894 thousand and \$106 thousand, respectively.
- (b) Increase capital by \$8,350,000 thousand, divided into 8,350 thousand shares with par value of \$10 and issuing price of \$1,000 per share at the record date of July 16, 2011. The Corporation subscribed for all the shares.
- (3) Taipei New Horizons Co., Ltd.

TNH was established to invest in a property development project located on the old Songshan Tobacco Factory site. On January 15, 2009, TNH signed a 50-year BOT contract with the Taipei City Government.

On January 25, 2010, TNH's board of directors resolved to increase TNH's capital by \$500,000 thousand, divided into 50,000 thousand shares with par value of \$10 per share, with a record date of December 1, 2010. On November 19, 2010, TNH's board of directors resolved to adjust the above-mentioned capital increase by \$400,000 thousand, divided into 40,000 thousand shares with par value of \$10 per share. The Corporation subscribed for the shares based on its proportion of the shareholding.

On June 2, 2011, TNH's board of directors resolved to increase TNH's capital by \$400,000 thousand, divided into 40,000 thousand shares with par value of \$10 per share, with a record date of August 1, 2011. The Corporation subscribed for the shares based on its proportion of the shareholding, which remains at 49.9%.

(4) Equity in investees' net gains or losses

The carrying value of the investments under the equity method and the related investment income or losses were determined on the basis of audited financial statements.

The Corporation's investment income or losses were as follows:

| | | For the year ended December 31 | | |
|-----|----|-----------------------------------|-----------|--|
| | | | | |
| | | 2011 | 2010 | |
| TCC | \$ | 3,575,190 | 3,672,572 | |
| WMT | | 193,303 | 9,491 | |
| TNH | | (24,790) | (23,572) | |
| | \$ | 3,743,703 | 3,658,491 | |

All the financial statements of subsidiaries have been consolidated into the consolidated financial statements of the Corporation.

f. Financial assets carried at cost - non-current

| | December 31 | | |
|-------------------------|-----------------|--------|--|
| | 2011 | 2010 | |
| Foreign unlisted stocks | | | |
| Bridge Mobile Pte Ltd. | \$ 50,324 | 50,324 | |

Because there is no active market quotation and a reliable fair value cannot be estimated, the above investments are measured at cost.

g. Property and equipment - accumulated depreciation

| | December 31 | | |
|-----------------------------|-------------|------------|------------|
| | | 2011 | 2010 |
| Buildings | \$ | 465,049 | 454,417 |
| Telecommunication equipment | | 36,394,541 | 30,865,040 |
| Office equipment | | 6,910 | 5,253 |
| Leased assets | | 615,702 | 550,606 |
| Miscellaneous equipment | | 1,959,123 | 1,365,182 |
| | \$ | 39,441,325 | 33,240,498 |

Capitalized interest for the years ended December 31, 2011 and 2010 was \$ 10,244 thousand and \$7,753 thousand, respectively, with capitalization rates ranging from 1.68% to 2.88% and 1.56% to 2.88%, respectively.

h. Goodwill

The goodwill resulted from the merger of the Corporation with TAT on September 2, 2008. In conformity with SFAS No. 35 "Impairment of Assets," the Corporation engaged in mobile service, which was viewed as one cash-generating unit in 2011 and 2010. The critical assumptions to evaluate the recoverable amounts of operating assets and goodwill were as follows:

(1) Assumptions on operating revenues

After taking changes in the telecom industry and competitive landscape into consideration, operating revenues were estimated on the basis of the projected changes in subscriber numbers, minutes of incoming and outgoing calls, and average revenue per minute.

(2) Assumptions on operating costs and expenses

The estimates of activation commissions and customer retention costs were based on the new customer obtained and the existing customer maintained. The estimates of remaining costs and expenses were based on the Cost drivers of each item..

(3) Assumptions on discount rate

For the years ended December 31, 2011 and 2010, the Corporation used the discount rate of 6.98% and 7.47%, respectively, in calculating the asset recoverable amounts.

Based on the key assumptions of the cash-generating unit, the Corporation's management believes that the carrying amounts of these operating assets and goodwill will not exceed their recoverable amounts even if there are changes in the critical assumptions used to estimate recoverable amounts as long as these changes are reasonable for the years ended December 31, 2011 and 2010.

i. Assets leased to others and idle assets

| | December 31 | | |
|-------------------------------------|-------------|-----------|-----------|
| | | 2011 | 2010 |
| Assets leased to others | | | |
| Cost | \$ | 2,159,213 | 2,360,147 |
| Less accumulated depreciation | | (143,182) | (146,810) |
| Less accumulated impairment | | - | (10,591) |
| | \$ | 2,016,031 | 2,202,746 |
| Idle assets | | | |
| Cost | \$ | 68,840 | 155,771 |
| Less allowance for decline in value | | (35,928) | (35,928) |
| Less accumulated depreciation | | (17,434) | (24,745) |
| Less accumulated impairment | | (4,614) | (30,276) |
| | \$ | 10,864 | 64,822 |

j. Short-term borrowings

| December 31 | | | |
|-------------|------------|--------------|--|
| | 2011 | 2010 | |
| \$ | 9,000,000 | 3,000,000 | |
| | - | 6,645,000 | |
| \$ | 9,000,000 | 9,645,000 | |

1. Advance receipts

In accordance with NCC's policy, the Corporation entered into a contract with First Commercial Bank Co., Ltd. which provided a performance guarantee for advance receipts from prepaid card customers. The guaranteed advance receipts from prepaid card customers were \$938,905 thousand as of December 31, 2011.

m. Bonds payable

| | December 31 | | | | |
|------------------------------|-------------|-----------|-------------|---------|-------------|
| | 2011 | | 2 | 2010 | |
| | | Current | Non-current | Current | Non-current |
| 2nd Domestic unsecured bonds | \$ | 4,000,000 | 4,000,000 | - | 8,000,000 |

On November 14, 2008, the Corporation issued \$8,000,000 thousand of five-year domestic unsecured bonds, each having a face value of \$10,000 thousand and a coupon rate of 2.88% per annum, with simple interest due annually. Repayments will be made in the fourth and fifth year with equal installments, i.e., \$4,000,000 thousand.

Future repayments of the above-mentioned corporate bonds are as follows:

| | Year | Amount |
|------|------|-----------------|
| 2012 | | \$ 4,000,000 |
| 2013 | | 4,000,000 |
| | | \$ 8,000,000 |

n. Long-term borrowings

| | December 31 | | |
|-----------------|-------------|---------|--|
| | 2011 | 2010 | |
| Unsecured loans | \$ - | 800,000 | |
| Interest rate | - | 0.8832% | |

To provide medium-term working capital, the Corporation and its subsidiary, TFN, entered into a syndicated loan with a joint credit line of \$13,500,000 thousand with 9 banks led by Chinatrust Commercial Bank on February 21, 2008. This joint credit facility covers a period of three years commencing from May 20, 2008. Based on the terms of this agreement, the credit line will be decreased by 50% after two years from the commencing date. As of May 20, 2010, the credit line has been reduced to \$6,750,000 thousand. Also, interests are payable monthly. Upon maturity, the loan is allowed to revolve within its credit limits. The contract requires the Corporation to maintain certain financial ratios including debt ratios, interest coverage, and tangible net asset ratio based on semi-annual financials.

o. Pension plan

The Labor Pension Act (LPA) provides for a defined contribution pension plan. Starting from July 1, 2005, the Corporation should contribute monthly an amount equal to 6% of the employees' monthly salaries to the employees' individual pension accounts. The contributed amount was \$ 108,584 thousand and \$106,195 thousand for the years ended December 31, 2011 and 2010, respectively.

The Labor Standards Act (LSA) provides for a defined benefit pension plan. Benefits are based on the length of service and average basic pay of the six months before retirement. The Corporation contributes monthly an amount equal to 2% of the employees' monthly salaries to a pension fund. The pension fund is managed by an independently administered pension fund committee and deposited in the committee's name in Bank of Taiwan (formerly the Central Trust of China, which was merged into Bank of Taiwan in July 2007.) As approved by the Department of Labor of the Taipei City Government, the Corporation suspended contributing from February 2007 to January 2012.

Information on the defined benefit pension plan is summarized as follows: (1) Pension cost

| | Years Ended December 31 | | | | |
|------------------------------------|-------------------------|---------|---------|--|--|
| | 2011 | | 2010 | | |
| Service cost | \$ | 2,390 | 3,004 | | |

p. Shareholders' equity

(1) Capital surplus

Under the Company Act, capital surplus may only be used to offset a deficit. However, capital surplus, generated from the excess of the issue price over the par value of capital stock, including the stock issued for new capital and the buyback of stock, may be transferred to capital as stock dividends or distributed as cash dividends, and this transfer is restricted to a certain percentage of the paid-in capital and may be made only within prescribed limits each time. Also, the capital surplus from long-term investments may not be used for any other purposes.

(2) Legal reserve

According to the Company Act, a company shall first set aside ten percent of its income (after taxes) as legal reserve until it equals to the paid-in capital. After offsetting any deficit, the legal reserve may be transferred to capital as stock dividends or distributed as cash dividends within the amount in excess of 25% of the paid-in capital in pursuant to the resolution to be adopted by the shareholders' meeting.

(3) Appropriation of earnings and dividend policy

The Corporation's articles of incorporation provide that a 10% legal reserve should be set aside from the annual net income after the reduction of accumulated deficit. The remainder, less special reserve based on relevant laws or regulations or business requirements, should be distributed as follows:

- (a) Dividends and bonus to preferred shareholders
- (b) Remuneration to directors and supervisors up to 0.3%

(c) Bonus to employees - 1%-3%

(d) Remainder, to be appropriated as dividends as determined in the shareholders' meeting

The Corporation's dividend distribution is based on the availability of excess funds. That is, the Corporation first projects future capital needs through a capital budgeting process and then provides for the projected capital needs by using retained earnings. The remainder is available for dividend distribution. However, the amount of stock dividends should not be more than 80% of the total dividends to be distributed in a single year. The final amount, type, and percentage of the dividends are subject to the approval by the board of directors and shareholders based on actual earnings and working capital requirements of the Corporation in a particular year.

A regulation issued by the Securities and Futures Bureau requires a special reserve be made from the unappropriated earnings, equivalent to the debit balance of any account shown in shareholders' equity. The special reserve appropriated will be reversed to the extent that the net debit balance reverses.

The appropriation of earnings should be resolved by the shareholders in the following year and given effect in the financial statements of that year.

Under the Integrated Income Tax System, ROC resident shareholders are allowed a tax credit for the income tax paid by the Corporation. An imputation credit account (ICA) is maintained by the Corporation for such income tax and the tax credit allocated to each shareholder.

For the year ended December 31, 2011, the bonuses to employees and remuneration to directors and supervisors were accrued based on 3% and 0.3%, respectively, of net income (not including the bonuses to employees and remuneration to directors and supervisors) after setting aside 10% of net income as legal reserve. Any significant difference between annual accruals and the amount approved by the board of directors shall be adjusted in the current year. If the board of directors' approval differs from the amount ratified at the annual general shareholders' meeting (AGM), the difference will be treated as changes in accounting estimate and will be adjusted in 2012's P&L. If employee bonuses are paid in the form of company shares, the number of employee bonus shares shall be derived from dividing the approved bonus amount by the closing price one day prior to the AGM, adjusted for cash and/or stock dividends if any.

The 2010 and 2009 earnings appropriations resolved by the AGMs on June 15, 2011, and June 18, 2010, were as follows:

| | | | Dividend p | oer Share |
|--------------------------------|-----------------------|----------------------|-------------------|------------|
| | Appropriation | n of Earnings (NT\$) | | |
| | For Fiscal For Fiscal | | For Fiscal | For Fiscal |
| | Year 2010 | Year 2009 | Year 2010 | Year 2009 |
| Appropriation of legal reserve | \$ 1,382,219 | 1,388,886 | | |
| Cash dividends | 12,439,967 | 15,028,235 | 4.1619 | 5.02783 |
| Reversal of special reserve | | (2,528,259) | | |
| | \$ 13,822,186 | 13,888,862 | | |

The shareholders, on June 15, 2011, resolved to distribute a 2010 bonus of \$373,059 thousand to employees and remuneration of \$37,306 thousand to directors and supervisors.

The shareholders, on June 18, 2010, resolved to distribute a 2009 bonus of \$374,826 thousand to employees and remuneration of \$37,483 thousand to directors and supervisors.

Information on the appropriation of the earnings, bonus to employees, and remuneration to directors and supervisors proposed by the board of directors and approved at the AGM is available on the Market Observation Post System website of the Taiwan Stock Exchange.

(4) Capital reduction by cash

To increase ROE (Return of Equity) and maintain stable EPS (Earnings Per Share) and dividend, the Corporation's AGM resolved on June 15, 2011 a capital reduction of \$3,800,926 thousand, representing 10% of outstanding shares. On July 15, 2011, the authority already approved the application and the Corporation's board of directors resolved the record date of August 1, 2011. Trading suspension started on October 3, 2011 and the new shares resumed trading on October 13, 2011.

(5) Treasury stock

| | | | (Shares in] | Thousands) |
|------------------------------|-----------|----------|--------------|------------|
| | Beginning | | | Ending |
| Purpose of Buyback | Shares | Increase | Decrease | Shares |
| Year ended December 31, 2011 | | | | |
| Shares held by subsidiaries | 811,918 | - | 81,192 | 730,726 |
| | | | | |
| Year ended December 31, 2010 | | | | |
| Shares held by subsidiaries | 811,918 | - | - | 811,918 |

As of December 31, 2011, the Corporation's stock held by TCCI, TID, and TUI (all are subsidiaries 100% owned by the Corporation) was 730,726 thousand shares, and the carrying and market values were \$68,980,520 thousand. The Corporation reclassified \$31,077,183 thousand from investments accounted for using the equity method to treasury stock based on SFAS No. 30 "Accounting for Treasury Stock." Although these shares are treated as treasury stock in the financial statements, the shareholders are entitled to excise their rights over these shares, except for the participation in capital injection by cash. In addition, based on the ROC Company Act, the holders of treasury stock cannot exercise the voting rights.

(5) Unrealized gain or loss on financial instruments

Unrealized gain or loss on financial instruments for the years ended December 31, 2011 and 2010, is summarized as follows:

| | | Years en | ded | |
|--|-------------|----------|--------|--|
| | December 31 | | | |
| | | 2011 | 2010 | |
| Available-for-sale financial assets | | | | |
| Balance, beginning of period | \$ | 89,842 | 63,624 | |
| Fair value changes recognized directly in equity | | 21,464 | 26,218 | |
| Unrealized gains on financial instruments | \$ | 111,306 | 89,842 | |

q. Income tax expense

(1) The reconciliation of imputed income taxes on pretax income at the statutory tax rate to income tax expense was as follows:

| | Years ended December 31 | | | |
|---|----------------------------|-----------|-----------|--|
| | | | | |
| | | 2011 | 2010 | |
| Tax on pretax income at statutory tax rate | \$ | 2,523,309 | 2,787,684 | |
| Add (deduct) tax effects of: | | | | |
| Permanent differences | | | | |
| Investment income from domestic investees accounted | | | | |
| for using the equity method | | (636,430) | (621,943) | |
| Other | | (13,899) | (1,015) | |
| Temporary differences | | (399,185) | (174,571) | |
| Prior years' adjustment | | (491,616) | 69,335 | |
| Deferred income taxes | | 397,524 | 518,387 | |
| Investment tax credits | _ | (5,470) | (1,919) | |
| Income tax expense | \$ | 1,374,233 | 2,575,958 | |

On May 27, 2009, the Legislative Yuan passed an amendment of Article 5 of the Income Tax Act which reduced a profit-seeking enterprise's income tax rate from 25% to 20%, effective January 1, 2010. On June 15, 2010, the Legislative Yuan passed an amendment of Article 5 of the Income Tax Act to reduce the corporate statutory income tax rate from 20% to 17%, effective January 1, 2010. The Corporation recalculated its deferred tax assets and liabilities in accordance with the amended Article and recorded the resulting difference as an income tax expense.

| | Decembe | r 31 |
|--|---------------|-----------|
| | 2011 | 2010 |
| Unrealized loss on retirement of property and equipment | \$ 846,775 | 1,093,815 |
| Amortization of goodwill | (258,225) | (180,758) |
| Provision for doubtful accounts | 129,691 | 250,056 |
| Depreciation resulting from the differences in estimated | | |
| service lives of properties | 126,264 | 117,618 |
| Provision for impairment losses on idle assets | 20,979 | 21,650 |
| Other | 33,516 | 28,295 |
| | 899,000 | 1,330,676 |
| Less valuation allowance | (161,204) | (195,356) |
| | \$ 737,796 | 1,135,320 |
| Deferred income tax assets | | |
| Current | \$ - | 5,184 |
| Non-current | 737,989 | 1,130,136 |
| | \$ 737,989 | 1,135,320 |
| Deferred income tax liabilities | | |
| Current | \$ 193 | - |
| | \$ 193 | - |

(2) Deferred income tax assets (liabilities) were as follows:

(3) Integrated income tax information was as follows:

| | Decembe | er 31 |
|--|-----------------|-----------|
| | 2011 | 2010 |
| Balance of imputation credit account (ICA) | \$ 2,394,350 | 1,438,180 |

As of December 31, 2011, there were no unappropriated earnings generated before January 1, 1998. The estimated and actual creditable ratios for the 2011 and 2010 earnings appropriation were 22.28% and 17.68%, respectively.

The imputation credits allocated to the shareholders are based on the ICA balance as of the date of dividend distribution. The estimated creditable ratio for the 2011 earnings appropriation may be adjusted when the imputation credits are distributed.

(4) The latest years through which income tax returns had been examined and approved by the tax authorities were as follows:

| | Year |
|--|----------------------------|
| The Corporation | 2009, except 2006 and 2008 |
| ТАТ | 2007 |
| Trans Asian Telecommunications Inc. (the former TAT) | All applicable |
| Mobitai Communications | 2006 |

The Corporation's income tax returns for the years up to 2009 had been examined by the tax authorities, except for 2006 and 2008. The Corporation disagreed with the examination results of the income tax returns for 2009 and requested a reexamination.

TAT's income tax returns up to 2007 had been examined by the tax authorities. TAT disagreed with the examination results of the income tax returns for 2006 and 2007 and had filed an appeal.

The former TAT's income tax returns up to 2006 had been examined by the tax authorities. The Corporation filed for corrections of its 2002 through 2004 income tax returns.

Mobitai's income tax returns up to 2006 had been examined by the tax authorities. Mobitai disagreed with the examination results on the income tax return for 2006 and requested a reexamination.

r. Earnings per share

| | | | Shares | Before) Income | | Α | fter |
| | Before | After | (Denominator) | | | Income Ir | |
| | Income Tax | Income Tax | (Thousands) | | Tax | Tax | |
| Year ended December 31, 2010 | | | | | | | |
| Basic EPS | | | | | | | |
| Income of common shareholders | \$ 16,398,144 | 13,822,186 | 2,989,008 | \$ | 5.48 | \$ | 4.62 |
| Add effect of dilutive potential common | | | | | | | |
| stock – bonus to employees | - | - | 8,234 | | | | |
| Diluted EPS | | | | | | | |
| Income of common shareholders with dilutive | e | | | | | | |
| effect of potential common shares | \$ 16,398,144 | 13,822,186 | 2,997,242 | \$ | 5.47 | \$ | 4.61 |

The Accounting Research Development Foundation (ARDF) issued Interpretation No. 2007-052, which requires companies to recognize bonuses paid to employees and remuneration to directors and supervisors as compensation expenses beginning January 1, 2008. These bonuses and remuneration were previously recorded as appropriations from earnings. If the Corporation may settle the bonus to employees by cash or shares, the Corporation should presume that the entire amount of the bonus will be settled in shares, and the potential share dilution should be included in the weighted-average number of shares outstanding used in the calculation of diluted EPS if the shares have a dilutive effect. In the calculation of diluted EPS, the number of outstanding shares is derived from dividing the entire amount of the bonus by the closing price of the shares at the balance sheet date. Such potential dilutive effect should be taken into consideration in the calculation of diluted EPS until the shareholders resolve the actual number of shares to be distributed to employees at the AGM of the following year.

s. Financial instrument transactions

(1) Fair value information

| | December 31 | | | |
|--|-------------|------------|------------|------------|
| | 2011 | | 2010 | |
| | Carrying | | Carrying | |
| Financial instruments | Value | Fair Value | Value | Fair Value |
| Assets | | | | |
| Cash and cash equivalents | \$ 877,518 | 877,518 | 3,880,881 | 3,880,881 |
| Available-for-sale financial assets - current | 217,351 | 217,351 | 201,322 | 201,322 |
| Notes receivable | 791 | 791 | 378 | 378 |
| Accounts receivable (including related parties) | 5,909,458 | 5,909,458 | 5,579,395 | 5,579,395 |
| Other receivables (including related parties) | 1,474,820 | 1,474,820 | 12,622,282 | 12,622,282 |
| Financial assets carried at cost - non-current | 50,324 | - | 50,324 | - |
| Refundable deposits | 333,644 | 333,644 | 316,243 | 316,243 |
| Liabilities | | | | |
| Short-term borrowings | 9,000,000 | 9,000,000 | 9,645,000 | 9,645,000 |
| Short-term notes and bills payable | 899,273 | 899,273 | 499,732 | 499,732 |
| Accounts payable (including related parties) | 3,423,292 | 3,423,292 | 2,739,933 | 2,739,933 |
| Income taxes payable | 668,216 | 668,216 | 917,585 | 917,585 |
| Accrued expenses | 5,092,903 | 5,092,903 | 4,471,500 | 4,471,500 |
| Other payables | 3,125,316 | 3,125,316 | 4,348,846 | 4,348,846 |
| Guarantee deposits (including current portion) | 335,365 | 335,365 | 324,781 | 324,781 |
| Bonds payable | 8,000,000 | 8,192,952 | 8,000,000 | 8,264,392 |
| Long-term borrowings | - | - | 800,000 | 800,000 |

- (2) The methods and significant assumptions applied for determining fair values of financial instruments were as follows:
 - (a) Available-for-sale financial assets—based on quoted prices in an active market at the balance sheet date.
 - (b) Financial assets carried at cost—non-current—based on the net worth of the investee or estimated book value; this is because there is no active market for unlisted stocks, and a reliable fair value could only be verified at a more than reasonable cost.
 - (c) Bonds payable-based on the over-the-counter quotations in December.
 - (d) Long-term borrowings-based on the present value of future cash flows discounted by the interest rates the Corporation may obtain for similar loans.

- (e) The book values of short-term financial instruments approximate their fair value due to their short maturities; short-term financial instruments include cash and cash equivalents, receivables, refundable deposits, short-term borrowings, short-term notes, payables, and guarantee deposits.
- (3) The fair values of financial assets and liabilities were not simultaneously determined by quoted prices in active markets and by estimations using a valuation technique.
- (4) The financial assets exposed to fair value interest rate risk amounted to \$1,601,054 thousand and \$15,665,858 thousand as of December 31, 2011 and 2010, respectively, and the financial liabilities exposed to fair value interest rate risk amounted to \$17,899,273 thousand and \$18,944,732 thousand as of December 31, 2011 and 2010, respectively. The financial assets exposed to cash flow interest rate risk amounted to \$501,011 thousand and \$297,728 thousand as of December 31, 2011 and 2010, respectively, and the financial liabilities exposed to cash flow interest rate risk amounted to zero.
- (5) Information on financial risks
 - (a) Market risk

The Corporation did not enter into any financial derivative transactions which would cause significant exposure to exchange rate and interest rate risks.

(b) Credit risk

Credit risk represents the potential impacts on financial assets that the Corporation might encounter if counter-parties or third parties breach the contracts. Factors that affect the impacts include credit risk concentration, components of financial instruments, contract amount, and other receivables. The Corporation's evaluation of credit risk exposure as of December 31, 2011 and 2010, was zero because all counter-parties were reputable financial institutions with good credit ratings.

The Corporation's maximum credit risk exposure for each financial instrument is the same as its carrying value.

The credit risk amount listed above is an evaluation of the contracts with positive fair value at the balance sheet date and the contracts with off-balance-sheet commitments and guarantees. Significant concentration of credit risk exists when financial instrument transactions significantly concentrate on one counter-party, or when there are a number of counter-parties in financial instrument transactions, but these counter-parties are engaged in similar business activities and have similar economic characteristics so that their abilities to perform contractual obligations would be concurrently affected by similar economic changes or other situations. The characteristics of credit risk concentration include the nature of the debtors' operating activities. The Corporation does not rely significantly on a single client or counter-party or clients in the same region.

(c) Liquidity risk

The Corporation's operating funds are deemed sufficient to meet the cash flow demand; therefore, liquidity risk is not considered to be significant.

b. Significant transactions with related parties are summarized below:

(1) Operating revenues

| | Years Ended December 31 | | | | | |
|------|-------------------------|----------|-----------|----------|--|--|
| | 201 | .1 | 201 | 0 | | |
| | | % of | | % of | | |
| | | Total | | Total | | |
| | Amount | Revenues | Amount | Revenues | | |
| TFN | \$ 2,372,054 | 4 | 2,216,854 | 4 | | |
| TFCB | 12,859 | - | 11,732 | - | | |
| | \$ 2,384,913 | | 2,228,586 | | | |

The Corporation mainly rendered telecommunication services to the above company. The average collection period for notes and accounts receivable was approximately two months.

(2) Operating costs

| | Years Ended December 31 | | | | |
|------------|-------------------------|-------|-----------|-------|--|
| | 2011 | | 2010 | | |
| | | % of | | % of | |
| | | Total | | Total | |
| | Amount | Costs | Amount | Costs | |
| TFN | \$ 3,312,417 | 9 | 2,015,734 | 6 | |
| ТКТ | 105,157 | - | 11,920 | - | |
| Fubon Ins. | 36,344 | - | 43,889 | - | |
| | \$ 3,453,918 | | 2,071,543 | | |

These companies rendered telecommunication, maintenance, and insurance services to the Corporation. The average payment term for notes and accounts payable was approximately two months.

(3) Property transaction

| | Year Ended December 31, 2011 | | | |
|------|--------------------------------|----|--------|--|
| | Description of Property | | Amount | |
| TWMC | Telecommunication equipment | \$ | 42,274 | |

| | Year Ended Dec | Year Ended December 31, 2010 | | | |
|------|--------------------------------|------------------------------|--------|--|--|
| | Description of Property | Amount | | | |
| TWMC | Telecommunication equipment | \$ | 42,102 | | |

(4) Rental income

| | | | Years E | nded |
|------|------------------------|----|----------|---------|
| | | | 31, 2011 | |
| | Leased Property | | 2011 | 2010 |
| TFN | Offices and BTS, etc. | \$ | 106,280 | 119,094 |
| FMT | Office appliance, etc. | | 35,048 | 35,317 |
| TFNM | Offices | | 10,784 | 10,784 |
| | | \$ | 152,112 | 165,195 |

The above lease transactions were based on market price, and rent was collected monthly.

(5) Cash in banks

| | December 31 | | | | | |
|------------------------------|-------------|-----------|---------|------------|----|--|
| | 2011 | | | 2010 | | |

(9) Endorsement/guarantee provided

The Corporation provided a \$21,500,000 thousand guarantee for TFN's bank loans. The Corporation also provided \$19,759,800 thousand in promissory notes outstanding for TFN's borrowings from banks.

- (10) Other
 - (a) For the years ended December 31, 2011 and 2010, the Corporation provided services to companies below and received fees, which were recorded as deductions from related costs and expenses. The Corporation's service charges received were as follows:

| Y | ears Ended D | ecember 31 |
|----|--------------|------------|
| | 2011 | 2010 |
| \$ | 462,334 | 449,133 |
| | <u> </u> | |

(b) For the year ended December 31, 2011 and 2010, the company below provided services to the Corporation and received fees. The Corporation's service charges paid were as follows:

| | Ye | Years Ended December 31 | | |
|----------|----|-------------------------|--------|--|
| | 2 | 011 | 2010 | |
| | \$ | 60,760 | 87,085 | |
| <u> </u> | | | - , | |

c. Compensation to directors, supervisors, and managers:

| | Y | ears Ended De | cember 31 |
|--|----|---------------|-----------|
| | | 2011 | 2010 |
| Salaries, incentives, and special compensation | \$ | 154,181 | 242,394 |
| Earnings paid as remunerations to directors | | 36,284 | 37,306 |
| Earnings paid as bonus to employees | | 38,251 | 64,203 |
| Professional fee | | 2,360 | 2,120 |
| | \$ | 231,076 | 346,023 |

The compensation to directors, supervisors and managers for the year ended December 31, 2010 included the bonus appropriation from 2010 earnings approved in 2011 AGM. While that for the year ended December 31, 2011 included the bonus appropriation from 2011 earnings subject to approval in 2012 AGM. More detailed information may be referred in the Corporation's annual reports.

6. ASSETS PLEDGED: NONE

7. COMMITMENTS AND CONTINGENT EVENTS

- a. To enhance 3G mobile communications, expand network coverage, and increase the service functions, the Corporation entered into 3G expansion contracts with Nokia Siemens Networks Taiwan Co., Ltd. for \$3,840,861 thousand in May 2009 and \$6,650,000 thousand in February 2011. As of December 31, 2011, the purchase amount was \$3,779,485 thousand and \$1,980,972 thousand, respectively.
- b. Future minimum rental payments as of December 31, 2011, for significant operating lease agreements, are summarized as follows:

| | Amount |
|------|--------------|
| 2012 | \$ 90,314 |
| 2013 | 72,335 |
| 2014 | 66,306 |
| 2015 | 47,957 |
| 2016 | 22,468 |

8. SIGNIFICANT CASUALTY LOSS: NONE

9. SIGNIFICANT SUBSEQUENT EVENTS: NONE

Note 1: Maximum guarantee/endorsement amount for the period and the ending balance represent quotas, not actual appropriation.

Note 2: Direct/indirect subsidiary

Note 3: For 100% directly / indirectly owned subsidiaries, the aggregate endorsement/guarantee amount provided shall not exceed the net worth of the Corporation, and the upper limit for each subsidiary shall be the double the investment amount.

Note 4: Parent company

Note 5: TT&T is directly and indirectly 100% owned by TFN. The endorsement/guarantee amount provided by TT&T shall be limited to the net worth of TT&T, and not over double the investment amount in TT&T.

Note 6: Following the sale by TFN of its 100% shareholding in TT&T on May 14, 2010, the endorsement/guarantee provided by TT&T is for transactions. The aggregate endorsement/guarantee amount shall not exceed the net worth of TT&T, and the individual endorsement/guarantee amount shall not exceed the amount of business dealings. The amount of business dealings is \$132,614 thousand.

- Note 1: Based on the investee's net worth as shown in its audited financial statements if market value was not available.
- Note 2: Impairment loss recognized in 2004 reduced the value to zero.
- Note 3: As of January 19, 2012, the independent auditors' report date, the investee's net worth was not available.
- Note 4: The Corporation's shares held by TCCI, TID and TUI (all are subsidiaries 100% owned by TCC) are classified as treasury shares. Therefore, the Corporation's carrying cost of \$76,457,449 thousand for TCC shall be reduced by 1) downward adjusting \$(31,077,183) thousand, the carrying value of total treasury shares on the Corporation's books, 2) excluding \$(28,636,318) thousand of unrealized gain from financial asset investment, 3) adding back \$475,907 thousand of income tax expenses resulting from TFN's and TFNI's disposal gain from the Corporation's shares, and 4) excluding recognition of upstream transactions gain of \$(24,503) thousand.
- Note 5: Based on the closing price or net asset value of funds on December 31, 2011.
- Note 6 70.47% of shares are held under trustee accounts.
- Note 7: The above amounts were translated into New Taiwan dollars at the exchange rate of US\$1=NT\$30.28 and HK\$1=NT\$3.896 as of December 31, 2011.

Taiwan Mobile Co., Ltd. and Subsidiaries Consolidated Financial Statements for the Years Ended December 31, 2011 and 2010, and Independent Auditors' Report

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders Taiwan Mobile Co., Ltd.

We have audited the accompanying consolidated balance sheets of Taiwan Mobile Co., Ltd. (the "Corporation") and subsidiaries as of December 31, 2011 and 2010, and the related consolidated statements of income, changes in shareholders' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Taiwan Mobile Co., Ltd. and subsidiaries as of December 31, 2011 and 2010, and the consolidated results of its operations and its consolidated cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the Republic of China.

KPMG Taipei, Taiwan (the Republic of China) January 19, 2012

Notice to Readers

The accompanying consolidated financial statements are intended only to present the financial position, results of operations, and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

(Concluded)

TAIWAN MOBILE CO., LTD. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2011 AND 2010 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. ORGANIZATION AND OPERATIONS

Taiwan Mobile Co., Ltd. (the Corporation) was incorporated in the Republic of China (ROC) on February 25, 1997. The Corporation's shares began to be traded on the ROC Over-the-Counter Securities Exchange (known as the GreTai Securities Market) on September 19, 2000. On August 26, 2002, the Corporation's shares were listed on the Taiwan Stock Exchange. The Corporation mainly renders wireless communication services.

The Corporation's services are under the type I license issued by the Directorate General of Telecommunications (DGT) of the ROC. The license allows the Corporation to provide services for 15 years from 1997 onwards. The license had been extended to June 2017 by the notice issued by the Ministry of Transportation and Communications on November 25, 2010. It also entails the payment of an annual license fee consisting of 2% of total wireless communication service revenues. On March 24, 2005, the Corporation received the third generation (3G) concession operation license issued by the DGT. The 3G license allows the Corporation to provide services from the issuance date of the license to December 31, 2018.

As of December 31, 2011 and 2010, the Corporation and subsidiaries (hereinafter referred to as the "Group") had 6,055 and 4,498 employees, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The consolidated financial statements were compiled in accordance with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and Republic of China generally accepted accounting principles. In conformity with the above, the Group is required to make certain estimates and assumptions that could affect the amounts of allowance for doubtful accounts, provision for losses on decline in value of inventories, depreciation, pension, allowance for deferred income tax assets, bonus to employees, remuneration to directors and supervisors, impairment loss on assets, etc. Actual results may differ from these estimates.

The consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of, the English and Chinese language financial statements, the Chinese version shall prevail.

Consolidation

a. Basis of consolidation

The consolidated financial statements have been prepared in accordance with Statement of Financial Accounting Standards (SFAS) No. 7 " Consolidated Financial Statements" and include the financial statements of the Corporation, its direct and indirect subsidiaries with at least 50% shareholding, and other investees controlled by the Corporation. If the Corporation obtains the majority of the shareholders' equity of a subsidiary during the year, the Corporation starts to consolidate the related revenues and expenses of the subsidiary from the date of obtaining the controlling interest.

For foreign subsidiaries using their local currency as their functional currency, assets and liabilities are translated at exchange rates in effect on the balance sheet date; shareholders' equity accounts are translated using historical exchange rates, and income statement accounts are translated using average exchange rates during the period.

All significant intercompany balances and transactions have been eliminated upon consolidation.

b. Under the above basis of consolidation, the consolidated entities were as follows:

Note: Became a subsidiary of TCC, which purchased 100% of the shares of TT&T from TFN on May 14, 2010.

The Group's significant accounting policies are summarized as follows:

Classification of Current and Non-current Assets and Liabilities

Current assets include cash and cash equivalents, assets held for trading, and those expected to be converted to cash, sold or consumed within twelve months from the balance sheet date. Other assets such as property and equipment and intangible assets are classified as non-current. Current liabilities are obligations held for trading and those expected to be due within twelve months from the balance sheet date. All other liabilities are classified as non-current.

Cash Equivalents

Government bonds and short-term bills acquired with repurchase rights and having maturities of up to three months from the date of purchase are classified as cash equivalents, whose carrying value approximates fair value.

Financial Assets at Fair Value through Profit or Loss

Financial assets at fair value through profit or loss include financial assets or liabilities held for trading and those designated on initial recognition to be measured at fair value with fair value changes recognized in profit or loss. On initial recognition, the financial assets are recognized at fair value plus transaction costs and are subsequently measured at fair value with fair value changes recognized in profit or loss. The purchase or sale of the financial assets is recognized and derecognized using trade-date accounting.

The fair value of open-end mutual funds is based on the net asset value on the balance sheet date.

Available-for-sale Financial Assets

On initial recognition, available-for-sale financial assets are recognized at fair value plus transaction costs. When subsequently measured at fair value, the fair value changes are recognized directly in equity. The cumulative gain or loss that was recognized in equity is recognized in profit or loss when an available-for-sale financial asset is derecognized from the balance sheet. The purchase or sale of the financial instruments is recognized and derecognized using trade-date accounting.

Cash dividends are recognized as dividend income on the ex-dividend date, but are accounted for as reductions of the original cost of investments if such dividends are declared on the earnings of investees attributable to periods prior to the purchase of investments. Stock dividends are not recognized as current income but are accounted for only as an increase in the number of shares held. The cost per share is re-calculated based on the new number of shares.

An impairment loss is recognized if there is any objective evidence that a financial asset is impaired. If the amount of impairment loss decreases in the subsequent period, such decrease is recognized in equity.

The fair value of listed stocks is based on the closing price on the balance sheet date.

Receivables

The Group accesses evidence for impairment of receivables on an individual and collective basis. Accordingly, all individually significant receivables are assessed for specific impairment. The Group receivables that are not individually significant in accordance with credit risks and considers the historical trends of the probability of default, the timing of recoveries, and the amount of loss incurred to make the estimate of impairment.

Inventories

Inventories are recorded at the lower of weighted-average cost or net realizable value. When comparing cost and net realizable value, inventories are evaluated by individual item.

Investments Accounted for Using the Equity Method

Long-term investments in which the Group owns 20% or more of an investee's outstanding voting shares or exercises significant influence on an investee are accounted for under the equity method.

In accordance with a newly revised Statement of Financial Accounting Standards (SFAS), the cost of acquisition is subjected to an initial analysis, and goodwill represents the excess of the cost of acquisition over the fair value of the identifiable net asset value. Goodwill is no longer amortized. If the fair value of identifiable net assets acquired exceeds the cost of investments, the excess should be assigned to non-current assets (except for financial assets not under the equity method, assets for disposal, deferred income tax assets, and prepaid pension costs or other retirement benefit costs). If these assets are all reduced to zero, the remaining excess should be recognized as extraordinary gain. Starting January 1, 2006, the unamortized balance of the excess of the acquisition cost of the long-term investment under the equity method over the equity in the investee's net asset value is no longer amortized, and this accounting treatment also applies to goodwill.

The cost and the resulting gain or loss on an investment sold is determined by the weighted-average-cost method.

Financial Assets Carried at Cost

If there is no active market for an equity instrument and a reliable fair value cannot be estimated, the equity instrument, including non-publicly traded and emerging stocks, etc., is measured at cost. The accounting for the dividends from financial assets carried at cost is the same as that for an available-for-sale financial asset. Impairment losses are recognized if a decrease in the fair value of the instruments can be objectively related to an event. Reversal of impairment losses is not allowed.

Bonds Measured at Amortized Cost

Bond portfolios with fixed or determinable payments and with no quoted prices in an active market are carried at amortized cost using the effective interest method. These bond portfolios are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition or the issuance of the financial assets. Profit or loss is recognized at the time of derecognition, impairment or amortization. A regular purchase or sale of financial assets is recognized and de-recognized using trade-date accounting.

If there is any objective evidence of impairment loss as of the balance sheet date, impairment loss should be recognized. If the impairment loss decreases, and the decrease can be related objectively to an event occurring after impairment loss recognition, the impairment loss should be reversed. However, the increased carrying value of an asset due to impairment loss reversal should not exceed the carrying value that would have been determined (net of amortization) had no impairment loss been recognized for the asset in prior years.

Property and Equipment, and Assets Leased to Others

Property and equipment, and assets leased to others are stated at cost less accumulated depreciation and accumulated impairment. Significant additions, renewals, betterments and interest expenses incurred during the construction period are capitalized, while maintenance and repairs are expensed. Leased property and equipment from others covered by agreements qualifying as capital leases are carried at the lower of the present value of future minimum lease payments or the market value of the property on the starting dates of the leases.

For cost associated with dismantling and relocating fixed assets and restoring the leased premises housing fixed assets to the previous state should be recognized as an addition to the fixed assets and accrued as a potential liability accordingly.

Depreciation is calculated using the straight-line method over the estimated service lives, which range as follows: buildings - 20 to 55 years; telecommunication equipment - 2 to 15 years; office equipment - 3 to 8 years; leased assets - 20 years; and miscellaneous equipment - 3 to 9 years.

Upon sale or retirement of property and equipment, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss is credited or charged to non-operating gain or loss in the period of disposal.

Accounting for Leases

In accordance with SFAS No. 2 " Leases," a lease is identified as either an operating lease or a capital lease, based on the lease contract terms, the collectability of the rent, and the un-reimbursable costs to be incurred by the lessor.

The asset held under an operating lease is stated at cost and depreciated on a straight-line basis over the estimated useful life. Receivables collected are periodically recognized as rental income during the lease contract.

At the inception date of a capital lease, total rental receivables shall be recognized as all rental receivables plus the pre-determined bargain purchase price offered to the lessee upon maturity or estimated residual value. For a sales-type capital lease, sales revenue should be recognized as the sum of present values derived from all future rental receivables based on an implicit interest rate of the lease. The excess of total rental receivables over sales revenue should be deferred as unrealized interest income and amortized as interest income by the effective interest method upon each collection. For a financing-type of capital lease, rental receivables based on an implicit interest rate of the lease. The excess of total rental receivables over the present value of rental receivables should be deferred as the sum of present values derived from all future rental receivables based on an implicit interest rate of the lease. The excess of total rental receivables over the present value of rental receivables should be deferred as unrealized interest income and amortized as interest income by the effective interest rate of the lease. The excess of total rental receivables over the present value of rental receivables should be deferred as unrealized interest income and amortized as interest income by the effective interest method upon each collection.

Intangible Assets

a. Franchise

Franchise refers to the payment for the 3G mobile telecommunication services - License C. The 3G concession is recorded at acquisition cost and is amortized by the straight-line method over 13 years and 9 months starting from the launch of 3G services.

b. Computer software

Computer software cost is amortized by the straight-line method over 3 to 5 years.

c. Goodwill

Goodwill is the unidentifiable difference between the cost of acquisition and the equity in the investee's net asset value. In accordance with the newly revised SFAS, goodwill is no longer amortized. Please refer to the accounting policy for investments accounted for by the equity method.

d. Customer relationship, trademarks and operating rights

The customer relationship, trademarks and operating rights shall be identified when analyzing the excess of acquisition cost over the ownership in net asset value of an investee, and be booked at fair value provided by the purchase price allocation report.

Customer relationship, trademarks and operating rights are measured on the basis of the future economic value and the useful life of the subsidiaries' retailing channel, cable TV and data network businesses. Customer relationship is amortized by straight-line method over 6 to 20 years. Trademarks and operating rights are based on a license about trademark registration and cable TV. Although the license has a statutory period, the subsidiary can apply for license renewal. Therefore, it does not have a definite useful life in the light of future operation. Thus, this intangible asset should be tested annually for impairment instead of being amortized in accordance with SFAS No. 37 "Intangible Assets". An impairment test is also required if there is evidence of trademarks and operating rights impairment due to certain circumstances.

Idle Assets

Properties not currently used in operations are stated at the lower of book value or net realizable value, with the difference charged to current loss. Depreciation expense is computed using the straight-line method over the estimated useful lives of the assets.

Deferred Charges

Deferred charges, mainly interior decoration costs for offices and directly-managed stores and capitalization for significant repairs, are amortized by the straight-line method over 1 to 6 years.

Asset Impairment

If the carrying value of an asset (including property and equipment, intangible assets, idle assets, assets leased to others, investments accounted for using the equity method, and deferred charges) is more than its recoverable amount, which indicates that an impairment exists, an impairment loss should be recognized. Any subsequent reversal of the impairment loss for the increase in recoverable amount is recognized as income, nevertheless, the carrying value after the reversal shall not exceed the carrying value that would have been determined (net of depreciation) had no impairment loss been recognized for the asset in prior years. The reversal of impairment loss on goodwill is not allowed.

Pension Costs

The pension costs under the defined benefit pension plan are recognized on the basis of actuarial calculations. The contribution amounts of the pension costs under the defined contribution pension plan are recognized as current expenses during the employees' service years.

Income Taxes

The inter-period and intra-period allocation methods are used for income taxes. Deferred income tax assets and liabilities are recognized for the tax effects of temporary differences, unused tax credits, and net operating loss carryforwards. A valuation allowance is provided for deferred income tax assets to the extent that it is more likely than not such assets will not be realized. Deferred tax assets or liabilities are classified as current or non-current according to the classification of related assets or liabilities for financial reporting. However, if deferred tax assets or liabilities in the financial statements, they are classified as current or non-current on the basis of the expected length of time before being realized.

Tax credits for certain purchases of equipment and technology, research and development expenditures, and personnel training expenditures are recognized by the flow-through method.

Adjustments to prior years' tax liabilities are added to or deducted from the current year's tax expense.

Income tax of 10% on unappropriated earnings generated is provided for as income tax in the year when the shareholders resolve to retain the earnings.

Treasury Stock

The purchase of issued shares is accounted for by debiting treasury stock, which is a reduction of shareholders' equity. The Corporation's shares held by its subsidiaries are treated as treasury stock and reclassified from investments accounted for using the equity method to treasury stock.

If the proceeds on the disposal of treasury stock exceed the carrying value of treasury stock, the excess is credited to capital surplus from treasury stock. If the proceeds are less than the carrying value of treasury stock, the difference is debited to capital surplus from treasury stock. If the balance of capital surplus from treasury stock is not sufficient to absorb the difference, the rest is recorded as a reduction of retained earnings.

Foreign-currency Transactions

Assets, liabilities, revenues or expenses denominated in foreign currencies as a result of foreign-currency transactions involving non-derivative financial instruments are recorded in New Taiwan dollars at the exchange rates prevailing at the dates of transactions.

Monetary assets or liabilities denominated in foreign currencies are translated at the exchange rates prevailing on the balance sheet date, and the resulting exchange differences are included in profit or loss for the current period.

Non-monetary assets or liabilities carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the balance sheet date when the fair value was determined, and the resulting exchange differences are included in profit or loss for the current period except for the differences arising from the retranslation of non-monetary assets and liabilities in respect of which gains and losses are recognized directly in equity. For such non-monetary assets and liabilities, any exchange component of that gain or loss is also recognized directly in equity. Non-monetary assets or liabilities carried at cost that are denominated in foreign currencies are translated at the historical rates prevailing at the dates of transactions.

The above prevailing exchange rates are based on the average of bid and ask rates of major banks.

Revenue Recognition

Revenues are recognized when the service rendering process is completed or virtually completed, and earnings are realizable and measurable. Related costs of providing services are concurrently recognized as incurred.

Service revenues from wireless services, value-added services, and fixed network services, net of any applicable discount, are billed at predetermined rates; the fixed monthly fees on the basic cable TV services are accrued; prepaid card services are recognized on the basis of minutes of usage.

Promotion Expenses

Commissions and cellular phone subsidy costs pertaining to the Corporation's promotions are recognized as marketing expenses on an accrual basis in the current period.

3. EFFECTS OF CHANGES IN ACCOUNTING PRINCIPLES

Effective from January 1, 2011, the Group adopted SFAS No. 41 "Operating Segments." In accordance with SFAS No. 41, an entity should disclose information to enable users of its financial statements to evaluate the nature and the financial effects of the business activities in which it engages and the economic environments in which it operates. The Group determines and presents operating segments based on the information that is internally provided to the chief operating decision maker. In addition, the segment information should be disclosed in the consolidated financial reports issued by the Corporation, but it does not need to be disclosed in individual financial reports. The Standard also supersedes SFAS No. 20 "Segment Reporting". The information for the period ended December 31, 2010 has been recast to reflect the new segment reporting requirement. There was no impact on the profit or loss for the year ended December 31, 2011.

Effective from January 1, 2011, the Group adopted the third amended SFAS No. 34 "Financial Instruments: Recognition and Measurement". In accordance with the revised SFAS No. 34, initial receivables are used in the recognition, valuation, and impairment of receivables. There was no impact on the profit or loss for the year ended December 31, 2011.

4. SUMMARY OF MAJOR ACCOUNTS

a. Cash and cash equivalents

| | | | % of | | % of | |
| | (| Carrying | Owner- | Carrying | Owner- | |
| | | Value | ship | Value | ship | |
| Taipei New Horizons Co., Ltd. (TNH) | \$ | 562,812 | 49.90 | 388,002 | 49.90 | |

(1) Taipei New Horizons Co., Ltd. (TNH)

TNH was established to invest in a property development project located on the old Songshan Tobacco Factory site. On January 15, 2009, TNH signed a 50-year BOT contract with the Taipei City Government.

On January 25, 2010, TNH's board of directors resolved to increase TNH's capital by \$500,000 thousand, divided into 50,000 thousand shares with par value of \$10 per share, with a record date of December 1, 2010. On November 19, 2010, TNH's board of directors resolved to adjust the above-mentioned TNH's capital by \$400,000 thousand, divided into 40,000 thousand shares with par value of \$10 per share. The Corporation subscribed for the shares based on its proportion of the shareholding.

On June 2, 2011, TNH's board of directors resolved to increase TNH's capital by \$400,000 thousand, divided into 40,000 thousand shares with par value of \$10 per share, with a record date of August 1, 2011. The Corporation subscribed for the shares based on its proportion of the shareholding, which remains at 49.9%.

(2) Taiwan Kuro Times Co., Ltd. (TKT)

A subsidiary of the Corporation, TFNM, acquired 45% of TKT's shares in May, 2010. On September 1, 2010, it acquired additional shares of TKT giving it more than 50% ownership, and thus it had control over TKT. The Corporation recognized investment loss on its investment in TKT and TKT's subsidiaries of \$2,196 thousand from May 2 to August 31, 2010.

(3) Equity in investees' losses

The carrying value of the investment under the equity method and the related investment losses were determined on the basis of audited financial statements.

The Corporation's investment losses were as follows:

| | <u> </u> | ears ended De | cember 31 |
|----|----------|---------------|-----------|
| | | 2011 | 2010 |
| NH | \$ | 24,790 | 23,572 |
| | | - | 2,196 |
| | \$ | 24,790 | 25,768 |

g. Financial assets carried at cost – non-current

| | December 31 | | | |
|------------------------------------|-------------|-----------|-----------|--|
| | | 2011 | 2010 | |
| Domestic emerging stocks | | | | |
| Taiwan High Speed Rail Corporation | \$ | 912,463 | 2,120,829 | |
| Domestic unlisted stocks | | | | |
| Arcoa Communication Co., Ltd. | | 67,731 | 67,731 | |
| Great Taipei Broadband Co., Ltd. | | 41,241 | 42,845 | |
| Parawin Venture Capital Corp. | | 20,207 | 20,207 | |
| WEB Point Co., Ltd. | | 6,773 | 6,773 | |
| Foreign unlisted stocks | | | | |
| Bridge Mobile Pte Ltd. | | 50,324 | 50,324 | |
| | \$ | 1,098,739 | 2,308,709 | |

Because there is no active market quotation and a reliable fair value cannot be estimated, the above investments are measured at cost. An impairment loss of \$1,209,970 thousand and \$3,229 thousand was recognized for the year ended December 31, 2011 and 2010, respectively.

In August, 2010, TFN, a subsidiary of the Corporation, sold its stock of New Century Information Tech. Co., Ltd. for \$238,541 thousand. The book value of the stock was \$187,042 thousand, and the gain on disposal of investments was \$51,499 thousand.

h. Bonds measured at amortized cost-non-current

(1) Customer relationship, trademarks and operating rights

Under SFAS No. 25 "Business Combinations" and No. 37 "Intangible Assets," the Group should measure the fair value of the acquired assets and identify major intangible assets as well as the amortization periods.

- (a) On April 17, 2007, TFN, the Corporation's 100%-owned subsidiary, acquired more than 50% of the former TFN through a public tender offer. The Corporation divided the former TFN and its subsidiaries into two cash-generating units: fixed network service and cable television business. Accordingly, customer relationship and operating rights are identified as major intangible assets.
- (b) Taiwan United Communication Co., Ltd. (TUC) was established on April 14, 2007, and was merged into TFN on January 1, 2008. In September 2007, TUC, the Corporation's 100%-owned subsidiary, acquired more than 50% of Taiwan Telecommunication Network Services Co., Ltd. (TTN) shares. TTN was merged into TFN on August 1, 2008. The Corporation measured the fair value of the acquired assets and viewed TTN's ISP services as one cash-generating unit. Accordingly, customer relationship is identified as a major intangible asset.
- (c) On September 1, 2010, TFNM, the Corporation's 100%-owned subsidiary, acquired 55% of TKT. On August 12, 2011, TFNM acquired 45% of TKT. The Corporation measured the fair value of the acquired assets and viewed TKT's wireless services as one cash-generating unit. Accordingly, trademarks and customer relationship are identified as major intangible assets.

(d) On July 13, 2011, WMT, the Corporation's 100%-owned subsidiary, acquired more than 50% of the FMT. The Corporation measured the fair value of the acquired assets and viewed FMT's retailing as one cash-generating unit. Accordingly, trademarks are identified as major intangible assets.

(2) Goodwill

In conformity with SFAS No. 35 "Impairment of Assets," the Group identified the smallest identifiable group of cash-generating units by year and entity as follows:

The Group's members, which were engaged in mobile or wireless phone services, fixed network services, cable television business and the retail business, were viewed as separate, independent cash-generating units. Thus, the recoverable amounts of the operating assets and goodwill were evaluated by business type, and the critical assumptions used for this evaluation were as follows:

(a) Wireless service

(i) Assumptions on operating revenues

After taking changes in the telecom industry and competitive landscape into consideration, operating revenues were estimated on the basis of the projected changes in subscriber numbers, minutes of incoming and outgoing calls, and average revenue per minute.

(ii) Assumptions on operating costs and expenses

The estimates of activation commissions and customer retention costs were based on the new customer obtained and existing customer maintained. The estimates of remaining costs and expenses were base on the cost drivers of each item.

(iii) Assumptions on discount rate

In 2011 and 2010, the discount rate used to calculate the asset recoverable amounts of the Corporation was 6.98% and 7.47%, respectively.

- (b) Fixed network service
 - (i) Assumptions on operating revenues

After taking into consideration the changes in the telecom industry and the company's growth of operation, the operating revenues were estimated basing on the demand of the types of data transmission and broadband volume.

(ii) Assumptions on operating costs and expenses

The costs and expenses were based on the cost drivers of each item.

(iii) Assumptions on discount rate

In 2011 and 2010, the discount rates were 7.22% and 7.54%, respectively, in calculating the asset recoverable amounts of TFN.

- (c) Cable television business
 - (i) Assumptions on operating revenues

After taking changes in the cable television industry and competitive landscape into consideration, operating revenues were estimated on the basis of the projected changes in subscriber numbers and average revenue per subscriber.

(ii) Assumptions on operating costs and expenses

The estimates of commissions, customer service costs, and bill processing costs were based on the projected changes in subscriber numbers. The estimates of remaining costs and expenses were based on the proportion of the actual costs and expenses to operating revenues.

(iii) Assumptions on discount rate

The discount rates used to calculate the asset recoverable amounts for each system operator ranged from 8.2% to 8.5% and from 3.70% to 8.00% in 2011 and 2010, respectively.

- (d) Retail business
 - (i) Assumptions on operating revenues

After taking into consideration the changes in the retail business industry and competitiveness of the market, the operating revenues were estimated basing on the classification and the average price of commodities, and the degree of the contribution of the customers.

(ii) Assumptions on operating costs and expenses

The costs and expenses were based on the proportion of the actual costs and expenses of the operating revenues.

(iii) Assumptions on discount rate

In 2011, the discount rate used to calculate the asset recoverable amounts of the Corporation was 10.72%.

Based on the key assumptions of each cash-generating unit, the Group's management believes that the carrying amounts of these operating assets and goodwill will not exceed their recoverable amounts even if there are changes in the critical assumptions used to estimate recoverable amounts as long as these changes are reasonable for the years ended December 31, 2011 and 2010.

n. Advance receipts

In accordance with NCC's policy, the Corporation entered into a contract with First Commercial Bank Co., Ltd., which provided a performance guarantee for advance receipts from prepaid card customers. The guaranteed advance receipts from prepaid card customers were \$938,905 thousand as of December 31, 2011.

In accordance with NCC's policy, cable television companies should provide a performance deposit based on a certain proportion of the advance receipts for a prepaid period. As of December 31, 2011, the cable television companies had received an advance fee of NT\$455,005 thousand and provided \$56,152 thousand as performance deposit, which is classified as restricted asset.

o. Bonds payable

| | December 31 | | | |
|------------------------------|--------------|-------------|---------|-------------|
| | 2011 | | 2010 | |
| | Current | Non-current | Current | Non-current |
| 2nd Domestic unsecured bonds | \$ 4,000,000 | 4,000,000 | - | 8,000,000 |

On November 14, 2008, the Corporation issued \$8,000,000 thousand of five-year 2nd domestic unsecured bonds, each having a face value of \$10,000 thousand and a coupon rate of 2.88% per annum, with simple interest due annually. Repayment will be made in the fourth and fifth year with equal installments, i.e., \$4,000,000 thousand.

Future repayments of the above-mentioned corporate bonds are as follows:

| Year | Amount | |
|------|-----------------|--|
| 2012 | \$ 4,000,000 | |
| 2013 | 4,000,000 | |
| | \$ 8,000,000 | |

p. Long-term borrowings

| | December 31 | | |
|-----------------|-------------|-----------|--|
| | 2011 | 2010 | |
| Unsecured loans | <u>\$</u> - | 2,300,000 | |
| Interest rate | | 0.8832% | |

To provide medium-term working capital, the Corporation and its subsidiary, TFN, entered into a syndicated loan with a joint credit line of \$13,500,000 thousand with 9 banks led by Chinatrust Commercial Bank on February 21, 2008. This joint credit facility covers a period of three years commencing from May 20, 2008. Based on the terms of this agreement, the credit line will be decreased by 50% after two years from the commencing date. As of May 20, 2010, the credit line has been reduced to \$6,750,000 thousand. Also, interests are payable monthly. Upon maturity, the loan is allowed to revolve within its credit limits. The contract requires the Corporation to maintain certain financial ratios including debt ratios, interest coverage, and tangible net asset ratio based on semi-annual financials.

q. Pension plan

The Labor Pension Act (LPA) provides for a defined contribution pension plan. Starting from July 1, 2005, the Group should contribute monthly an amount equal to 6% of the employees' monthly salaries to the employees' individual pension accounts. The contributed amount was \$217,419 thousand and \$169,458 thousand for the year ended December 31, 2011 and 2010, respectively.

The Labor Standards Act (LSA) provides for a defined benefit pension plan. Benefits are based on the length of service and average basic pay of the six months before retirement. The Group contributes monthly an amount equal to 2% of the employees' monthly salaries to a pension fund. The pension fund is managed by an independently administered pension fund committee and deposited in the committee's name in Bank of Taiwan (formerly the Central Trust of China, which was merged into Bank of Taiwan in July 2007). As approved by the Department of Labor of the Taipei City Government, the Group suspended contributing from February 2007 to January 2012.

Information on the defined benefit pension plan is summarized as follows:

(1) Pension cost

| | Years ended December 31 | | | |
|------------------------------------|-------------------------|----------|----------|--|
| | 2011 | | 2010 | |
| Service cost | \$ | 3,346 | 4,128 | |

| Expected rate of return on plan assets | 2.00% | 2.00% | |

r. Shareholders' equity

(1) Capital surplus

Under the Company Act, capital surplus may only be used to offset a deficit. However, capital surplus, generated from the excess of the issue price over the par value of capital stock, including the stock issued for new capital and the buyback of stock and cash, may be transferred to capital as stock dividends or distributed as cash dividends, and this transfer is restricted to a certain percentage of the paid-in capital and may be made only within prescribed limits each time. Also, the capital surplus from long-term investments may not be used for any other purposes.

(2) Legal reserve

According to the Company Act, a company shall first set aside ten percent of its income (after taxes) as legal reserve until it equals to the paid-in capital. After offsetting any deficit, the legal reserve may be transferred to capital as stock dividends or distributed as cash dividends within the amount in excess of 25% of the paid-in capital in pursuant to the resolution to be adopted by the shareholders' meeting.

(3) Appropriation of earnings and dividend policy

The Corporation's articles of incorporation provide that a 10% legal reserve should be set aside from the annual net income after the reduction of accumulated deficit. The remainder, less special reserve based on relevant laws or regulations or business requirements, should be distributed as follows:

- (a) Dividends and bonus to preferred shareholders
- (b) Remuneration to directors and supervisors up to 0.3%
- (c) Bonus to employees 1% to 3%
- (d) Remainder, to be appropriated as dividends as determined in the shareholders' meeting

The Corporation's dividend distribution is based on the availability of excess funds. That is, the Corporation first projects future capital needs through a capital budgeting process and then provides for the projected capital needs by using retained earnings. The remainder is available for dividend distribution. However, the amount of stock dividends should not be more than 80% of the total dividends to be distributed in a single year. The final amount, type and percentage of the dividends are subject to the approval of the board of directors and shareholders based on actual earnings and working capital requirements of the Corporation in a particular year.

A regulation issued by the Securities and Futures Bureau requires a special reserve be made from the unappropriated earnings, equivalent to the debit balance of any account shown in shareholders' equity. The special reserve appropriated will be reversed to the extent that the net debit balance reverses.

The appropriation of earnings should be resolved by the shareholders in the following year and given effect in the financial statements of that year.

Under the Integrated Income Tax System, ROC resident shareholders are allowed a tax credit for the income tax paid by the Corporation. An imputation credit account (ICA) is maintained by the Corporation for such income tax and the tax credit allocated to each shareholder.

For the year ended December 31, 2011, the bonuses to employees and remuneration to directors and supervisors were accrued based on 3% and 0.3%, respectively, of net income (not including the bonus to employees and remuneration to directors and supervisors) after setting aside 10% of net income as legal reserve. The significant difference between annual accruals and the amount approved by the board of directors shall be adjusted in the current year. If the board of directors' approval differs from the amount ratified at the annual general shareholders' meeting (AGM), the difference will be treated as changes in accounting estimation and will be adjusted in 2012's P&L. If employee bonuses are paid in the form of company shares, the number of employee bonus shares shall be derived from dividing the approved bonus amount by the closing price one day prior to the AGM, adjusted for cash and/or stock dividends if any.

The 2010 and 2009 earnings appropriations resolved by the AGMs on June 15, 2011, and June 18, 2010, were as follows:

| | Appropriation of Earnings | | Dividend per Share (NT\$) | | |
|--------------------------------|---------------------------|------------|----------------------------------|------------|------------|
| | F | or Fiscal | For Fiscal | For Fiscal | For Fiscal |
| | Y | ear 2010 | Year 2009 | Year 2010 | Year 2009 |
| Appropriation of legal reserve | \$ | 1,382,219 | 1,388,886 | | |
| Cash dividends | | 12,439,967 | 15,028,235 | 4.16190 | 5.02783 |
| Reversal of special reserve | | - | (2,528,259) | | |
| | \$ | 13,822,186 | 13,888,862 | | |

The shareholders, on June 15, 2011, resolved to distribute a 2010 bonus of \$373,059 thousand to employees and remuneration of \$37,306 thousand to directors and supervisors.

The shareholders, on June 18, 2010, resolved to distribute a 2009 bonus of \$374,826 thousand to employees and remuneration of \$37,483 thousand to directors and supervisors.

Information on the appropriation of the earnings, bonus to employees, and remuneration to directors and supervisors proposed by the board of directors and approved at the AGM is available on the Market Observation Post System website of the Taiwan Stock Exchange.

(4) Capital reduction by cash

To increase ROE (Return of Equity) and maintain stable EPS (Earnings Per Share) and dividend, the Corporation's AGM resolved on June 15, 2011 a capital reduction of \$3,800,926 thousand, representing 10% of outstanding shares. On July 15, 2011, the authority already approved the application and the Corporation's board of directors resolved the record date of August 1, 2011. Trading suspension started on October 3, 2011 and the new shares resumed trading on October 13, 2011.

(5) Treasury stock

| | | | (Shares) | in Thousands) |
|------------------------------|-----------|----------|----------|---------------|
| | Beginning | | | Ending |
| Purpose of Buyback | Shares | Increase | Decrease | Shares |
| Year ended December 31, 2011 | | | | |
| Shares held by subsidiaries | 811,918 | - | 81,192 | 730,726 |
| Year ended December 31, 2010 | | | | |
| Shares held by subsidiaries | 811,918 | - | - | 811,918 |

(0)

•

As of December 31, 2011, the Corporation's stock held by TCCI, TID, and TUI (all are subsidiaries 100% owned by the Corporation) was 730,726 thousand shares and the carrying and market values were \$68,980,520 thousand. The Corporation reclassified \$31,077,183 thousand from investments accounted for using the equity method to treasury stock based on SFAS No. 30 "Accounting for Treasury Stock." Although these shares are treated as treasury stock in the financial statements, the shareholders are entitled to excise their rights over these shares, except for the participation in capital injection by cash. In addition, based on the ROC Company Act, the holders of treasury stock cannot exercise the voting rights.

(6) Unrealized gain or loss on financial instruments

Unrealized gain or loss on financial instruments for the years ended December 31, 2011 and 2010, is summarized as follows:

| | Years ended De | cember 31 |
|--|--------------------|-----------|
| | 2011 | 2010 |
| Available-for-sale financial assets | | |
| Balance, beginning of period | \$ 89,842 | 63,624 |
| Fair value changes recognized directly in equity | 21,464 | 26,218 |
| Unrealized gains on financial instruments | \$ 111,306 | 89,842 |

s. Income tax expense

(1) The reconciliation of imputed income taxes on pretax income at the statutory tax rate to income tax expense was as follows:

| | Years ended Dec | ember 31 |
|--|-----------------|-------------|
| | 2011 | 2010 |
| Tax on pretax income at statutory tax rate | \$ 4,526,503 | 4,572,139 |
| Add (deduct) tax effects of: | | |
| Permanent differences | | |
| Investment income from domestic investees | | |
| accounted for using the equity method | (1,747,968) | (1,634,184) |
| Other | 200,974 | 1,211 |
| Temporary differences | (421,760) | (211,872) |
| Prior years' adjustment | (470,963) | 69,702 |
| Deferred income taxes | 436,627 | 542,908 |
| Prior years' loss carryforward | (13,771) | (13,427) |
| Investment tax credits | (7,253) | (42,933) |
| Income tax expense | \$ 2,502,389 | 3,283,544 |

On May 27, 2009, the Legislative Yuan passed an amendment of Article 5 of the Income Tax Act, which reduced a profit-seeking enterprise's income tax rate from 25% to 20%, effective January 1, 2010. On June 15, 2010, the Legislative Yuan passed an amendment of Article 5 of the Income Tax Act to reduce the corporate statutory income tax rate from 20% to 17%, effective January 1, 2010. The Group recalculated its deferred tax assets and liabilities in accordance with the amended Article and recorded the resulting difference as an income tax expense.

(2) Deferred income tax assets (liabilities) were as follows:

| | December 31 | | | |
|---|-------------|-----------|-----------|--|
| | | 2011 | 2010 | |
| Unrealized loss on retirement of property and equipment | \$ | 846,775 | 1,093,815 | |

| | |

The Corporation's income tax returns for the years up to 2009 had been examined by the tax authorities, except for 2006 and 2008. The Corporation disagreed with the examination results of the income tax returns for 2009 and requested a reexamination.

TAT's income tax returns up to 2007 had been examined by the tax authorities. TAT disagreed with the examination results of the income tax returns for 2006 and 2007 and had filed an appeal.

The former TAT's income tax returns up to 2006 had been examined by the tax authorities. The former TAT had filed for corrections of its 2002 through 2004 income tax returns.

Mobitai's income tax returns up to 2006 had been examined by the tax authorities. Mobitai disagreed with the examination results of the income tax return for 2006 and requested a reexamination.

The former TFN's income tax returns up to 2007 had been examined by the tax authorities. The former TFN disagreed with the examination results of the income tax returns and had requested a correction of the 2007 income tax return.

TFN's income tax returns up to 2009 had been examined by the tax authorities. TFN disagreed with the examination results of the income tax return for 2008 and 2009 and requested a reexamination.

TFNM's income tax returns up to 2009 had been examined by the tax authorities, except for 2008. TFNM disagreed with the examination results of the income tax returns and requested an appeal for 2006 and requested a reexamination for 2007 and 2009.

YJCTV's income tax returns up to 2009 had been examined by the tax authorities. YJCTV disagreed with the examination results of the income tax return for 2009 and requested a reexamination.

GCTV's 2009 income tax returns had been examined by the tax authorities but it disagreed with the examination results, and plans to apply for a reexamination.

| Diluted EPS | | | | | | | | | |
| Income of common shareholders with | | | | | | | | | |
| dilutive effect of potential common shares | \$ | 16,398,144 | 13,822,186 | 2,997,242 | \$ | 5.47 | \$ | | 4.61 |

The Accounting Research and Development Foundation (ARDF) issued Interpretation No. 2007-052, which requires companies to recognize bonuses paid to employees, and remuneration to directors and supervisors as compensation expenses beginning January 1, 2008. These bonuses and remuneration were previously recorded as appropriations from earnings. If the Corporation may settle the bonus to employees by cash or shares, the Corporation should presume that the entire amount of the bonus will be settled in shares, and the potential share dilution should be included in the weighted-average number of shares outstanding used in the calculation of diluted EPS, if the shares have a dilutive effect. In the calculation of diluted EPS, the number of outstanding shares is derived from dividing the entire amount of the bonus by the closing price of the shares at the balance sheet date. Such potential dilutive effect should be taken into consideration in the calculation of diluted EPS until the shareholders resolve the actual number of shares to be distributed to employees at the AGM of the following year.

u. Financial instrument transactions

| Notes payable | | 641,166 | 641,166 | 232,299 | 232,299 | | |
| Accounts payable (including related parties) | | 5,703,352 | 5,703,352 | 3,423,611 | 3,423,611 | | |
| Income taxes payable | | 1,331,623 | 1,331,623 | 1,387,348 | 1,387,348 | | |
| Accrued expenses | | 6,132,359 | 6,132,359 | 5,564,242 | 5,564,242 | | |
| Other payables | | 3,594,997 | 3,594,997 | 5,001,640 | 5,001,640 | | |
| Guarantee deposits (including current | | | | | | | |
| portion) | | 594,293 | 594,293 | 379,866 | 379,866 | | |
| Bonds payable | | 8,000,000 | 8,192,952 | 8,000,000 | 8,264,392 | | |
| Long-term borrowings | | - | - | 2,300,000 | 2,300,000 | | |
| | | | | | | | |

- (2) The methods and significant assumptions applied for determining fair values of financial instruments were as follows:
 - (a) Financial assets at fair value through profit or loss-current and available-for-sale financial assets-current—based on quoted prices in an active market at the balance sheet date
 - (b) Financial assets carried at cost—non-current and bonds measured at amortized cost—non-current—based on the net worth of the investee or estimated book value; this is because there is no active market for unlisted stocks, and a reliable fair value could only be verified at a more than reasonable cost
 - (c) Bonds payable based on the over-the-counter quotations in December

- (d) Long-term borrowings based on the present value of expected future cash flows discounted by the interest rates that the Corporation may obtain for similar loans
- (e) The book values of short-term financial instruments approximate their fair value due to their short maturities; short-term financial instruments include cash and cash equivalents, receivables, pledged time deposits, refundable deposits, short-term borrowings, short-term notes and bills payable, notes payable, payables, and guarantee deposits
- (3) The fair values of financial assets and liabilities were not simultaneously determined by quoted prices in active markets and by estimations using a valuation technique.
- (4) The financial assets exposed to fair value interest rate risk amounted to \$2,861,092 thousand and \$5,320,362 thousand as of December 31, 2011 and 2010, respectively, and the financial liabilities exposed to fair value interest rate risk amounted to \$17,899,273 thousand and \$13,999,732 thousand as of December 31, 2011 and 2010, respectively. The financial assets exposed to cash flow interest rate risk amounted to \$3,812,744 thousand and \$733,290 thousand as of December 31, 2011 and 2010, respectively, and the financial liabilities exposed to cash flow interest rate risk amounted to zero and 3,000 thousand as of December 31, 2011 and 2010, respectively.
- (5) Information on financial risks
 - (a) Market risk

The Group did not enter into any financial derivative transactions which would cause significant exposure to exchange rate and interest rate risks.

(b) Credit risk

Credit risk represents the potential impacts on financial assets that the Group might encounter if counter-parties or third parties breach the contracts. Factors that affect the impacts include credit risk concentration, components of financial instruments, contract amount, and other receivables. The Group's evaluation of credit risk exposure as of December 31, 2011 and 2010, was zero because all counter-parties were reputable financial institutions with good credit ratings.

The Group's maximum credit risk exposure for each financial instrument is the same as its carrying value.

The credit risk amount listed above is an evaluation of the contracts with positive fair value at the balance sheet date and the contracts with off-balance-sheet commitments and guarantees. Significant concentration of credit risk exists when financial instrument transactions significantly concentrate on one counter-party, or when there are a number of counter-parties in financial instrument transactions, but these counter-parties are engaged in similar business activities and have similar economic characteristics so that their abilities to perform contractual obligations would be concurrently affected by similar economic changes or other situations. The characteristics of credit risk concentration include the nature of the debtors' operating activities. The Group does not rely significantly on a single client or counter-party or clients in the same region.

(c) Liquidity risk

The Group's operating funds are deemed sufficient to meet the cash flow demand; therefore, liquidity risk is not considered to be significant.

5. RELATED-PARTY TRANSACTIONS

b. Under the order No. 0990004943 issued by Financial Supervisory Commission Executive Yuan on February 2, 2010, starting 2013, the Corporation is required to prepare the financial report in conformity with the International Financial Reporting Standards (IFRSs), Standing Interpretations Committee (which is the predecessor of IFRIC), and the International Financial Reporting Interpretations Committee accepted by the Financial Supervisory Commission. To assist the adjustment, the Corporation had established an ad hoc group which is in charged with developing the plan for adopting IFRSs that is being led by the supervisor of Finance Group. The content of the plan, expected completion date, and implementation situation are listed in the table below.

| | | Implementation |
|---|-----------------------|----------------|
| Content of the plan | Implementation Units | Situation |
| (a) Assessment Stage | | |
| -Educated employee about financial accounting standards | Accounting Division | Completed |
| -Established the plan on adopting IFRSs and ad hoc group | Accounting Division | Completed |
| -Compared and analyzed differences between IFRSs and current financial accounting standards | Accounting Division | Completed |
| -Adjustment for current financial accounting standards | Accounting Division | Completed |
| -Evaluated applicability of First-time Adoption of IFRSs | Accounting Division | Completed |
| -Evaluated adjustment for information system and internal | Finance Group, | |
| control | Business Groups, | Completed |
| | Information Group, | Completed |
| | Internal Audit Office | |
| (b) Preparation Stage | | |
| -Decided how to adjust current accounting policy in conformity with IFRSs | Accounting Division | Completed |
| -Decided how to adopt" First-time Adoption of IFRSs" | Accounting Division | Completed |
| -Adjusted for related information system and internal | Finance Group, | Completed |
| control | Business Groups, | |
| | Information Group, | |
| | Internal Audit Office | |

| (c) Implementation Stage-Test operation of related information system | Finance Group, Business Groups, Information Group, Internal Audit Office | Completed |
|---|---|---|
| -Gather data to prepare balance sheets and compare the financial statements in conformity with IFRSs at the beginning of the year | Accounting Division | In progress according to the plan |
| - Prepare comparative information under IFRSs for 2012 | Accounting Division | In progress according to the plan |

c. As of December 31,2011, the potential significant differences of preparing financial statements between current accounting policies and IFRSs as evaluated by the Group are listed below :

| Accounting issues | Difference explanation |
|-----------------------|--|
| Employee Benefits- | Under R.O.C. GAAP, there is no regulations regarding the accumulated compensated |
| compensated absences | absences. After the adoption of IFRSs, if vacations are form of short-term compensated |
| | absences. The expected cost of short-term accumulated compensated absences should be |
| | recognized when the employees render service in accordance with IAS No.19," |
| | Employee Benefits." |
| Employee Benefits- | 1. Under R.O.C. GAAP, the pension cost and pension liability under the defined |
| post-employment | benefit pension plan are recognized on the basis of actuarial calculations. After the |
| defined benefits plan | adoption of IFRSs, the actuarial calculation for the defined benefit obligation is determined in accordance with IAS No.19," Employee Benefits." |
| | 2. Under R.O.C. GAAP, unrecognized net transition assets or obligations is |
| | amortised on a straight-line basis over the employee's remaining service period. In |
| | accordance with IAS No.19," Employee Benefits", it has to be recognized |
| | immediately, with the expense included in employee benefit cost for the period. |
| | 3. Under R.O.C. GAAP, pension actuarial gain and loss is recognized as current |
| | pension cost by corridor approach. After the adoption of IFRSs, it has to be |
| | recognized immediately under the other comprehensive income in accordance with |
| | IAS No.19," Employee Benefits." |
| Prepaid Card | Under R.O.C. GAAP, following the matching principle of accounting, the revenue and |
| Commission | commission from selling the prepaid card are recognized as revenues received in |
| | advance and prepaid expense. The revenue and marketing expense are recognized on |
| | basis of the minutes of usage. After the adoption of IFRSs, the commissions paid to the distributor which is considered to be the acquisition cost of the customers are recognized |
| | as commission expenses when it is incurred in accordance with IAS No.38, "Intangible |
| | Assets" since the payment of the prepaid card are all collected and the expenditures |
| | cannot provide any extra benefits. |
| Functional Currency | Under R.O.C. GAAP, the investment holding companies which are the consolidated |
| , | entities used US dollars as their functional currency. After the adoption of IFRSs, they |
| | have to determine the functional currency based on the requirement under IAS No. 21 |
| | "The Effects of Changes in Foreign Exchange Rates." |
| Customer Loyalty | Under R.O.C. GAAP, customer loyalty is estimated as expense when bonus points plan |
| Programmes | has incurred. After the adoption of IFRSs, bonus points, which is allocated based on the |
| | relative fair value method, should be included in deferred revenue and recognized as |
| | revenue when the third party fulfills the redemption obligations in accordance with |
| T | IFRICs No.13," Customer Loyalty Programmes." |
| Leases | Under R.O.C. GAAP, leasing of the base station or building is recognized as expense by |
| | each phase of the payment of rent. After the adoption of IFRSs, it has to be recognized |
| | as expense using the straight-line basis in accordance with the amount of contract or the |
| | amount of actual hike over the lease term in accordance with IAS No.17," Leases." |

| Bundle Sales | Under R.O.C. GAAP, the revenue of cell phone together with phone number is recognized by the selling price. However, such transaction is considered as bundle sales after the adoption of IFRSs. In reference with IAS No. 18" Revenue" and practical treatment in other countries, the Corporation will be required to identify the separate factors of transaction and recognized the revenue in accordance with the total fair value |
|------------------------|--|
| Revenue Recognition | of each item stated in the contract. There are some differences between the judgment of clients and agents under R.O.C. GAAP and the requirement of IFRSs. After the adoption of IFRSs, a rejudgement is required in accordance with IAS No.18,"Revenue." If the transaction is agent relationship, commission will be recognized as revenue instead of the amounts received from clients. |
| Classification of | Under R.O.C. GAAP, leased offices are classified as leased assets under other assets. |
| Leased Assets | After the adoption of IFRSs, they are classified as investment properties in accordance with IAS No.40," Investment Property." |
| Classification of Idle | Under R.O.C. GAAP, idle assets are classified as other assets. After the adoption of |
| Assets | IFRSs, they are reclassified as fixed assets depending on their nature in accordance with IAS No.16," Property, Plant and Equipment." |
| Classifications of | 1. Under R.O.C. GAAP, deferred income tax assets or liabilities are classified as |
| Deferred Income Tax | current or non-current according to the classification of related assets or liabilities. |
| Assets/Liabilities and | However, if deferred income tax assets or liabilities do not relate to assets or |
| Valuation Allowance | liabilities in the financial statements, they are classified as either current or |
| | non-current based on the expected length of time before realized. After the adoption of IFRSs, deferred tax assets or liabilities are all classified as non-current assets or liabilities. |
| | 2. Currently, valuation allowance is provided for deferred income tax assets to the extent that more likely than not such assets will not be realized. Under IFRSs, deferred tax assets are only recognized to the extent that it is probable that there will be sufficient tax benefits and the valuation allowance account is no longer used. |
| Financial Assets : | Based on SFAS No.34 and its relevant regulations, if the fair value of the financial |
| Equity Instruments | instruments can not be measured reliably (including the emerging and non-publicly traded stocks), it is measured at cost. Impairment loss is recognized if a decrease in fair value of the instruments can be objectively related to an event. After the adoption of IFRSs, if the fair value of financial instrument can be measured reliably, they are reclassified as available-for-sale financial assets and the measurement and evaluation are based on the fair value. |
| Affiliated Companies | Under R.O.C. GAAP, the proportion of share equity arising from additional share issuance by affiliated companies in which the original shareholders acquire new shares un-proportionately will be adjusted as additional paid-in capital or retained earnings. After the adoption of IFRSs, the resulting difference between the net fair value of the identifiable assets in excess of liabilities and the investment cost is included in profit and loss for the current year. |

d. The Group conducted the evaluation above is in accordance with the 2010 version of IFRSs, the Standing Interpretations Committee, and the International Financial Reporting Interpretations Committee accepted in the Financial Supervisory Commission.

The preliminary decisions of the aforementioned assessment results are all based on the current environment and circumstances of the Group. The principles may be impacted by the addition or the amendment of IFRSs issued or proposed by the International Accounting Standards Board and the possible future rules issued by R.O.C authorities.

e. Reclassification

Certain accounts in the consolidated financial statements as of and for the year ended December 31, 2010, have been reclassified to conform to the presentation of consolidated financial statements as of and for the year ended December 31, 2011.

11. ADDITIONAL DISCLOSURES

The additional disclosures required by the Securities and Futures Bureau for the Corporation and its investees were as follows:

- a. Financing provided: Table 1 (attached)
- b. Endorsement/guarantee provided: Table 2 (attached)
- c. Marketable securities held: Table 3 (attached)
- d. Marketable securities acquired and disposed of at costs or prices of at least \$100 million or 20% of the paid-in capital: Table 4 (attached)
- e. Acquisition of individual real estate at costs of at least \$100 million or 20% of the paid-in capital: Table 5 (attached)
- f. Disposal of individual real estate at prices of at least \$100 million or 20% of the paid-in capital: None
- g. Total purchases from or sales to related parties amounting to at least \$100 million or 20% of the paid-in capital: Table 6 (attached)
- h. Receivables from related parties amounting to at least \$100 million or 20% of the paid-in capital: Table 7 (attached)
- i. Names and locations of, and related information on investees on which the Corporation exercised significant influence: Table 8 (attached)
- j. Derivative transactions: None
- k. Investment in Mainland China:
 - (1) The name of the investee company in Mainland China, the main businesses and products, issued capital, method of investment, information on inflow or outflow of capital, ownership, investment gain or loss, ending balance, amount received as earnings distributions from the investment, and the limitation on investment: Table 9 (attached)
 - (2) Significant direct or indirect transactions with the investee company, its prices and terms of payment, unrealized gain or loss, and other related information which is helpful to understand the impact of investment in Mainland China on financial reports: None
- 1. Business relationships and significant intercompany transactions: Table 10 and Table 11 (attached)

Note 1: The Corporation's shares held by TCCI, TID and TUI (all are subsidiaries 100% owned by TCC) are classified as treasury shares. Therefore, the Corporation's carrying cost of \$76,457,449 thousand for TCC shall be reduced by 1) downward adjusting \$(31,077,183) thousand, the carrying value of total treasury shares on the Corporation's books, 2) excluding \$(28,636,318) thousand of unrealized gain from financial asset investment, 3) adding back \$475,907 thousand of income tax expenses resulting from TFN's and TFNI's disposal gain from the Corporation's shares, and 4) excluding recognition of upstream transactions gain of \$(24,503) thousand. Note 2: 70.47% of shares are held under trustee accounts. Note 3: The above amounts were translated into New Taiwan dollars at the exchange rate of US\$1=NT\$30.28 and HK\$1=NT\$3.896 as of December 31, 2011.
